

Unicorn Class

11.10.2019

What a lovely few weeks we have had. It has been great to see everyone settle and build on their friendships and learning.

Maths

We have been working primarily on shapes recognition. We have counted sides and vertices of all the basic shapes. Why not ask your child if they can see any shapes in their home?

Literacy

We are continuing to learn our letter sounds and for some, how to blend and read simple cvc words.

Understanding of the World

We have been learning about ourselves. We have looked at who is in our families and where they originate from, who are our friends and how do we treat them and where do we live and how do other people around the world live.

We have been super busy and all the children have worked hard and engaged with the many activities and learning opportunities.

Many thanks for your continuing support.
