

Unicorn/Fairy Class

05.02.2020

Welcome to Unicorn/Fairy Class.

Where has this half-term gone?

In Maths, we have been looking at measuring height and length, and sinking and floating. The children have really engaged with their maths, using the language and experimenting with the concepts.

In Literacy we have been thinking about how to write sentences and how to make them more exciting by using adjectives.

In Understanding of the World, we have continued on with our topic on Explorers. We have been investigating dinosaurs, jungle animals and sea creatures, with pirates!

We mustn't forget the wonderful trip to the Natural History Museum. Everyone was beautifully behaved and totally engaged in their learning. We had a lovely day.

Thank you for your continuing support.
