

# SUPER LEARNING DAY PHOTOS

Friday 8th October was our SUPER LEARNING DAY for year 7 and everyone had lots of fun and it was something different to our normal lessons but you all still learnt lots of new things.

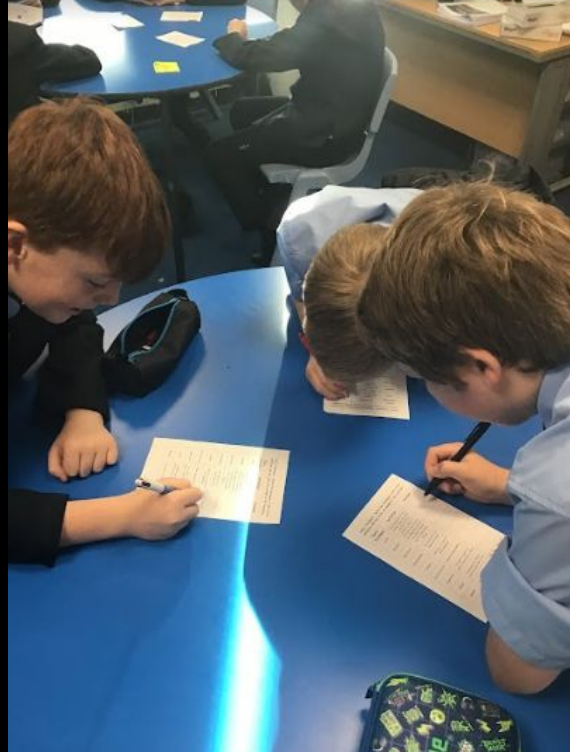

The day was taught by our Ambassadors for Learning and other leaders around school. Pupils really enjoyed being taught by older students for a change.

On these next slides, you will see photos from all across the day!

One of our sessions was called **“Being a great learner”**

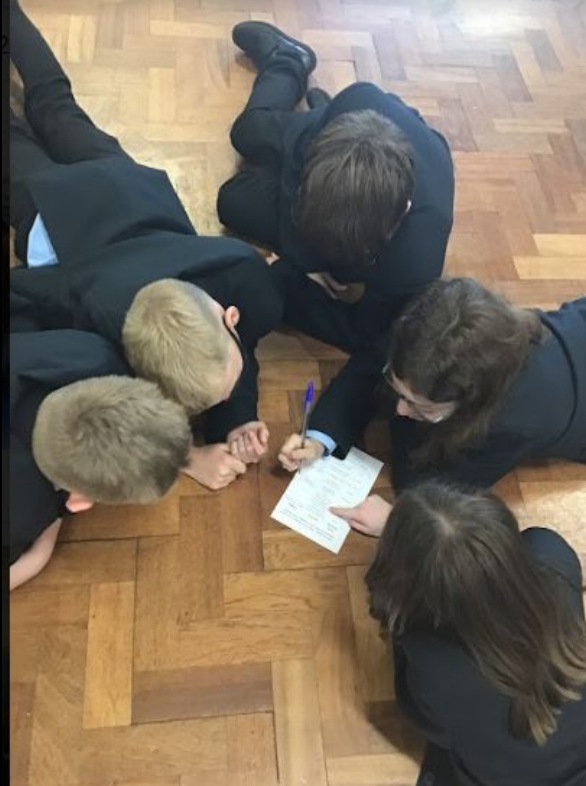

Pupils were given tasks and games to play together...

Whilst they were playing and working hard, 3 of our Ambassadors were displaying different behaviours - some positive and some negative!

Year 7 then had to work out, who was displaying positive behaviour and who was showing behaviour we don't want to see at Parklands!

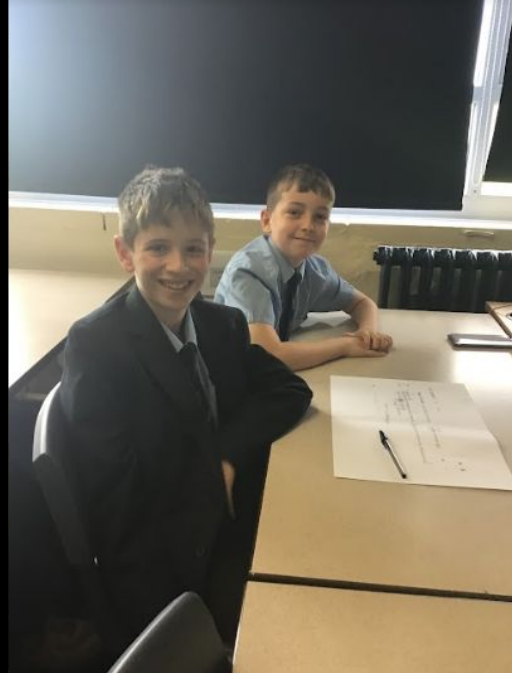

We then  
discussed what  
we had seen and  
we heard some  
great answers on  
how to be the  
**BEST** learner we  
can be!

Another session  
was all about  
**“Technology at  
Parkands”**

We looked at how  
we use email,  
Google  
Classroom and  
Photos at school.

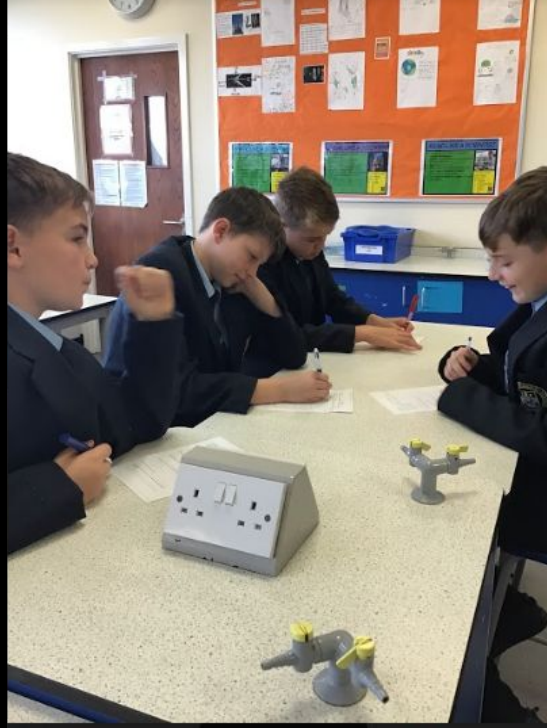

Pupils looked at a really rude email and had to work out what was wrong with it...

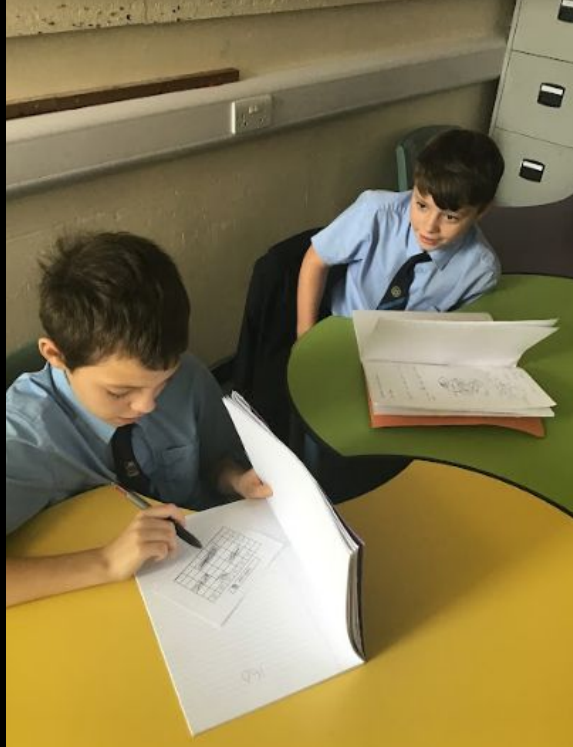

We then used  
what we had  
learnt to send  
emails to  
teachers in our  
school!

I received 3 really  
polite ones! We  
had clearly learnt  
a lot!

Finally, we had a  
session on  
**“Friendships”**

Making friends  
can be really  
tricky and in this  
session we looked  
at how to cope  
with change and  
peer pressure.

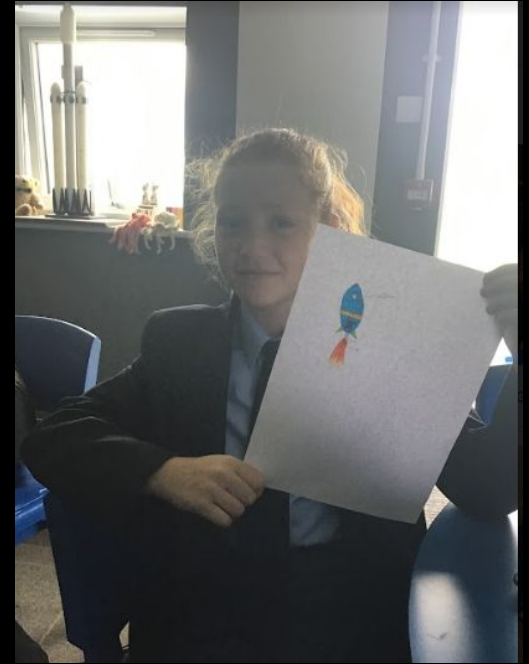

Pupils gathered in groups based on their interests and worked on tasks and then ended with conversations with new people!

We were all getting to know each other more!

P4, we had a session on **“Leadership”**

Pupils got to opt into a session for this and we had a wide range of choice, from STEM to RADIO!

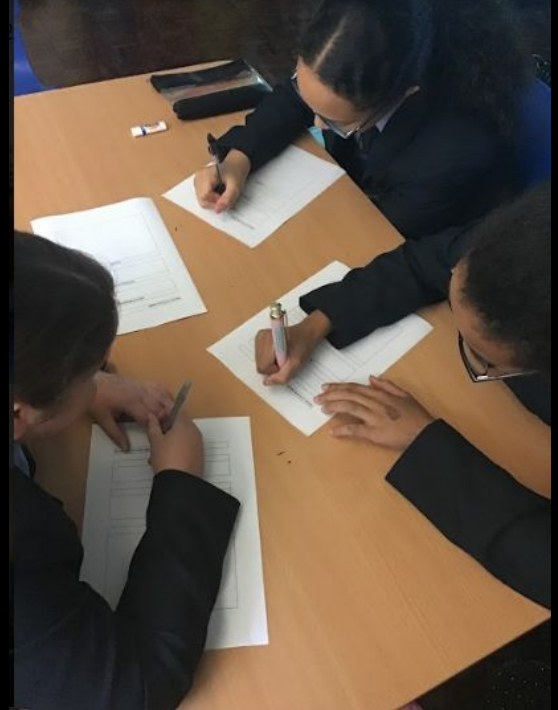

Some pupils  
made radio  
podcasts!

They recorded  
this in our  
recording studio  
and had a great  
time!

They sounded  
brilliant!

We also had sporting groups and we looked at what makes a good sportsperson and leader and then we put these skills into practice!

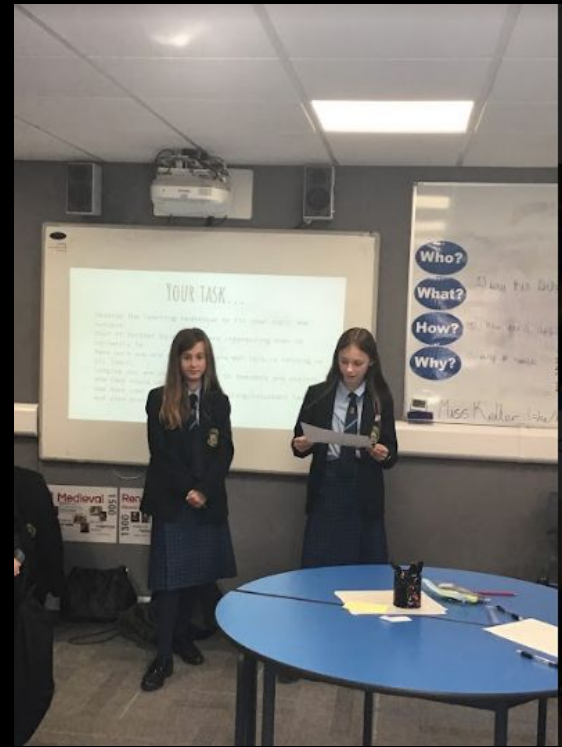

We learnt, what it  
will be like to be a  
Digital  
Ambassador and  
we hope to have  
some people sign  
up!

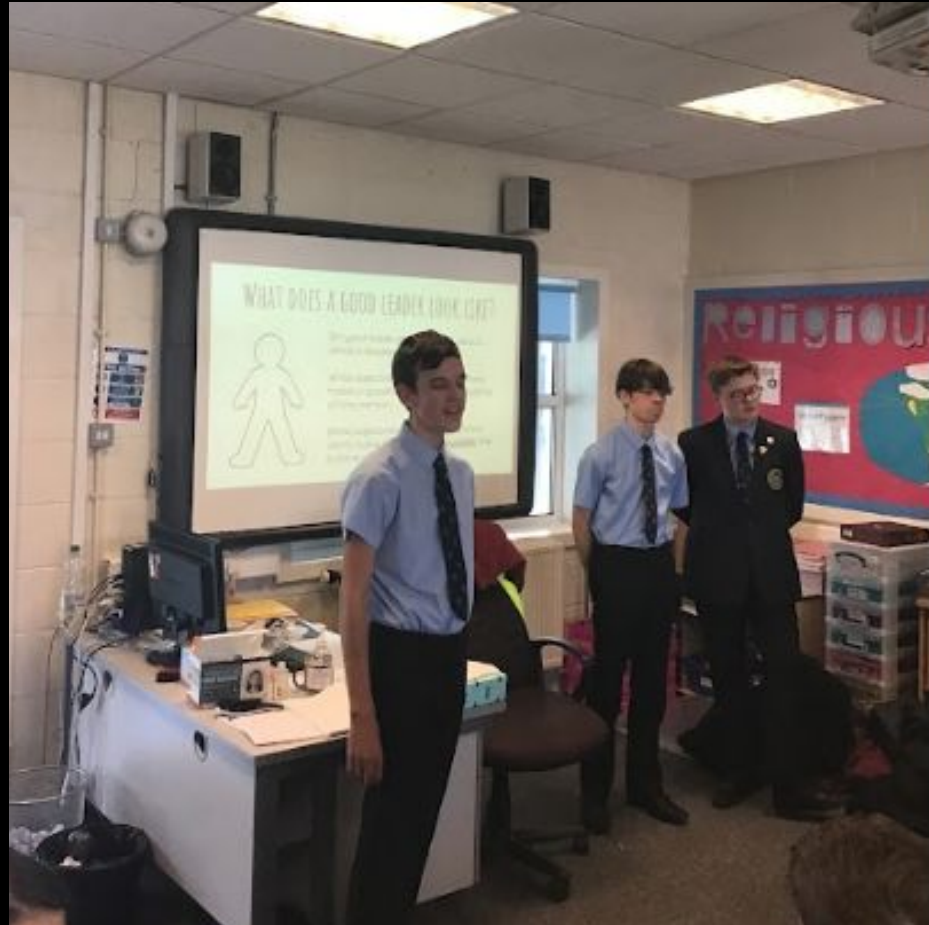

STEM, looked at  
robotics and we  
saw a robot solve  
a Rubik's Cube!

Our English  
learning leaders  
put their creative  
hats on and our  
Ambassador for  
Learning team  
gave  
WONDERFUL  
presentations!

Finally, our Charity team looked at the features of a good leader and they used teamwork skills to solve tasks as a group! It was great fun!

The whole day was an absolute success and these photos show the happiness and fun we all had and we all learnt something new!
