

In Troll Class this week, we have focused on writing a play script in the perspective of a character from Jumanji. We made sure we included detailed stage directions that had adverbs, adjectives and prepositions. In Maths we have focused on multiplication and division. We learned a range of methods on how to solve the sums and how to use inverse when solving missing number problems.

Additionally, within the week we have learned how water travels in a plant. We conducted an experiment using celery and coloured water. We left our celery in the coloured water for a few days to investigate whether the coloured water will travel up the stem and dye it. We then Dissected our celery to find out more.

Troll Class did such an amazing job this week. Well done Year 3!
