No	0.00% 0

So glad we chose this school for L, it's a 10/10 for me

I was apprehensive before G started school with the COVID situation and because he had not been a nursery for a while. But from his very first day he has loved it! He's enjoying learning so much and I am so pleased he seems to have settled so well.

Considering the current climate, I has settled into school so incredibly well and absolutely loves it. As a parent I feel settled knowing she is enjoying herself and I feel well informed with what is going on. I think as a school you should be hugely proud of how you have adapted to the challenges and as a family we are so grateful.

Just a big thank you because B's first year in school during a pandemic has been scary but you've handled it wonderfully. I feel that he is safe and he comes home happy which is wonderful! So thank you Park Road.

Thank you to all of the staff who have supported H in his first term. He absolutely loves coming to school and is very proud to be part of his class.
