

Giant Class Web Update

In Literacy, we have been reading the text "How to Wash a Woolly Mammoth".

We have explored the features of instructional texts, generates commands using bossy (imperative verbs) and then written our own instructions explaining how we would wash a Woolly Mammoth if we had one as a pet!

In Maths we have been solving word problems involving addition and subtraction, using the column method to solve them! This has really helped us with our place value and reasoning

We have also been learning lots about the Bronze Age and Iron Age in IPC. We designed our own Bronze Age settlements and then made Iron Age roundhouses! We first wrote out our instructions explaining how to make the best roundhouse and we then used our writing to make them!
