

Year 5 have had a super start to the new school year, settling well in to Centaur and Griffin classes.

During our first week back, we discussed the importance of Growth Mindset and considered how it could support us in our learning for the rest of the year.

We have also started our brand new IPC and Creative Curriculum focus: Space Explorers! We researched, designed and built space rockets before pitching our ideas to NASA in a persuasive letter in the hope that our model would be considered for the next space mission to the ISS.

We are so looking forward to the rest of the year, keep it up Year 5!
