

## Sprite Class

This half term the children have been working super hard to prepare for their SATs tests, which begin on **Tuesday 9<sup>th</sup> May**. Well done to those children who regularly attend their boosters and complete all homework!

We have been learning all about Early Civilisations, with a focus on Ancient Egypt and Ancient Baghdad. The children designed and created Canopic jars, the Ancient Egyptians would use these during the mummification process to store some of their internal organs.

Finally, I was SO impressed and proud of our class last week as we designed and built our own robot... MiniMap! The children blew me away with their teamwork, problem solving and design skills. Some children took charge of the design process whilst the others headed up the coding section (programming Mbots and Microbits).

Well done Year 6 for a super Spring Term. You make us proud every single day! Please remember to complete the additional revision on Atom Learning over the Easter Break.
