

## Year 5 website update 23.4.18

We have started our new IPC unit 'What a Wonderful World.' We will be using our geography skills throughout the unit to find out how natural forces have been shaping our planet for many billions of years and these dramatic changes are still going on, right now, all around us. As well as this, we will be learning more about the physical processes that shape

our planet - and the vital role that we play in safeguarding our planet and its resources for future generations.

A huge thank you to all of the adults who came to celebrate our 'Globetrotters' party on Friday. We thoroughly enjoyed having so many people in our classrooms to share our home learning. As well as this, we shared some incredible food from around the world. What a great start to our IPC topic.
