

Your weekly guide to careers information, advice and news from Parklands High School

Here we are again at the weekend - another busy week of school done. Lots of really useful content in this week's issue of Career News - take a look:

- Open events at various local colleges and training providers - ideal for Year 11s who may still be unsure of where to apply, or for Year 10s who want to get a head start on checking out college options.
- EDT have a STEM course running over the February half term for Year 9 or 10 pupils. This is completed at home and leads to the Bronze Industrial Cadet Award.
- For anyone interested in working with young children, the prestigious Norland Nanny Academy is offering a free babysitting course through FutureLearn. This will enable you to stand out from other candidates when you apply for jobs or university courses in the future.
- There is a free parent webinar with GT Scholars, looking at helping your child develop a growth mindset and set them up for success. Well worth taking part - join live or get access to the recording.
- Investin Education are highlighting their amazing weekend careers programmes and the career quiz, aimed at enabling students to make more informed career choices.
- Mentorverse present the following opportunities for aspiring medics and dentists in Year 10 and 11: NHS virtual work experience, volunteering placements, national study skills e-learning, virtual medical/dental society webinars and the chance to join the virtual medical society - all FREE!
- The half term courses at Preston College are almost full - register now to take part.
- On Wednesday 21st January and Friday 23rd January, Wigan & Leigh College and Preston College will be in school holding interviews. If your child intended to apply and has not yet done so, please let me know as soon as possible as I may be able to add them to the current schedule.
- Year 11 will take part in Mock Interviews with employers on Friday 6th February. They will need to bring along a CV, and may wish to bring their most recent tracker. They do not need anything else. A big thank you to all the wonderful local employers who are supporting this event, it is truly appreciated.

Have a great weekend

19th - 23rd January 2026

UNSURE ABOUT YOUR FUTURE CAREER?

Too many careers to choose from? Feeling overwhelmed? Struggling to match your skills and interests with a desirable career?

These are all natural thoughts and signal an excellent starting point to discovering your dream career.

WHAT TO DO NEXT

- ✓ **Don't panic:** Lots of students are in your position, so there's no need to stress!
- ✓ **Reflect:** Ask yourself simple questions like what are my strengths? What inspires me? What subjects do I enjoy?
- ✓ **Understand:** Research, network and explore what different careers involve, including the skills, experience and qualifications required.
- ✓ **Explore:** Seek hands-on experience and learn first-hand whether you are suited to a career or industry.

THE CAREER QUIZ

If you're unsure about your future, the best place to start is our Career Quiz, which helps you discover an industry that aligns with your skills, interests and aspirations.

Over 30,000 students have already completed the career quiz and received personalised career advice. Take the quiz today!

WEEKEND PROGRAMMES

Are you aged 15-18 and curious about life after school?

Join us in March for an immersive one-day career taster in London, offering hands-on workshops and real-world career simulations alongside industry professionals.

Test-drive your dream career in 2026!

INSIGHT TO

IBDO

VIRTUAL EVENT

TUESDAY 20TH JANUARY | 5PM - 6:30PM

Insight into BDO

The World's 5th Largest Accounting & Professional Services Firm

Tuesday, 20th January from 5pm - 6:30pm

BDO is the 5th-largest professional services firm in the world and is offering your students a fantastic opportunity to have a virtual insight evening with their teams to find out what it's like to work in the industry. They will also be sharing opportunities available, including work experience, apprenticeships, and graduate programmes, as well as upcoming in-person events.

Are you ready to explore a career with one of the world's leading accountancy and business advisory firms? Curious to see what makes BDO stand out in the industry?

We're excited to invite students to an exclusive, virtual insight event with BDO on Tuesday, 20th January 2026, from 5pm - 6:30pm. This event is designed for students eager to learn more about business and accounting.

What's in Store:

- Hear directly from BDO professionals about their experiences and career journeys.
- Learn about BDO's renowned graduate, apprenticeship, and work experience programs.
- Explore opportunities in audit, tax, advisory, and more!

Why BDO?

BDO is not just a top accountancy firm—it's a place where ambitious young professionals thrive. With a strong reputation for delivering high-quality services and fostering an inclusive, forward-thinking culture, BDO offers an ideal environment for young talent to grow and succeed. This event will give you a unique insight into how you can be part of shaping the future of business.

Why Attend?

- Discover pathways into a career in accounting and professional services.
- Gain valuable insights into the skills and attributes BDO looks for in future talent.
- Get your questions answered directly by BDO's team.

Event Details:

- Date: Tuesday, 20th January 2026
- Time: 5pm - 6:30pm
- Location: Virtual via Zoom (Link provided upon registration)s

With limited capacity, register ASAP to confirm your spot!

[Register now to Secure Your Place](#)

Here at EDT, we're excited to kickstart 2026 with a *BRAND NEW course opportunity for students in Years 9 & 10 which is taking place over the February Half Term and for which

APPLICATIONS ARE NOW OPEN!

THE FUTURE SKILLS PROGRAMME: Careers in STEM - February 16th-21st

This virtual programme is designed to inspire students, broaden their understanding of STEM careers, and equip them with the skills and confidence needed to make informed choices and succeed in future applications and the workplace. The course will take approximately 20 hours to complete and can be worked on flexibly at times that suit the student best.

This course is perfect for your students who:

- Have an interest or curiosity in STEM, engineering, manufacturing, digital technology, or future careers
- Would benefit from early exposure to real-world STEM pathways, including apprenticeships, technical routes, and university options
- Are beginning to think about GCSE subject choices, post-16 options, or longer-term career ideas
- May not yet see themselves in a STEM career but would benefit from inspiration, role models, and insight into local and regional opportunities
- Are motivated to develop employability skills such as communication, networking, and professionalism

The course is suitable for all abilities - enthusiasm and curiosity are far more important than prior knowledge and at the end of the course, students will graduate as [Bronze-level Industrial Cadets](#), a nationally recognised award they can use as evidence of their experience to support future applications and career journeys.

Cost: £50 - [FULLY FUNDED Bursary places are available](#)

For full details on the course and the link to make an application please click on the link below:

Programmes - [The Future Skills Programme: Careers in STEM](#)

[Click here for the course flyer](#)

We would also like to invite the parents/guardians of your students to join our Discover EDT Webinar taking place this month. This webinar will demonstrate how they can support their son/daughter with their exciting journey into the world of STEM by going through all of the upcoming course opportunities and experiences that we offer.

They can book their place here:

Topic: **Discover EDT – Parent/Guardian Webinar**

When: **Thursday 29th January at 4-5pm**

Registration Link: [Click here](#)

THE FUTURE SKILLS PROGRAMME: CAREERS IN STEM

For Yr 9 &
Yr 10/S3
and S4

Explore STEM careers in four key pathways during February half term!

What is involved?

- A comprehensive experience **delivered virtually in February.**
- **Live Q&A sessions with STEM professionals** in Net Zero futures, Digital AI futures, Health and Life Sciences, Engineering & Infrastructure and Manufacturing futures.
- **CV, applications and interview support.**
- Interactive panel **Q&A sessions with universities & apprentices.**
- Learn how to succeed in the workplace, including **how to ask questions, network and write professional emails.**
- Achieve the **Bronze Industrial Cadet Award.**

Dates

- 20 hours of study to complete flexibly over 5 days in February.
- Monday 16th – Friday 21st February.

Cost/Funding

- £50 (bursaries available, click [here](#) for bursary criteria and availability).

How to register or find out more

To register, please visit our website [here](#) or **scan the QR code!**

We're delighted to share some fantastic career opportunities for you and your students to Digdata in 2026.

1. Virtual Work Experience Opportunities

We've collaborated with **Google** to bring virtual work experience opportunities to your students on the **28th and 29th January**. These sessions will be hosted on Zoom outside of school hours and do not require any teacher / career leader attendance.

FIRST STEP - suitable for students in Year Groups 7-9

Wednesday 28th January at 4.30 pm (virtual session hosted on Zoom)

Want to be a YouTuber? Dig into the data sources that could make you go viral

- A 45-minute briefing with the Google team
- Complete the career challenge at your own pace
- Certificate awarded on completion
- [Register now!](#) (student link)

NEXT STEP - suitable for students in Year Groups 10-13

Thursday 29th January at 5pm (virtual session hosted on Zoom)

Google joins forces with Gen Z Creators to launch the Pixel 10!

- A 45-minute virtual briefing with the Google team
- Complete the career challenge at your own pace
- Certificate awarded on completion
- [Register now!](#) (student link)

Everyone should digdata!

1

Register and attend the 45 minute briefing session

2

Students work on the challenge in their own time

3

Recorded industry assessment

4

Certification of virtual work experience

Would you like to gain **virtual work experience** and discover how **Google** uses data to shape the future?

Meet the team from **Google**, gain **essential skills** and **certification** too!

FIRST STEP - Year Groups 7-9

Want to be a YouTuber? Dig into the data sources that could make you go viral.

THE DEGREE GAP

The Degree Gap invites your parents to a
Live Online Complimentary Webinar:
‘A Parent’s Guide to Supporting GCSE Success’.
28th January @ 7pm-8pm

There is less than a month until The Degree Gap host a Live Online Complimentary Webinar: ‘A Parent’s Guide to Supporting GCSE Success’.

If your parents have not signed up yet, there is still time.

So, what will we cover?

- **Understand what mock results really mean and how to respond calmly**
- **See what effective revision actually looks like at home**
- **Spot burnout early and fix it before motivation drops**
- **Set one or two focused goals that lead to visible improvement**

To sign up for the event on the 28th of January 7-8pm, please use the link below:

[Register Now](#)

We had a hugely successful November event, with hundreds of parents tuning in to hear from our specialist team on effective revision techniques. Reviews mentioned how engaging and informative the event was.

We have included a snippet highlighting one of our most important points on active versus passive recall, so you can see what our events typically look like.

[Watch The Event](#)

We are aware that some colleges are no longer offering the **T Level in Education and Early Years Level 3 qualification** so we would like to remind you that we do still offer this incredible course which is an ideal pathway into nursery or primary school teaching. Within this course students will carry out a minimum of 750 hours work placement, which will be in an early years setting, where they will be able to perform observations and assessments of children and young people whilst also developing skills in being a reflective practitioner.

Please click on the following link to access our latest T Level video: https://youtu.be/zp_J7JIF0Zk

Follow the link below for further information on our T Level course:

- **Education and Early Years**

[Learn more >](#)

From **September 2026** we will still be offering **Health & Social Care** and **Early Childhood Development** as AAQs, we will also be introducing a new AAQ course in **Mental Health & Well-being**. These courses offer flexibility, enabling students to tailor their studies to their individual interests and future career goals.

Students can choose to study any of the above AAQs alongside A Levels or Vocational single/double subjects and create a mixed programme pathway.

For more information on these AAQ courses please follow the links below:

- **Early Childhood Development - AAQ**

Book now - Norland Unwrapped: Placements

Our next Norland Unwrapped virtual event on 11 February 2026 will take a deep dive into the exciting placement opportunities that set Norland students apart. From schools and nurseries to family homes, hospitals and specialist settings, placements are a core part of our course.

Learn how our placements help Norland students apply their theoretical learning and practical skills in real-world scenarios, supporting their development as early years practitioners and preparing them for a successful career as a Norland Nanny.

If you have a student considering studying at Norland, make sure they don't miss out on this practical session.

[Book now](#)

Norland launches free babysitting course

Students interested in working in the early years or gaining experience in childcare can now enrol on our free babysitting course.

Starting on 26 January 2026, the online course offers an ideal introduction to professional babysitting and is perfect for those considering a career in the early years.

We are partnering with FutureLearn, a global learning platform, to deliver this virtual course. Participants will learn how to care for children's physical and emotional needs, manage behaviour using positive strategies and communicate effectively with parents. The course also covers essential safety guidance and professional standards to help learners prepare for real-life babysitting situations.

For more information and to enrol on the course visit the course page via [FutureLearn](#).

[Enrol on course](#)

The Sophie Scholl Awards

“Someone has to make a start.” How about you?

Holocaust Memorial Day is commemorated each year on 27th January, the date of the liberation of the Nazi concentration camp Auschwitz-Birkenau in 1945. Holocaust Memorial Day remembers the millions of victims of the Nazi Holocaust, including six million Jews, and of other, more recent genocides.

The Sophie Scholl Awards were introduced at Runshaw as part of our events to commemorate Holocaust Memorial Day. The courage of Sophie Scholl, of a similar age to Runshaw students, was an inspiration to us all. We now extend an invitation to pupils in partner high schools to help us celebrate the short life of this brave young woman by participating in awards reserved for them.

Sophie was 18 when the war started in 1939. She and her family, inspired by their strong religious beliefs, actively resisted the Nazis – an incredibly courageous thing for Germans to do. In 1942, Sophie, along with her brother Hans and a few other students, founded the White Rose, a non-violent resistance movement which painted anti-fascist slogans on walls, defaced Nazi emblems and distributed anti-war leaflets. In early 1943, Sophie and the other leaders of the group were caught, condemned as traitors and executed by beheading. Sophie was just 21.

During her trial, despite the attempts of the judge and prosecutors to browbeat and ridicule her, Sophie remained steadfast as one individual against the massive power of the Nazi state. “Someone has to make a start”, she said. Convinced that good in the end would prevail, her last words as she was led into the execution yard were, “The sun still shines!”

For many inspired by Sophie’s example, a white rose has come to represent peace, justice and a love of humanity.

Students in partner high schools are asked to make an entry based on ONE of the following themes:

- (a) The inspiration of Sophie Scholl
- (b) The White Rose
- (c) Someone has to make a start

Entries can be

- a written piece (maximum 250 words but could be much shorter)
- a poem
- a piece of art work or music – of any kind
- an idea to do something at school based on Sophie’s example
- anything at all based on one of the above themes.

Entries can be individual or group work.

Entries should be forwarded to Giles Inman, Inman.G@runshaw.ac.uk. The deadline for entries is 4.30pm on Wednesday 25th February 2026.

Awards of vouchers and certificates will be awarded for the best entries.

TRANSFORMING LIVES THROUGH EDUCATION

It's nearly **National Apprenticeship Week**, and we're going behind the scenes of the UK's biggest industries. We'd love your students to join us!

From Law and Accountancy to Working at Festivals, we've gathered employers who are ready to give you candid, filter-free answers to your questions.

- Do GCSE's really matter?
- Can I work from home?
- Is working at a Law firm actually like Suits?

Honestly? If I were in your shoes, I probably would've scrolled past this when I was at school. I chose uni because that's what everyone does, but looking back, I wish I explored the apprenticeship pathway and actually read emails like these! I could've hit my goals years earlier. I'm sharing this so you don't have that 'what if' moment 5 years from now.

Join us this National Apprenticeship Week and explore what pathways are possible. See you on 9th February 2026!

Best wishes,

Malika

Head of Partnerships, Success at School

Are you Curious & Detail-Oriented? Get to Know the NAO!

National Audit Office

The **National Audit Office** plays a vital role in shaping the UK's future - and they do it with smart, curious people at the heart of their work. Hear how apprentices at the NAO build real skills, make real impact, and launch meaningful careers from day one. Plus, **when you work for NAO, you get a recognised professional qualification while working & earn a competitive salary from day one.**

Explore the National Audit Office

Kick-start your career in Audit with the National Audit Office

Tuesday 10th February 2026, 6.30pm

- Earn a competitive starting salary (**£28k+ in London**) and gain a top qualification that could take you to **£61k+** in the future.
- **Hear from current apprentices** about why they chose an apprenticeship over university.
- **Get the inside scoop** on life as an Audit Apprentice—from induction to college, exams, and day-to-day work.
- **Explore career progression** and the opportunities the NAO offers to help you grow.

All paperwork, including the consent letter, a guide to finding work experience, a helpful planner with letter templates and advice, the assembly presentation, a Me Map and the WEX booklet for employers can be found on the school website: [CLICK HERE](#)

Gaining Experience Beyond The Classroom

INVESTIN
THE ULTIMATE WORK EXPERIENCE

Why?

Gaining work experience or doing extracurriculars is data-gathering for your future; you will learn what you like and dislike, what motivates you or doesn't. Plus, it's a great way to stand out in future university and job applications! University admissions tutors are looking for applicants who are dedicated to their subject and have taken the time to explore it beyond the classroom.

Work Experience

What counts as work experience?

Any professional environment where you are developing and applying skills is a form of meaningful work experience!

Remember, not all your work experience needs to be industry-specific - any experience provides you with transferable skills!

What?

- **Shadowing**
Observing someone in a working environment
- **Volunteering**
Such as at charity shops, care homes or tutoring
- **Insight days & workshops**
Online or in-person programmes for students
- **Part-time job**
Such as in a cafe/restaurant, shop assistant
- **Formal placements & internships**
Typically more widely available for 18+

Where?

- **Look local**
Research organisations in your local area and enquire about shadowing or volunteering opportunities
- **Use your network**
Ask friends, family, teachers for any relevant connections
- **Look out for formal schemes**
Research opportunities for school students on sites like [Prospects](#), LinkedIn or the [Student Ladder](#)

Extracurriculars

Consider what you already do outside of school - **what does it say about your interests or skills?**

Then, consider how you could develop further the skills required for your dream university course or career.

Socialising

Communication
Empathy

Sport

Leadership
Teamwork

Music or drama

Creativity
Commitment

Reading & writing

Analytical thinking
Attention to detail

What can I do in my free time to develop my skills?

Read or listen to podcasts related to your subject interests

Raise money for a charity or awareness about an issue important to you

Set up a club: STEM, debating, photography, newspaper, documentary...

Create your own portfolio of work, e.g. create a GitHub account to log your coding projects

Produce a journal or research project

Organise an event (marketing, sales & project management)

Manage a budget for a trip or holiday

Talk about your experiences in your applications...

Gaining experiences beyond your studies is only meaningful in your personal statement if you know how to relate them to your chosen course!

THINK: why has your extracurricular/work experience/project contributed to your passion or compatibility for your chosen subject? How did it ignite your spark for that field?

Looking to gain work experience? Check out InvestIN's programmes at www.investin.org

ART & DESIGN TASTER WORKSHOP

TUESDAY 17th FEBRUARY
9:30 - 12:30

STRONGER STARTS PROGRAMME OPEN FOR APPLICATIONS!

Tesco's Stronger Starts apprenticeship programme is now open, offering two fantastic apprenticeship pathways for young people, the well-established Retail Apprenticeship and the brand-new Maintenance Apprenticeship.

Stronger Starts is a fantastic opportunity for young people to kickstart a career in retail or maintenance, enjoy a brilliant starting salary, and receive lots of support and coaching along the way.

Read on for more information on the roles, links to apply, tips on applying and our upcoming webinar with the Tesco Early Careers team...

THE ROLES

Maintenance Apprenticeships

Stronger Starts are now offering a Maintenance Apprenticeship! Apprentices will work alongside earning a Level 2 Property Maintenance Operative qualification – equivalent to 5 GCSE passes.

The 18-month programme sets you up with the skills you need for everyday duties in maintenance jobs.

FIND OUT MORE

Retail Apprenticeships

Retail apprentices will work, earn and learn, gaining a Level 2 National Standard in Retail qualification over the course of the programme.

You'll gain hands-on experience of how a store operates, and have the opportunity to experience different roles and tasks across the store.

FIND OUT MORE

VACANCIES & HOW TO APPLY

Applications are now open for vacancies in stores in selected locations across England!

The Stronger Starts apprenticeship programme is a fantastic opportunity for young people to earn while they learn, gain skills and qualifications, receive ongoing support and enjoy long-term career opportunities.

APPLY NOW

MEET THE EMPLOYER

JOIN OUR WEBINAR

Join us and the Tesco Early Careers team on 8th December at 4pm to learn about the apprenticeships available, what is involved, the benefits available, and more.

Don't worry if you can't make it on the day, sign up anyway and we'll send you the recording so you don't miss out.

REGISTER NOW

Visit Tesco's Meet the Employer profile to find out more about the Stronger Starts apprenticeship programme application process and get tips on how to apply.

You can also find out what skills Tesco are looking for, what makes them a great employer, what life looks like behind-the-scenes and more.

Subject Guide Videos

These impartial videos have one key aim. To support students who are considering university to make informed future subject decisions. They feature guest speakers from a range of different universities, who are always experts in the subject being explored.

Including the UK's first video subject guide!

Different subjects, but the same four themes explored in every single one:

- Why students may wish to consider the subject
- What to expect if they study it
- An overview of the careers it may lead to
- Application tips if they go on to apply

From Accounting to Zoology - and 100's of subjects in between. You can browse any of the videos, search by keyword, or filter by subject.

CUSTOMER CARE

THE MYTH:

Artificial Intelligence (AI) will replace Customer Care roles.

THE FACT:

Whilst AI has and will continue to change the face of Customer Care, the skills used in human interactions, like detecting emotions, understanding subtext and knowing when to change the script are very hard to automate. As such, Customer Care roles remain pivotal to successful supply chains.

FOUNDATION APPRENTICESHIPS

Explore this exciting new apprenticeship programme

What are foundation apprenticeships?

Foundation apprenticeships help young people gain technical knowledge and skills while earning a wage. They are designed for young people typically aged 16 to 21 (or 22-24 meeting the eligibility criteria) who want hands-on experience in key sectors like construction, digital and social care. These level 2 apprenticeships combine technical knowledge and skills with workplace learning, helping the apprentice to decide their next career steps.

Which standards are available?

The [first foundation apprenticeships](#) focus on industrial strategy and government mission areas, including:

Engineering & manufacturing

- Building service engineering
- Engineering and manufacturing

Construction

- Finishing trades
- Onsite trades

Digital

- Hardware, network and infrastructure
- Software and data

Health

- Health and social care

Where can you find vacancies?

As foundation apprenticeships are a new programme from 1st August 2025, it may take some time before we start to see lots of vacancies become available. Vacancies will start to appear on the Government's [Find an Apprenticeship website](#), as well as other jobs sites, employer websites and social media.

Who can be a foundation apprentice?

Foundation apprenticeships are only available for young people who are:

- aged between 16 and 21 (or 15 years of age if the apprentice's 16th birthday is between the last Friday of June and 31st August)
- aged between 22 and 24 years old, who either
 - hold an Education, Health and Care plan
 - have been, or are, in the care of their local authority
 - are in prison or a prison leaver

KEY FACTS

Foundation apprenticeships

- typically last for 8 months.
- support progression to more specialised apprenticeships (level 2 or 3) or direct entry to employment.
- help apprentices to develop employability skills and behaviours common to the workplace.
- are paid positions where the apprentice must be paid at least the National Minimum Wage for Apprentices .
- are currently available in 4 sectors, covering 7 different job roles.
- are for young people aged 16-21 (or 22-24 meeting eligibility criteria).
- have their own apprenticeship standard and assessment plan.

CONFERENCE

One of our doctors (Chief Mentors) will take you step-by-step through your application to medical school.

This includes:

- Application Timelines
- Interview Training
- Personal Statements
 - CV Building
 - UCAT Exams
 - Extracurriculars
- Accessing Medical Leadership Programmes, Awards Programmes and Scholarships to University

You'll also hear from a recently successful applicant on what it takes to make your candidacy to medical school stand out!

Understanding the pivotal role that work experience plays in shaping a student's perspective on their future career, we're delighted to extend an invitation to your students to participate in our FREE 6-month medical or 4-month dental virtual work experience programme.

Aiming to provide students with insights into the medical and dental fields, this free virtual work experience empowers students to make informed decisions about their future.

Students aged 14 and above are eligible to apply for a placement for FREE through these links:

Medicine: <https://medicmentor.org/university-hospitals-birmingham-trust-virtual-work-experience/>

Dentistry: <https://dental-mentor.org/university-hospitals-birmingham-trust-virtual-work-experience/>

Virtual work experience has been recognised by the Medical Schools and Dental Schools Council as a valuable substitute for in-person shadowing. This endorsement is underpinned by the Health Education England Discovery report, which highlights the positive impact of virtual work placements.

This virtual experience not only serves as a dependable alternative to traditional shadowing but also plays a pivotal role in equipping students with the necessary skills for their in-person work placements. In 2024, these 6-month medical and 4-month dental work experience programmes facilitated over 30,000 secondary school students in accessing complimentary work experience opportunities. Through structured instruction and direct engagement with healthcare professionals, students are well-prepared for their future endeavours.

Crafted in collaboration with Birmingham Universities Hospitals Trust and built with the flexibility of an E-learning format, participants can navigate their placements at their own pace, exploring vital topics like ethics, procedures, and broader team roles. This virtual experience not only enhances students' UCAS applications, but also strategically prepares them for the practical challenges and opportunities ahead.

Taking part in the Virtual Work Experience will provide:

- **Comprehensive Insights:** The programme covers a range of specialities, providing a deep understanding of medical and dental practices. Each month, a new focus area is introduced, allowing participants to delve into different aspects of the field.
- **Flexible Participation:** Tailored for students from years 10-11, the programme accommodates various schedules by being virtual. Participants have one month to complete each specialty, ensuring flexibility and ease of participation.
- **Recognised Certification:** Upon successful completion of all sessions, students will receive a certificate from Medic Mentor and UHB, validating their active participation which they can include in their UCAS and apprenticeships applications.

***The new speciality on General Practice or
Public Health & Oral Pathology is available now.***

Registering for these programmes is simple - students just need to complete the free online application form:

Aspiring Medics: <https://airtable.com/appgXnyzN5ZD9lw6/shrGJUAtigzZzDwTN>

MEDIC MENTOR

YOUR MEDIC FAMILY

The Medical Schools Council acknowledges virtual work experience as an equal alternative to in-person shadowing based on a discovery report conducted by Health Education England. I encourage students aged 14 and over, interested in medicine to participate in our FREE National NHS Virtual Work Experience programme. We are pleased to offer a variety of medical specialties, with a focus this month on palliative care. This enables your students to gain a well-rounded perspective of working within the NHS.

This opportunity is for students in Years 10-11.

<https://medicmentor.org/university-hospitals-birmingham-trust-virtual-work-experience/>

Developed in collaboration with Birmingham Universities Hospitals Trust, this Virtual Work Experience has proven to be transformative for thousands of secondary school students over the past year. It also provides a strong foundation of knowledge for students who are preparing to undertake future in-person placements.

We've designed a 6-month medical e-learning work experience programme, focusing on one specialty each month, allowing students to set their own pace of learning. From structured teaching to direct interaction with doctors and healthcare professionals, our programme ensures students not only observe procedures but also gain a broader understanding of roles within the medical field.

Covering everything from confidentiality and ethics workshops delivered by the GMC to clinical procedures, our virtual work experience provides a crucial overview, thereby enhancing your students' UCAS applications.

Signing up is easy – students simply need to fill out the free online application form:

Why the Medic Mentor Virtual Work Experience is the largest In the UK...

- There are 6 Sessions in total providing the longest and most in-depth work experience available
- It covers 6 different areas of medicine whereas other work experiences only cover 1 or 2
- It is e-learning based so students can complete it in their own time around school work
- Students have 30 days to complete one session and then the next session drops
- Students are provided a certificate of completion once all 6 sessions are done
- Involves real doctors, clinical settings and high fidelity simulations
- Takes students on a complete patient journey
- Students get an insight into the multidisciplinary team
- Includes a free reflective journal (great for personal statements)
- It's completely free!
- *Why not sign up today?*

**University Hospitals
Birmingham**
NHS Foundation Trust

Follow multiple patients over a 6-month period, as they go from their initial injury to recovery. It is amazing how many different healthcare professionals are involved in a patient's care. This incredible opportunity showcases a variety of professionals in one day. It gives students a chance to see them in action in various settings from the ward to the community. It is also a fantastic opportunity to see them work together in a multidisciplinary team.

During the work experience day, students will follow 2 patients from their initial presentation to recovery. Students will observe the healthcare professionals as they interact with the patients and also each other. Students will have an opportunity to ask questions and gain knowledge through teaching. This will help students to make an informed career decision as well as learn about how healthcare professionals work together as part of a multidisciplinary team. Each work experience day is completely different and students will be able to build on their knowledge of NHS careers as they see different patient cases and their healthcare professionals work in a variety of settings, such as hospital and community. For this reason we recommend that students attend one work experience a month for 6 months to not only gain a deeper knowledge of multidisciplinary teams in general but also their chosen careers.

Register here: <https://alliedhealthmentor.org/nhs-healthcare-careers-virtual-work-experience/>

Once they've registered, students will be emailed links to their virtual work experience portals.

Please ask students to check their spam folders and mark their attendance on the day in order to receive their Work Experience Certificates.

This programme is suitable for students in year groups 10/11 who are interested in the following careers:

- Nursing
- Midwifery
- Paramedicine
- Physiotherapy
- Occupational Therapy
- Dietetics
- Radiography
- Prosthetics and Orthotics
- Speech and Language Therapy
- Pharmacy

The sooner students begin work experience, the better. During the work experience day, students will follow 2 patients from their initial presentation to recovery. They will gain a unique insight into how patients interact with a variety of healthcare professionals and what it's like to work in an NHS multidisciplinary team.

Attendees will have the opportunity to interact with healthcare professionals throughout each day. This will empower students to make an informed career decision and demonstrate their commitment to healthcare in their UCAS applications.

Students will receive certificates as evidence of having participated in the work experience programme. Those that complete the full 5-month programme will also be awarded Highly Commended References.

Students can register individually at any time throughout the 5-month programme using the link below. We recommend booking early to gain as much out of this programme as possible. Places are £10 a session to cover administrative and technological costs:

<https://alliedhealthmentor.org/nhs-healthcare-careers-virtual-work-experience/>

MENTOR

CAREER *of the* WEEK

Game Developer

Also known as game programmers, game developers use their technical knowledge to translate concepts and designs into finished products.

As an employed or self-employed games developer, you may work across PC, console, online, arcade, and mobile game projects, supplying the technical expertise to bring them to fruition. You'll often specialise in a particular area of the project.

The game development process can differ depending on the size of the game itself, or the studio behind it. For example, working on a prestigious, multi-format AAA game with a higher budget and marketing costs will likely involve a very specific area of focus. Whereas an indie game on one format released by an independent publisher, may be produced by a small group of staff or even solo, and programming and design tasks might be combined.

The making of a game from concept to finished product can take years and involve teams of professionals. There are several stages, including deciding on the initial idea, genre and setting, defining the mechanics of the game and how the player character interacts with the game world, identifying a particular look and art style, animating characters and objects, creating audio, programming, localisation, testing, editing and producing.

With the advent of downloadable content (DLC) and live-service games, you don't just work on a product during release and you might be involved in its evolution long after a customer has purchased it.

Game developer can refer to a company as well as an individual and job titles can vary so bear this in mind when looking for jobs.

Types of game developer

Typically, on a reasonably-sized game development project, there will be a lead developer or programmer and then a team of other developers who will focus on different aspects of the project.

Areas of specialism include:

- game engine - either creating an in-house game engine, or using an off-the-shelf product like Unreal or Unity
- tools
- graphics
- animation
- rendering
- mechanics - the 'rules' of the game and what happens in a given situation
- user interface - for example, the Heads Up Display (HUD) that gives players information, or in-game menus (a background in UX is helpful for this)
- audio
- artificial intelligence - typically based around the actions of non-player characters (NPCs) and how they interact with player characters (PCs) throughout the game
- level design

For more information click here
