

CAREER News

2026

Your weekly guide to careers information, advice and news from Parklands High School

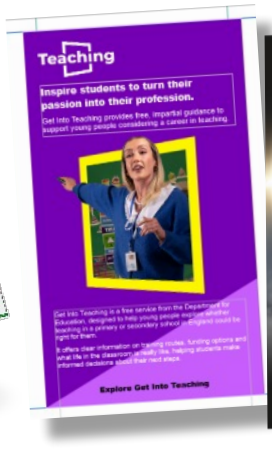

Welcome back, I hope you all had a great half term break.

As always, there are loads of great opportunities inside, including:

- The chance of work experience with British Transport Police
- Medical and dental conferences and the return of the Virtual Medical Society
- The UCAT Essay competition for aspiring medics, dentists and vets
- More open events at local colleges over the coming month
- Test your puzzle skills with the fiendish GCHQ Christmas card challenge

Plus lots more!

For any career related queries, please email:
pberry@parklandsacademy.co.uk

Have a great weekend

16th - 20th November 2026

KPMG's apprenticeship vacancies are open for applications now!

Start building more than experience.

Hafsah joined KPMG as an apprentice ready to hit the ground running. Since then, she's dived into all sorts of projects, built up the confidence to pitch to clients, and taken on more as she's grown.

Her impact didn't stop with her day job, though. As charity lead for KPMG's Muslim Network, she helped raise nearly £80,000 for great causes in just one year, all while leveling up her own skills and career.

That's the kind of launchpad a KPMG apprenticeship offers. Real hands-on work, real responsibility, and the chance to keep growing while making a mark on what matters to you.

With Audit, Tax, Business and Technology apprenticeships open now, there could be something for your students at KPMG. Explore the vacancies and share them with young people who might be interested in taking their first steps into an exciting career.

Explore Apprenticeships

Why not join us on **Tuesday 2nd February 2027**, 4pm-5pm, to find out what it's really like to start an apprenticeship at KPMG.

You'll hear directly from current apprentices about their experiences, the move from school to the workplace, the support they receive and what they enjoy most about life at KPMG. You will also get practical advice from the recruitment team on the application process, what they look for and the different opportunities available across Audit, Tax, Business Services and Technology.

Register Here

And don't forget to... Meet the Employer

Help your students get application-ready with KPMG - Explore KPMG's Meet the Employer profile

Meet the Employer is a great place for students to start if they're thinking of applying for a KPMG apprenticeship.

Discover the key skills and attributes KPMG looks for in apprentices, gain insight into the application process, learn about the support available, see what life's like behind-the-scenes, and hear from real apprentices about their experiences.

SESSION 1 · TUE 1 DEC · 18:30 GMT

University, apprenticeship or both? Meet three people who chose differently.

900+ students have booked Session 1 of our free ACCA series. Hear how people really got into accountancy, and which route could suit your child.

Save my place

Three ways in

THE APPRENTICESHIP ROUTE

Natasha

Chose the apprenticeship route after A-levels and qualified as a Chartered Certified Accountant (ACCA) in 2023.

DEGREE, THEN TRAINEE

Lauren

Joined Menzies LLP as an ACCA trainee after a business degree, and now works across insolvency, restructuring and advisory.

YOUR GUIDE

George Tsounias

A former secondary school teacher at ACCA, focused on widening access to accountancy for young people.

What you'll find out

- The practical routes open to school leavers
- How apprenticeships, foundation qualifications and degrees compare
- What a career in accountancy looks like in practice
- A live Q&A for your child's questions

TUESDAY 1 DECEMBER - 18:30 GMT

Pathways into Accountancy

900+ booked

success at school

There's additional information at https://www.myerscough.ac.uk/whats-on/

We've a choice of subjects, covering a wide range of land-based industries (from Agriculture and Equestrian Studies to Motorsports and Veterinary Nursing.) There's also a choice of Sports Coaching and Performance routes - across Football, Rugby, Cricket, Golf and Basketball.

There are options at a range of levels within each subject, from bespoke Foundation Learning courses through to Level 3 Diploma suites and dedicated T-Level routes; ideal for progression to university. Plus Apprenticeship opportunities in most subjects!

Information about transport routes, financial support and accommodation (at our Preston centre) is available here: https://www.myerscough.ac.uk/students/

There's a link here to our recent Ofsted report. We're really proud of the feedback in relation to key elements such as student support, quality teaching and careers progression: https://www.myerscough.ac.uk/news/an-ambitious-progressive-curriculum-myerscough-s-pride-in-glowing-ofsted-report/

FREETHS

Get into Law with Freeths: free online event for students interested in law

Find out how to land a training contract at a top 50 UK law firm, straight from the people who hire.

Date: Thursday 19 November

Time: 5:00pm – 6:00pm

Where: Zoom

Want to become a lawyer at a top firm?

Young Professionals is teaming up with Freeths, one of the UK's top 50 law firms, for a free online evening. You'll hear exactly how people get into the firm, from work experience and Future Talent programmes to training contracts, and what Freeths looks for when it hires.

The event falls on International Men's Day. It's open to all students, and it's about the part we can all play in building a future where everyone can do well, at work and beyond.

Whether you're set on law or just exploring your options, it's a great thing to mention on your UCAS, degree apprenticeship or training contract applications.

Sign up now

On the day

01 **Routes into Freeths**. Learn how training contracts work at the firm, how to apply and what makes a strong candidate.

02 **Ask the people who hire**. Put your questions directly to trainees, lawyers and the recruitment team.

03 **Real career stories**. Hear honest experiences from people at all levels, including wellbeing, role models and inclusion at work.

04 **Your first step**. Find out about the Future Talent programmes that can lead to a training contract.

Why Freeths?

Freeths is a Stonewall Diversity Champion, a Top 30 Employer for Working Families, and was named Law Firm of the Year at the City AM Awards 2025.

Open to all Year 12, Year 13 and university students

Places are given out first come, first served, so sign up soon so you don't miss out.

FUTURES FOR ALL

We're recruiting our 2027 Youth Council

ARE YOUR STUDENTS INTERESTED IN HELPING US SHAPE THE FUTURE OF CAREERS EDUCATION?

The Futures For All Youth Council acts as an advisory board for our teams, providing valuable insights and perspectives from young people to help improve our programmes. Members have the opportunity to give feedback on student resources, write blog articles about their experiences, and record short videos to inform and inspire other young people.

As we prepare to welcome our new Youth Council in January 2027, we're looking for up to 15 enthusiastic young people who want to make their voices heard on topics relating to careers education and future career opportunities.

There may also be opportunities to attend or speak at educational events, take part in roundtable discussions with policymakers, MPs and employers, and access training to develop new skills and build confidence.

Applications open on 2 November 2026 and close on 20 November 2026.

WATCH THE SHOW FOR FREE AFTERWARDS!

TO BOOK YOUR PLACE EMAIL:

ALCOLLECTIVE@CARDINALNEWMAN.AC.UK

We've got some fab free online work experience programmes available for your students. E.on launched this week for anyone wanting to learn about the energy industry. The latest Channel 4 cohort has just started and we've got lots more with the likes of Metro Bank, Specsavers, Sysco, Renishaw, Mischon and more. They can sign up quickly and easily at **www.talentxp.co.uk** and complete it at home or in class.

This competition is now open: TheUKCATPeople Essay Competition 2027, with a medicine, a dentistry and a vet question, open until 31 January.

1,000+ students and parents a year

That is how many join our free webinars each year. Places are limited and they usually fill up, so it really helps to share this one early. Students register themselves, one registration per household, and the session is live only, with no recording.

Get the webinar link

Now open · Closes 31 January

TheUKCATPeople Essay Competition 2027

One question per subject, each about a real debate in healthcare today. It is a great way for a student to read around their subject and test an argument, and winners and highly commended entrants can name the award in their application.

Medicine

Whose job is it to keep people healthy: the patient's, the doctor's or the government's? Details

Dentistry

Should fluoride be added to drinking water across England? Details

Veterinary medicine

Should it be illegal to breed dogs whose body shape gives them lifelong health problems? Details

Over £800

for the medicine and dentistry winners: a UCAT course, an interview course, a personal statement review and an interview guide

Over £700

for the vet winner: a two-edit personal statement review, a mock interview and an interview guide

2 per subject

highly commended entrants, who each get our £349 interview questions and answers guide

Free to enter, for Year 11 and Year 12 students in any country

Up to 1,000 words, uploaded as a Word document

Closes at 11:59pm on Sunday 31 January 2027, with results by Friday 12 March

Every entrant gets a certificate of entry

See the essay competition

FREE TO ENTER: YEAR 11 AND YEAR 12, FROM ANY COUNTRY

TheUKCATPeople Essay Competition 2027

Medicine, dentistry and veterinary medicine. One question per subject, up to 1,000 words, judged anonymously by doctors, dentists and vets.

WINNERS' PRIZES WORTH OVER £800

MEDICINE

The NHS wants to move from treating sickness to preventing it. Whose job is it to keep people healthy: the patient's, the doctor's or the government's?

Winner's prizes worth over £800

DENTISTRY

Should fluoride be added to drinking water across England? Weigh up the evidence, the ethics of treating a whole population without individual consent, and who stands to gain the most.

Winner's prizes worth over £800

VETERINARY MEDICINE

Should it be illegal to breed dogs whose body shape gives them lifelong health problems, such as flat-faced breeds that struggle to breathe?

Winner's prizes worth over £700

- Entries close 31 January 2027
- Winners announced by Friday 12 March 2027
- A certificate of entry for every finished essay

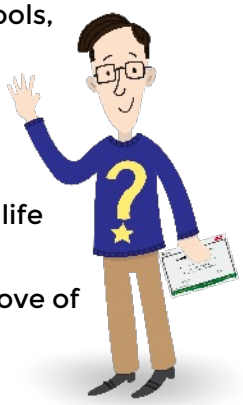

A brief history of the GCHQ Christmas Challenge

For many years Director GCHQ has traditionally sent a Christmas card to national security colleagues and partners across the world who work alongside us every day to counter organised crime gangs, terror groups and hostile states looking to do the UK harm.

The cards have always included a brainteaser, designed by our own expert puzzle team, as a nod to our work which sees us solving the most complex of problems. These teams volunteer their time, alongside their important work, to set, solve and devise fiendish puzzles and problems that we have loved sharing with you in the form of three best-selling Puzzle Book publications.

In 2021, the card evolved and became the GCHQ Christmas Challenge.

Designed for 11-to-18-year-olds, it aims to support greater take up of STEM subjects in schools, colleges and home-school environments.

While the puzzles are designed for students, we always encourage the wider public to take on the challenge and test themselves against friends and family, and each year hundreds of thousands of you take on our festive challenge.

That teamwork, coupled with that rich mix of minds brings the puzzles and problems to life each December.

There are no prizes, no races - even giving it a go is a success and we want you discover a love of problem-solving and testing a new part of your mind through puzzling.

Warm up for this year with our Christmas Challenge Archive

Why do we share puzzles?

GCHQ's mission is to help keep the country safe. In doing so, we face increasingly complex issues and threats every day.

In order to keep up with the ever-changing environment we work and live in, and to protect it effectively, we need to have the right mix of minds approaching every single problem that comes our way using the best methods possible.

This does not just happen. We need to adapt and innovate constantly. Through the design, creation and solving of puzzles, our teams are able to constantly develop their skills in thinking differently and discover new and inventive ways of approaching problems.

Whilst this does not mean that staff at GCHQ spend their time putting together jigsaws and filling out crosswords, it does ensure that we attract colleagues who enjoy spending their time creating and solving puzzles, and we believe that the skills that we use in setting and solving these brainteasers are the same ones we use across our mission areas, solving the toughest of problems every single day.

Puzzles are a brilliant way to hone your creative thinking skills whilst having fun, and it helps to keep us at the cutting-edge of what we do best. It is through puzzling that we are able to showcase the skills and traits that our brilliant people use in our missions in helping to keep the country safe, and hopefully inspire the next generation of analysts, engineers, codebreakers and mathematicians to spark a love of STEM alongside the classroom.

Teaching

Inspire students to turn their passion into their profession.

Get Into Teaching provides free, impartial guidance to support young people considering a career in teaching.

Get Into Teaching is a free service from the Department for Education, designed to help young people explore whether teaching in a primary or secondary school in England could be right for them.

It offers clear information on training routes, funding options and what life in the classroom is really like, helping students make informed decisions about their next steps.

Find Your Field

Free email series to help students prepare for the future.

The world of work is changing fast and there's huge pressure on students to start thinking about their future.

Find Your Field is designed to help students feel more confident about their next steps. Each week, we'll introduce a new topic, share practical advice and give them an interactive task to complete.

By the end of the series, they'll have a better understanding of their strengths and values, discover careers that could suit them and have tangible next steps that they can take!

SIGN UP HERE

What will the students receive?

There will be five emails in the series answering the following questions:

- Why should an employer pick me?
- What brings me fulfilment?
- Which career is the right one for me?
- How do I get into the career that I want?
- How do I get relevant work experience?

There will be a range of tasks for the students to complete throughout the series, such as quizzes and other interactive activities. We have selected tasks that will be both useful and enjoyable for the students; they will not feel like extra homework!

Work Experience with British Transport Police

- **Are You Aged 14 to 17?**
- **Curious about policing and the different careers within it?**
- **Looking for an exciting work experience opportunity?**
- **Want to make a difference in your community?**

If so, we'd love to hear from you.

Discover Policing with British Transport Police

The British Transport Police (BTP) Work Experience Programme gives young people the chance to learn about policing and the many different roles that help keep Britain's railways safe.

You will meet officers, police staff and volunteers from a range of teams and gain an insight into what life is like in a national police force.

Please note that this is an educational work experience programme. Students will not carry out operational policing duties and will not be placed in active operational environments.

All successful applicants will take part as part of a group and will complete the programme alongside other students.

What You'll Experience

Depending on the location and dates you attend, you may learn about:

- Police officers
- Firearms teams
- Police dogs
- Crime scene investigators (forensics)
- Detectives
- Intelligence teams
- Contact centres
- CCTV
- Custody
- Force Control Rooms
- The criminal justice system and courts

Activities may include presentations, demonstrations, discussions, case studies and interactive exercises.

Please note that activities vary between locations and dates. Not every placement will include every team.

What You'll Gain

By taking part, you can:

- Learn about careers in policing
- Understand how BTP keeps the railway network safe
- Develop confidence and communication skills
- Meet people working across different areas of policing
- Find out about future career opportunities
- Build your CV and gain valuable experience

Who Can Apply?

To apply, you must:

- Be aged 14 to 17 at the time of the placement, in secondary school or college
- Have a personal email address
- Be able to travel to the location where your placement takes place

Students who are 18 or older when the placement begins are not eligible for this programme.

2027 Work Experience Programme Dates

26 – 29 July 2027 - Manchester

31 August – 3 September 2027 - Manchester

Please only apply for dates that you can fully attend. We are unable to offer alternative dates, locations or bespoke placements.

Please read the following carefully:

Parent or Guardian Awareness

Your parent, guardian or carer **must know that you are applying for the programme**.

However, we expect the application to be completed by you. While parents, guardians and teachers can support you, your application should reflect your own interests, experiences and ambitions.

Use of Artificial Intelligence (AI)

You may use tools such as spellcheck to help you, but we want to hear about you.

Applications that appear to have been written largely by AI or another person may not accurately reflect your personality, motivations and suitability for the programme.

Attendance Expectations

If you are offered a place, we expect you to attend **all dates** of your placement.

Please only apply if you can commit to the full programme. Partial attendance is not normally possible.

Travel Requirements

You may need to travel to the programme location and, in some cases, between sites during the placement.

Please make sure you can arrange any required travel before applying.

Dates and Locations

Unfortunately, **we cannot accommodate requests for alternative dates, locations or personalised placements** outside those advertised.

Please apply only for locations and dates that you can attend in full.

Group-Based Programme

All successful applicants will be placed within a group of students. The programme is designed to be completed alongside other young people and includes group learning activities throughout.

Important Information About Places

Applying for the programme does not guarantee a placement.

We receive a high number of applications each year and places are limited.

Please do not book travel, accommodation or make any other arrangements until you have received confirmation that you have been offered a place.

Successful applicants will be notified in early 2027.

Accessibility and Adjustments

We welcome applications from disabled young people and those with long-term health conditions.

If you need any adjustments to take part, please tell us when you apply. We will work with you and, where appropriate, your parent or guardian to understand what support may be needed.

As facilities and activities differ between locations, adjustments will be considered on a case-by-case basis.

We are committed to removing barriers wherever possible so that all young people have the opportunity to participate.

About British Transport Police

British Transport Police is the national police force responsible for policing Britain's railways and transport networks.

Every day we help protect millions of passengers, railway staff and infrastructure across England, Scotland and Wales.

From safeguarding vulnerable people and preventing crime to responding to major incidents and supporting communities, we are proud to provide a professional, innovative and community-focused policing service.

Ready to Apply?

If you're interested in learning more about policing and the people who help keep Britain's railways safe every day, we'd encourage you to apply.

For questions about the programme, please contact:

volunteers@btp.police.uk

We look forward to welcoming the next generation of talent to British Transport Police.

PRESTON COLLEGE

Over the last few years, the college has seen large growth in numbers but especially within Plumbing, Electrical Installation and Automotive provision. Moving forward we have put the following process in place and will be communicating this to all applicants that apply to Preston College for September 2027.

This year has seen the highest number of enrolments for over 10 years and a number of courses at Preston College are now oversubscribed. The college will now be embedding an application deadline of 1st April 2027. There have been a number of students who uploaded GCSE results past the enrolment deadline, meaning they are now currently on waiting lists. We are working with these students to support them and look at alternative provision available. All construction-based courses, Automotive, Hairdressing and Beauty Therapy and Engineering based courses are oversubscribed and I would encourage any student who is interested in these areas to apply early. The college this year will be investing £4 million into the Construction and Built Environment buildings which will enable the opportunity for growth. We will also be investing £1 million into our Automotive provision.

Applications open on 1st October and will close on 1st April 2027 for all levels of Plumbing and Electrical and also Level 1 Automotive.

Students must apply within these dates and attend their interview.

Once offered a place students must accept this offer on their enrolment portal.
GCSE grades must be uploaded to the enrolment portal by 5pm on GCSE results day. For Electrical and Plumbing we are advising students they need both Maths and English Language at a minimum Grade 4. Failure to obtain these grades will result in the college giving IAG to students about other courses.

Students must then attend a process day on Monday 23rd August, and this will be communicated via letter to parents and students.

Unfortunately, students that fail to follow the process will be redirected to other provision. All students that have an interview for these 3 courses will be handed a leaflet that shows the above process. We will also email them an offer that relays this information.

Hopefully this is a clear expectation for students who want to study the above college courses.

Springpod is a platform that offers virtual work experience, career exploration programmes, and university insight courses for students and young people. The main benefits are:

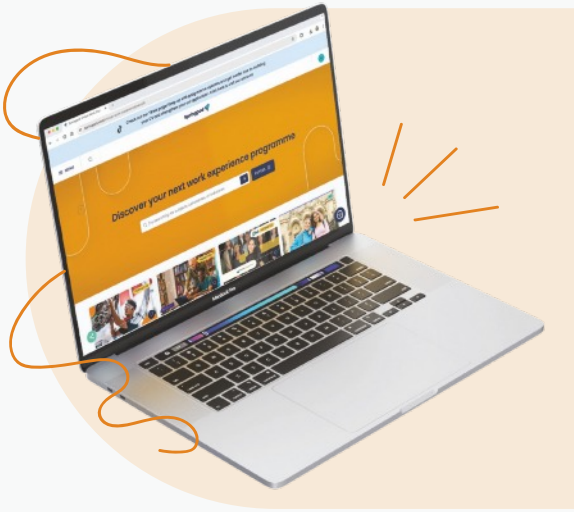

- Builds your CV and personal statement
- Completing programmes gives you certificates and practical experience you can mention in CVs, UCAS applications, apprenticeship applications, and interviews
- Let's you explore careers before committing
- You can try areas like tech, engineering, fashion, healthcare, business, media, and finance to see what actually interests you.
- Flexible and online
- Most programmes are self-paced, so you can complete them around school, college, or other commitments. Talks are usually recorded if you miss them live
- Gives access to major employers
- Springpod partners with organisations such as BBC, Barclays, Oracle, NHS, and Rolls-Royce, so students can learn directly from industry professionals
- Helps develop employability skills
- The programmes include workplace tasks, projects, quizzes, and simulations that improve skills like communication, problem-solving, teamwork, and resilience
- Good for students without local opportunities
- Because it's virtual, you can access experiences that may not exist near where you live or that would normally require connections or travel
- Can lead to in-person opportunities
- Some "Virtual-to-Reality" programmes can progress into real-life work experience placements if you complete the online programme successfully

MENTORVERSE

We are pleased to inform you that registration for the national free Live Virtual Get Into Medicine and Get Into Dentistry Conferences has opened, designed for students interested in a career in medicine and dentistry. Attendees will also receive a certificate of participation, which can enhance their Medical/Dental School applications by showcasing active preparation towards the career and university.

These LIVE virtual conferences offer a comprehensive guide through the entire medical and dental application journey, allowing students to gain key insights into the UCAS application process, connect with doctors, dentists and medical/dental students, and gain a clearer view of a future in medicine or dentistry. You can register here:

Medicine: https://medicmentor.org/get-into_medicine_conference_signup/

Dentistry: https://dental-mentor.org/get-into-dentistry-conference-sign-up/

Upcoming Get Into Medicine Conference dates:

Saturday 21st November from 9.00am - 1.30pm **Saturday 28th November from 9.00am - 1.30pm**

Upcoming Get Into Dentistry Conference dates:

Sunday 15th November from 9.00am - 1:30pm

During this conference, students and parents/guardians will have the opportunity to meet and speak with our excellent team of mentors and scholars, who will cover essential application and academic topics such as:

- Application Timelines
- How to Tactically Choose Medical and Dental Schools
- Personal Statements
- Medical/Dental School Interviews
- UCAT Exam
- National Leadership and Awards Programmes
- Accessing Work Experience
- Accessing Scholarships

We strongly encourage all students to make the most of this free opportunity that has helped thousands of students secure places at university since it launched:

Medics: https://medicmentor.org/successful-student-journeys-reviews/

Dentists: https://dental-mentor.org/successful-student-journeys-reviews/

9:30am	Why medicine/dentistry? Overview of GMC/GDC Standards, skills and training pathways. Academic requirements and Widening Access
10:10am	Break (Q&A optional) 10 minutes
10:20am	Competition Ratios, Entry Requirements, Work Experience, Volunteering, Guided Pathways
10:55am	Break (Q&A optional) 10 minutes
11:05am	Personal Statements, Extra and Supra-curricular activities
11:30am	Top Tips from a Successful Applicant (Current Med/Dent Student)
11:45am	Break (Q&A optional) 10 minutes
11:55am	UCAT entrance exam
12:25pm	Break (Q&A optional) 10 minutes
12:35pm	Medical/Dental school interviews & Comprehensive Application Support
1:00pm	Successful Medical/Dental Applicant (Current Student)
1:15pm	Final Q&A and attendance link for certificates

One booking = one booking for a student + their parent/guardian.

Getting into medicine or dentistry may seem like a far away dream to your students, but we're here to break down the entire process into actionable steps and support their journey.

MENTORVERSE

For students in the 10-11 year groups, we present the following avenues:

- Free NHS Virtual Work Experience
- Free Volunteering Placements with the 'You Okay Doc?'
- Free National Study Skills E-learning
- Free Virtual Medical/Dental Society Webinars
- Free Equality, Diversity, and Inclusion E-learning Course for Healthcare Professionals

Your students can access these extracurricular opportunities by signing up for a free student portal:

Medical: https://medicmentor.org/the-medic-mentor-portal-2/

Dental: https://dental-mentor.org/the-medic-mentor-portal-2/

As students begin thinking about their future university applications, gaining early exposure to healthcare professions can help them make informed decisions, develop their understanding and build valuable experiences.

We're delighted to announce that our Virtual Medical Society (VMS) and Virtual Dental Society (VDS) sessions will begin again on Tuesday 17th November!

Our VMS sessions will run weekly, while our VDS sessions will take place every two weeks, providing students with regular opportunities to explore Medicine and Dentistry, develop their understanding of clinical practice and gain meaningful experiences to reflect upon in their future university applications.

Through our Virtual Societies, students can:

- Explore different medical and dental specialties
- Develop their understanding of patient care and clinical decision-making
- Gain insight into the responsibilities of healthcare professionals
- Build their reflective skills and understanding of the profession
- Develop experiences to support their future UCAS applications and interviews

CONFERENCE

One of our doctors (Chief Mentors) will take you step-by-step through your application to medical school.

This includes:

- Application Timelines
- Interview Training
- Personal Statements
- CV Building
- UCAT Exams
- Extracurriculars
- Accessing Medical Leadership Programmes, Awards Programmes and Scholarships to University

You'll also hear from a recently successful applicant on what it takes to make your candidacy to medical school stand out!

MEDIC MENTOR
YOUR MEDIC FAMILY

NHS
University Hospitals Birmingham
NHS Foundation Trust

Understanding the pivotal role that work experience plays in shaping a student's perspective on their future career, we're delighted to extend an invitation to your students to participate in our FREE 6-month medical or 4-month dental virtual work experience programme.

Aiming to provide students with insights into the medical and dental fields, this free virtual work experience empowers students to make informed decisions about their future.

Students aged 14 and above are eligible to apply for a placement for FREE through these links:

Medicine: **https://medicmentor.org/university-hospitals-birmingham-trust-virtual-work-experience/**

Dentistry: **https://dental-mentor.org/university-hospitals-birmingham-trust-virtual-work-experience/**

Virtual work experience has been recognised by the Medical Schools and Dental Schools Council as a valuable substitute for in-person shadowing. This endorsement is underpinned by the Health Education England Discovery report, which highlights the positive impact of virtual work placements.

This virtual experience not only serves as a dependable alternative to traditional shadowing but also plays a pivotal role in equipping students with the necessary skills for their in-person work placements. In 2024, these 6-month medical and 4-month dental work experience programmes facilitated over 30,000 secondary school students in accessing complimentary work experience opportunities. Through structured instruction and direct engagement with healthcare professionals, students are well-prepared for their future endeavours.

Crafted in collaboration with Birmingham Universities Hospitals Trust and built with the flexibility of an E-learning format, participants can navigate their placements at their own pace, exploring vital topics like ethics, procedures, and broader team roles. This virtual experience not only enhances students' UCAS applications, but also strategically prepares them for the practical challenges and opportunities ahead.

Taking part in the Virtual Work Experience will provide:

- Comprehensive Insights: The programme covers a range of specialities, providing a deep understanding of medical and dental practices. Each month, a new focus area is introduced, allowing participants to delve into different aspects of the field.
- Flexible Participation: Tailored for students from years 10-11, the programme accommodates various schedules by being virtual. Participants have one month to complete each specialty, ensuring flexibility and ease of participation.
- Recognised Certification: Upon successful completion of all sessions, students will receive a certificate from Medic Mentor and UHB, validating their active participation which they can include in their UCAS and apprenticeships applications.

The new speciality on General Practice or
Public Health & Oral Pathology is available now.

Registering for these programmes is simple - students just need to complete the free online application form:

ALLIED HEALTHCARE MENTOR

Follow multiple patients over a 6-month period, as they go from their initial injury to recovery. It is amazing how many different healthcare professionals are involved in a patient's care. This incredible opportunity showcases a variety of professionals in one day. It gives students a chance to see them in action in various settings from the ward to the community. It is also a fantastic opportunity to see them work together in a multidisciplinary team.

During the work experience day, students will follow 2 patients from their initial presentation to recovery. Students will observe the healthcare professionals as they interact with the patients and also each other. Students will have an opportunity to ask questions and gain knowledge through teaching. This will help students to make an informed career decision as well as learn about how healthcare professionals work together as part of a multidisciplinary team. Each work experience day is completely different and students will be able to build on their knowledge of NHS careers as they see different patient cases and their healthcare professionals work in a variety of settings, such as hospital and community. For this reason we recommend that students attend one work experience a month for 6 months to not only gain a deeper knowledge of multidisciplinary teams in general but also their chosen careers.

Register here: **https://alliedhealthmentor.org/nhs-healthcare-careers-virtual-work-experience/**

Once they've registered, students will be emailed links to their virtual work experience portals.

Please ask students to check their spam folders and mark their attendance on the day in order to receive their Work Experience Certificates.

This programme is suitable for students in year groups 10/11 who are interested in the following careers:

- Nursing
- Midwifery
- Paramedicine
- Physiotherapy
- Occupational Therapy
- Dietetics
- Radiography
- Prosthetics and Orthotics
- Speech and Language Therapy
- Pharmacy

The sooner students begin work experience, the better. During the work experience day, students will follow 2 patients from their initial presentation to recovery. They will gain a unique insight into how patients interact with a variety of healthcare professionals and what it's like to work in an NHS multidisciplinary team.

Attendees will have the opportunity to interact with healthcare professionals throughout each day. This will empower students to make an informed career decision and demonstrate their commitment to healthcare in their UCAS applications.

Students will receive certificates as evidence of having participated in the work experience programme. Those that complete the full 5-month programme will also be awarded Highly Commended References.

Students can register individually at any time throughout the 5-month programme using the link below. We recommend booking early to gain as much out of this programme as possible. Places are £10 a session to cover administrative and technological costs:

https://alliedhealthmentor.org/nhs-healthcare-careers-virtual-work-experience/

Join Every First Sunday Of The Month!

LIVE! VIRTUAL

Allied Healthcare Work Experience

Take your first steps into the world of healthcare careers in our Virtual Allied Healthcare Work Experience.

Meet this month's AHP professional **guest speaker,** from **9 - 10am**, and then dive into live work experience sessions.

After a compelling talk from our guest speaker about their career and what they do day to day, you will **dive into live work experience sessions from the safety of your home.**

Witness the journey of two patients from injury to recovery over 6 months, and experience how many different healthcare professionals are involved in a patient's care, from hospital all the way throught to a community team.

ALLIED HEALTHCARE MENTOR

CAREER *of the* WEEK

Automotive engineer

Automotive engineers design, develop and manufacture a variety of vehicles and the complex mechanical, electrical and digital systems that make them work.

Working as an automotive engineer, you'll use engineering principles and computer-based tools to design, test and develop new products, and in some cases improve or adapt existing vehicles and systems. You'll also identify and solve engineering problems to enhance performance, safety, efficiency and environmental sustainability.

You'll need strong technical skills alongside commercial awareness, as projects must often be delivered on time and within budget. As you gain experience, it's common to specialise in a particular area, such as vehicle dynamics, powertrain systems, electrification, software, testing or manufacturing processes.

Types of automotive engineering

Typically, you'll focus on one of three main areas:

- design - creating vehicle systems and components
- manufacture and maintenance - production, quality, reliability and in-service support
- research and development

The UK is moving towards a future of zero-emission vehicles, with major changes expected by 2035. As a result, the automotive industry is adapting to new technologies and priorities, including electric and hybrid vehicles, connected and autonomous systems, software development and sustainability.

These changes are creating new challenges and career opportunities, making it an exciting and fast-evolving time to work as an automotive engineer.

Responsibilities

Your tasks will depend on your specialist area of work, but you'll typically need to:

- use computer-aided design (CAD) and simulation software to develop ideas and produce detailed designs
- select appropriate materials and components, balancing performance, cost, safety and sustainability
- solve engineering problems using mechanical, electrical, electronic and software-based principles
- build virtual and physical prototypes and test their performance, durability and safety
- take into consideration customer needs, safety standards and environmental regulations, including emissions targets, when developing new designs and manufacturing processes
- prepare technical reports, design specifications, costings and project timelines
- work closely with manufacturing, software, testing and quality teams to support vehicle development and production
- investigate design faults, system failures or performance issues, using testing data and diagnostics
- liaise with suppliers, manufacturers and external partners, supporting procurement and supply chain decisions
- manage or contribute to engineering projects, including budgets, schedules, resources and quality control
- inspect, test and evaluate vehicles or vehicle systems, which may include road testing, simulations or lab-based testing
