

# Gnome Class Web Update

## 2/12/19

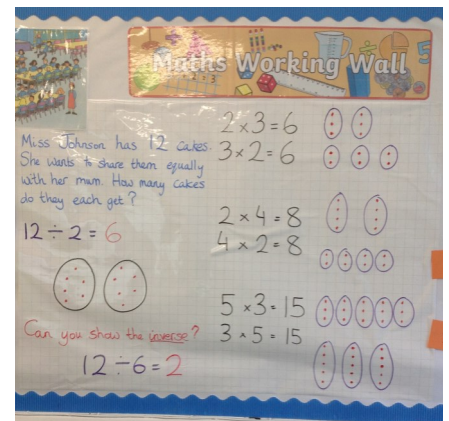

Gnome Class have been very busy doing lots of exciting learning this half term!

In Literacy we have been reading the story 'Flat Stanley' by Jeff Brown and writing diary entries about his adventures from his point of view.

In Maths we have been learning how to skip count in 2s, 5s and 10s and then using this to solve multiplication and division problems.

In IPC we have been making maps using key geographical features and keys.

We have also started to help Kids on the Green build brand new 'buddy benches' for our school playground!
