

Gnome Class Web Update

14.01.20

Happy New Year from Gnome Class!

We have had a brilliant start to the half term!

Our new IPC topic is called 'Super humans' and we are really enjoying are learning in this topic. For our entry point we gave our bodies an MOT and explored how our wonderful bodies work. We learned about our anatomy and organs, how to take our pulse and healthy and unhealthy foods. We also became surgeons, dentists and doctors and took part in yoga.
