

## Moving people entry point

For the introduction to our Geography topic 'Moving people', we began to explore the terms migrant and refugee. We explored what it means to be a refugee and some of the reasons behind this, before heading outside to create our own 'camp'. We worked in groups and used a range of resources and materials with the aim of creating a weatherproof and safe shelter. We also explored possible routes we could take on our journey from Ukraine to surrounding countries, who were accepting refugees.

One of the routes the refugees could take is Ukraine to moldova and some of the landmarks that you could see on the way could be Catedrala Nasterea Domnului, Saint Sophia Cathedral and bendery Fortress.

Route one: ●

The journey is 587 miles.
