

Your weekly guide to careers information, advice and news from Parklands High School

There are loads of great opportunities inside this issue of Career News.

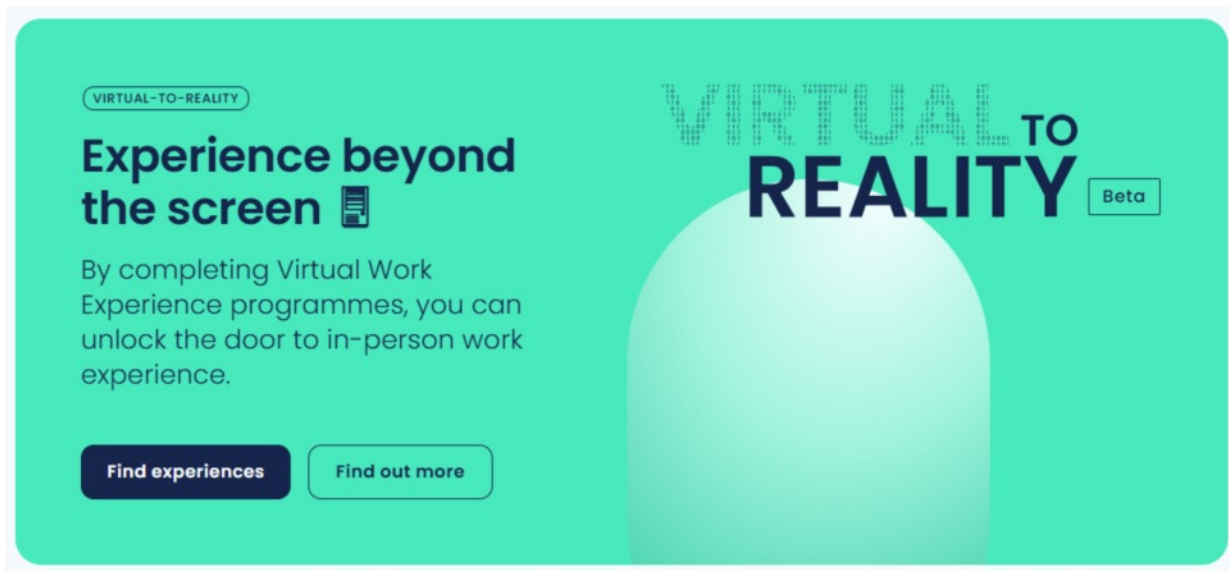

- Springpod is a platform that offers virtual work experience, career exploration programmes and university insight course for students and young people - lets you explore careers before committing. Scan the QR codes for more information.
- Lots of really good apprenticeship vacancies this week - check out the opportunities inside.
- Bolton College have a second set of Evening Taster Sessions in various study areas. These sessions provide an excellent opportunity to explore potential career paths - open to Year 10 and 11.
- The new Post-16 options are explained in full. A limited number of these qualifications will start in 2027, so will potentially be taken by current Year 10 pupils when they get to college.
- Go Construct have a great website packed full of useful information, links and vacancies in the construction sector. Have a go at the quiz and find out where you fit in.
- There are two sampling days at local college coming up in June/July: one day at Wigan & Leigh and one day at Runshaw College. The whole of Year 10 will attend both these events and try out a selection of subjects. Transport and lunch is provided.
- Colleges will also start to send out invitations to New Student Days to anyone in Year 11 who has applied (see inside for information about Newman Fest). These are ideal opportunities to try out the subjects that were chosen months ago, meet potential classmates and staff and find out more about college life. Keep an eye out for emails/texts from colleges regarding enrolment dates/times - if you are not going to be available on enrolment day, you must inform the college as soon as possible to avoid losing your place.

Have a great weekend

18th - 22nd May 2026

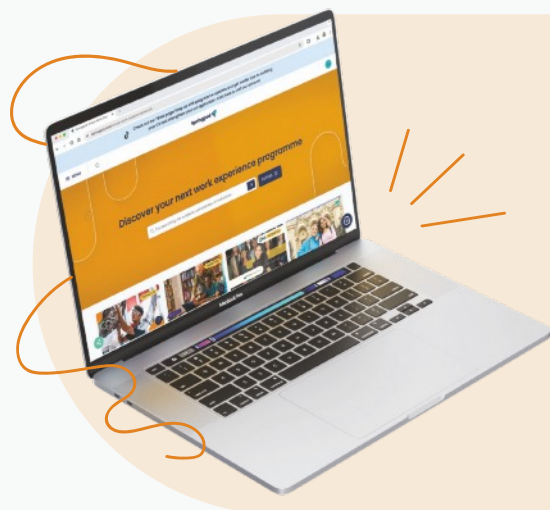

Springpod is a platform that offers virtual work experience, career exploration programmes, and university insight courses for students and young people. The main benefits are:

- Builds your CV and personal statement
- Completing programmes gives you certificates and practical experience you can mention in CVs, UCAS applications, apprenticeship applications, and interviews
- Let's you explore careers before committing
- You can try areas like tech, engineering, fashion, healthcare, business, media, and finance to see what actually interests you.
- Flexible and online
- Most programmes are self-paced, so you can complete them around school, college, or other commitments. Talks are usually recorded if you miss them live
- Gives access to major employers
- Springpod partners with organisations such as BBC, Barclays, Oracle, NHS, and Rolls-Royce, so students can learn directly from industry professionals
- Helps develop employability skills
- The programmes include workplace tasks, projects, quizzes, and simulations that improve skills like communication, problem-solving, teamwork, and resilience
- Good for students without local opportunities
- Because it's virtual, you can access experiences that may not exist near where you live or that would normally require connections or travel
- Can lead to in-person opportunities
- Some "Virtual-to-Reality" programmes can progress into real-life work experience placements if you complete the online programme successfully

Built To Scroll

Young people aged 11–18 are spending more time online than ever, but are they consuming tech, or is tech consuming them?

This is a national research project, and the data only works if young people from all walks of life are in it. Share the link and help us build the picture.

SHARE OUR SURVEY.

innovate<her>

Get Involved Today

The national conversation about young people and social media is loud, polarised, and largely happening without them in the room. The Build to Scroll survey is crafted to change that. The survey seeks to explore **how technology is designed to keep young people consuming, not creating.**

We want your help to **survey young people** to understand **how technology and social media are really making them feel** – not through the lens of concerned parents or academics, but directly from them.

We want to hear students' thoughts on:

- How tech makes them feel daily
- Whether they feel in control of their digital lives
- What they find helpful vs harmful
- What they would design differently if they could

The survey takes just **10 minutes to complete**, and by completing it, students have the chance of winning **one of three £30 ASOS vouchers.**

APPRENTICESHIPS

which one works for you?

Level 2

Early Years Apprentice, Strawberry Fields Nursery & Preschool, Chorley

VAC: 2000030430

You will assist and work alongside the team in setting up the day to day activities, attend staff meetings and care for children by providing secure play for our 0-4 yr olds.

Accounts Apprentice, Flourish Finance Ltd., Chorley

VAC: 2000031129

Initially you will be completing bank reconciliations, processing purchase ledger, processing journals and general office duties. You'll continue with AAT studies.

Chef Apprenticeship, Farmers Arms, Preston

VAC: 2000029595

Join us at Stonehouse Pizza and Carvery, we love our pizzas, we love our roasts, but mostly we love our people. An opportunity to gain skills, experience and a qualification.

Level 3

Fabricator/Pipe Fitter Welder Apprentice, Morecheck Ltd., Bamber Bridge

VAC: 2000020803

The broad purpose of the occupation is to carry out metal fabrication work using things such as rolled steel joists, columns, channels, steel plate and metal sheet.

Assistant Accountant Apprentice, McGinty Demack Ltd., Standish

VAC: 2000031163

You will gain hands on experience while working towards a professional qualification. The work will involve some admin duties as well as commercial activities.

Apprentice Project Admin Officer, Preston Care & Repair, Leyland

VAC: 2000030429

Provide admin support across the Preston Care & Repair team to ensure our services run smoothly and our standards of customer care are excellent.

Business Admin Apprentice, Receptive Solutions, Chorley

VAC: 2000031164

You will be responsible for product listing creation, stock allocation, processing RMA and stock management. You'll learn on the job by getting hands-on experience.

Mechanical Engineering Apprentice: NSG Environmental Ltd., Chorley

VAC: 2000022952

You will help create basic electrical and mechanical drawings, support with calculations for cables, lighting and mechanical systems, assist the team with design tasks. You will undertake placements at various sites in the UK.

Dental Nursing Apprenticeship, Rodericks Dental Partners (The Oaks), Chorley

VAC: 2000030879

The role will involve providing chairside support and a high level of oral health care to patients. Upon successful completion you will be awarded the relevant qualification to apply for professional registration as a dental nurse to the General Dental Council (GDC).

See inside for full details of Alty's Builders Merchants and Duke Street Nursery School opportunities.

Matthew Marsden Furniture Ltd, a bespoke furniture manufacturing business based in Ecclestone, are currently looking to recruit an apprentice bench joiner to join the team.

We would be very interested in connecting with any students who are seeking an apprenticeship opportunity. As part of our recruitment process, we are inviting suitable candidates to attend a trial shift at our workshop to get a feel for the role and demonstrate their skills.

Please see below for contact details. Ring or email Cara Booth for more information.

Duke Street Nursery School

Office / Business Administration Apprenticeship

Business Administration Apprenticeship (Level 3)

Duke Street Nursery School & Highfield Nursery School – September Start

Are you organised, reliable and interested in working in an office environment?

Duke Street Nursery School is inviting **expressions of interest** from school leavers who may wish to apply for a **Business Administration Level 3 Apprenticeship**.

What Is the Role?

As an administrative apprentice, you will help support the smooth running of a busy nursery school office while gaining a recognised qualification and valuable workplace experience.

You will work closely with experienced staff and learn how school administration operates day-to-day.

What You'll Do

- Answer phones and respond to emails
- Help with filing, data entry and record keeping
- Support staff with letters, forms and documents
- Use computer systems and office software
- Welcome visitors and communicate professionally
- Learn about confidentiality and working in a school environment

What You'll Get

- A **paid apprenticeship** while studying for a Level 3 qualification
- Training with an approved apprenticeship provider
- Support from an experienced workplace mentor
- Development of transferable office and IT skills
- A strong foundation for future careers in administration or education

What We're Looking For

- A positive attitude and willingness to learn
- Good organisation and communication skills
- Confidence using (or learning to use) computers
- Reliability and professionalism

You may be required to complete Maths and English as part of the apprenticeship if you do not already meet the required level.

Please Note

- This is an **expression of interest only**
- A **formal recruitment and interview process** will follow
- Apprenticeship offers are subject to **Lancashire County Council checks and approvals**

Duke Street Nursery School

Early Years Educator Apprenticeship (Level 3)

Duke Street Nursery School & Highfield Nursery School – September Start

Are you interested in working with young children and starting your career in childcare?

Duke Street Nursery School is inviting **expressions of interest** from school leavers who may wish to apply for an Early Years Educator Level 3 Apprenticeship.

What Is the Role?

As an apprentice, you will work alongside experienced staff in an **Outstanding nursery school**, helping children learn through play, exploration and creativity. You'll be supported every step of the way while you gain a recognised qualification and valuable work experience.

What You'll Do

- Help children learn through play activities
- Support children's social and emotional development
- Prepare toys, resources and learning areas
- Work as part of a friendly and supportive team
- Help care for children and support daily routines
- Learn how nurseries work and develop confidence in the workplace

Every day is different – you'll need to be enthusiastic, caring, and happy to get involved!

What You'll Get

- A **paid apprenticeship** while you work towards a Level 3 qualification
- Training with an approved apprenticeship provider
- Safeguarding and first aid training
- Support from experienced staff and a workplace mentor
- A strong start to a future career in childcare
- Possible progression opportunities once the apprenticeship is complete

What We're Looking For

- A genuine interest in working with children
- A positive attitude and willingness to learn
- Good communication and teamwork skills
- Reliability and commitment

You may be required to complete Maths and English as part of the apprenticeship if you do not already have the required grades.

Please Note

- This is an **expression of interest only**
- A **formal application and interview process** will follow
- Apprenticeship offers are subject to **Lancashire County Council checks and approvals**

Girls into Engineering

An immersive, three-day residential summer course at Loughborough University that gives girls the chance to think big in engineering!

Over three exciting days, students will dive into hands-on STEM activities, creative design challenges, and collaborative problem-solving.

Designed for girls in Years 8 and 9, this is a fantastic chance to explore what engineering is really like while connecting with other students who share similar interests.

During the course, participants will:

- Take part in hands-on engineering projects and creative challenges
- Develop practical STEM and problem-solving skills
- Learn from engineers and inspiring role models from industry
- Work together with peers to tackle real-world engineering challenges
- Experience university campus living, with fun social activities in the evenings

Students are supported throughout by the organiser's friendly STEM Engagement Specialists and industry volunteers, who bring engineering to life by sharing their experiences and career journeys.

It's a welcoming and encouraging environment where students can ask questions, try new ideas, and discover what they're capable of.

Booking details- [click here](#)

- **Dates:** 11 to 13 August 2026
- **Location:** Loughborough University
- **Year groups:** 8 and 9

Cost: £415, which includes accommodation and all materials and equipment. Full bursaries are available.

Get into Law Virtual Work Experience Day During the May Half-term

Thursday 28th May, 10am - 4pm

This online work experience event will bring together some of the world's biggest law firms to share what it's like to be a corporate lawyer. There will be workshops, panels and lots of networking across the event.

Are you interested in breaking into the legal field?

If so, then this work experience is for you! This May Half Term break, we have teamed up with some of the world's biggest law firms to give students an incredible insight into what it's really like to work in the industry and become a top lawyer at a leading international law firm.

If you think you've got what it takes to step into the shoes of a corporate lawyer for the day and have a go at some real-world cases, then this event is for you!

Event Details:

- Date: Thursday 28th May
- Time: 10:00am - 4:00pm
- Location: Zoom (link provided upon registration)
- Who: Year 10, 11,12, 13 students

What to Expect:

- Law Work Experience during the May Half Term
- Employers attending are Fragomen, A&O Shearman, Farrer & Co, Charles Russell Speechlys and The University of Law
- An opportunity to take part in legal workshops, hear from international law firms as well as the UK's biggest university offering law degrees
- Networking opportunities in the virtual booths
- Certificate of completion sent out to all students who take part in the day

Please apply via the link below:

The UK's Biggest Youth Voice Survey Is Back!

The Youth Voice Census survey is now open for 2026. This is your chance to help young people across the UK share their experiences of life, education and work.

Make sure their voices are heard by those who can create real change.

[Share the Survey ►](#)

Find Out More

Now in its 9th year, the Youth Voice Census gives you a unique opportunity to hear directly from young people, and understand the challenges shaping their lives.

In 2025, **over 8,000 young people** completed the survey, providing essential insight for hundreds of policymakers, employers, and educators.

? FAQs?

Q: Who can take part in the survey?

A: Anyone aged 11-30 and living in the UK can complete the survey.

Q: How long does the survey take?

A: It can take between 10-45 minutes, depending on the depth of answers.

Q: What questions are asked?

A: Only relevant questions will be shown and all answers are anonymous. We ask about education and training experiences, careers and work opportunities, local services, wellbeing, and barriers.

How You Can Get Involved

The more voices and experiences we hear, the bigger the impact for us all!

It's really easy to make a difference. Sharing the survey only takes a minute, but it helps shape the future for young people across the UK.

Here are 3 things you could do today:

- 1 Share the survey on social media - use the hashtag #YouthVoiceCensus
- 2 Send the survey link to learners, colleagues, or friends.
- 3 Talk about it! Every conversation and short chat helps spread awareness.

WHAT'S YOUR STORY?

Whether you're working, starting an apprenticeship, in education, or figuring things out - **your voice matters!**

Complete the anonymous survey, and your answers will be used to help inform real-world change to make your experiences better.

2026

**Aged 11-30?
We want to hear *your* story**

Dear Parents & Guardians,

Runshaw College Year 10 Sampling Taster Day: Important Parent/Guardian Information

Over a 3-week period in June and July, we will be welcoming more than 5000 Year 10 students from 42 High Schools, and we are delighted that your child will be one of them!

Our goal is to inspire and inform your child about the exciting opportunities available here at Runshaw. By participating in the taster day, they will gain insights into their potential career, meet fellow students from other High Schools and experience our vibrant student community.

Your child will have, or will soon have, chosen the subjects they wish to take on the day and a unique timetable for them will have been created. Please scan the QR code to see the information that your child will be receiving about the day.

Event Details:

- Date: 2nd July
- Time: 9.00 AM to end of the school day

Planned Timetable for the Day:

- 1. Pick up from School (9:00 AM onwards)**
- 2. Welcome Assembly (9:50 AM - 10:20 AM):** A friendly welcome and then pupils guided to Lesson 1.
- 3. Two 50 minute Lessons (10:20 AM - 12:10 PM):** Our teachers will lead these fun, interactive sessions.
- 4. Lunch (12:15 PM – 1:05 PM):** Students will all receive a lunch voucher and enjoy a delicious lunch in one of our many excellent Campus outlets.
- 5. One 50 minute Afternoon Lesson (1:10 PM – 2:00 PM)**
- 6. Farewell Assembly (time permitting) and catching the bus back to School (2.15 PM)**

Thank you for your support with this Taster Day and please feel free to reach out directly to me using the contact information below if you have any questions or need any additional information.

Please do also watch the video by scanning the QR code above.

With Warmest Regards,

A handwritten signature in black ink that reads "G. Cahill".

Business & Accounting

Virtual May Half-Term Work Experience

Imagine spending two days getting real, hands-on insight from some of the biggest names in global business — and walking away with the skills, connections, and confidence to launch your career. That's exactly what we're offering this May Half Term!

We've partnered with world-leading accounting and professional services firms to bring you an exclusive 2-day virtual work experience that will transform the way you think about business. Whether you're considering a career in accounting, consulting, or finance, this is your moment.

WHAT'S HAPPENING:

DAY 1 - Multi-Employer Showcase

Hear directly from BDO, Grant Thornton, S&W, and CIMA. Get the inside scoop on what it takes to thrive at a top firm, and start building your professional network from day one. Plus a business workshop with Dan Miller from The Apprentice, and also the CEO and Founder of Young Professionals.

DAY 2 - A Full Day with KPMG (Big 4!)

Spend an entire day immersed in the world of one of the most prestigious firms in the world. Take part in workshops, tackle real business challenges, and pitch your ideas to KPMG professionals.

WHAT YOU'LL GET:

- Hands-on experience with real business projects — including a live profit & loss analysis
- A chance to take on a consulting brief and pitch to industry professionals
- Access to graduate schemes, apprenticeships & summer work experience opportunities
- Networking sessions with firm representatives in virtual booths
- A certificate of completion to boost your CV (for those completing both days)

EVENT DETAILS:

- Dates: Tuesday 26th & Wednesday 27th May
- Time: 10:00am - 4:00pm (on both days)
- Location: Zoom (link sent on registration)
- Open to: Year 11, 12 & 13 students + 1st Year University Students
- Spots are limited - don't miss your chance to get ahead of the crowd!

REGISTER NOW:

https://www.surveymonkey.com/r/YP_Business_May

Your career, translated.

Did you know that globally, speaking more than one language can **boost your annual earnings by 14.3%**? That's almost **£7k more a year!**

In a recent study, Preply found that **Spain** offers the largest pay uplift, with bilingual workers earning up to **£26,000** more per year in some industries. However, the most sought-after language across the globe is **French**, reflecting its widespread use in international diplomacy and in business.

Even with the rise of AI, there's still huge value in learning a new language. Now's the perfect time to add a second language to your CV.

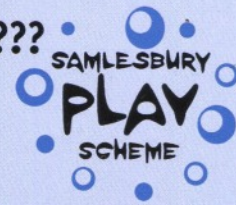

[Try a language course](#)

Gain an employable edge

Looking to master the IELTS or learn the basics of professional French? You can gain the practical skills that open new doors and grow your global network.

What are you doing with your summer???

Why not become a volunteer?!

We are looking for young people to volunteer as Play Leaders on the UK's largest Playschemes of their kind this summer.

To get involved go to- www.playscheme.org/volunteer

Why Volunteer?

- Looks great to future employers and universities
- Give something back to the community
- Develop your team & leadership skills

and most of all **It's great fun!**

- Full basic training given
- Access to additional training
- Enhanced DBS Clearance free
- Accredited volunteering hours
- **FUN!!!**

How do I get involved?

Simply book onto ONE of our Play Leadership training days held in Leyland, Preston, Chorley & Blackburn on dates throughout June.

You will also need to attend our Skills Training Day in July

For this years dates and to get involved just go to

www.playscheme.org/volunteer

Year 10 had an assembly on Wednesday with Chris from Leyland Playscheme, talking about the importance of volunteering. It doesn't just help with confidence, it shows that a young person can take initiative, develop leadership skills, work as part of a team, be resilient, creative, caring - all the qualities that employers are looking for, and that are hard to evidence without a scheme such as this.

All travel to and from the Playscheme and events is free, there are social events for the playleaders and young people get to join in all the activities.

This scheme has been running for well over 25 years and is the largest playscheme in the UK. Taking part looks great on CVs and application forms for colleges, universities or employment in the future.

[CLICK HERE](http://www.playscheme.org/volunteer) for more details on how to take part

BUILD YOUR EMPLOYABILITY SKILLS

Just look at what you can evidence after a week volunteering with Playscheme whilst having the time of your life!

Teamwork

Playscheme wouldn't work if everyone didn't pull together when its needed. You will be part of a number of teams on Playscheme.

Independence

You have a great responsibility and with that comes a huge sense of independence, you are free to make decisions to ensure the children in your care have the best week of their lives.

Resourcefulness

Playscheme conquers all; you will develop the skills to be able to turn your hand at anything after Playscheme. You will be amazed at just how many things duct tape will hold!

Working under pressure

There's no getting away from it; Playscheme IS intense! You will have an amazing time, but you WILL be exhausted, physically, mentally and emotionally.

Business Acumen

Business Acumen is basically about seeing the bigger picture – it is a really hard skill to develop but working in an intense environment where everyone matters and your actions affect others lets you see where you fit, how things work .

Organisation

Well it's Playscheme, you HAVE to be organised – and it becomes second nature after a week of organising others. After Playscheme the simple task of organising adults becomes a doddle.

Communication

Whether it be communicating across a tent with 1,000 children in it or getting down to the level of a child to hear exactly what it is they want to tell you; you will come away from Playscheme having the ability to communicate with anyone truly about anything!

And if you are looking to go into **Teaching, Childcare, Social care, Coaching** or similar professions it is expected that you show evidence that you have a genuine passion and interest in the career. Volunteering looking after children is ideal and it doesn't get much more hands-on than Playscheme.

Does your child love horses?

Find out more about careers in the Horseracing industry

When people think about Horseracing, the first job that comes to mind is being a Jockey. However, the industry offers hundreds of different career opportunities, ranging from hands on roles with horses in racing yards or stud farms to positions on racecourses or within administration. In fact, horseracing is the largest sporting employer in the UK.

Find out more

Apprenticeships in Horseracing

Is your child coming to the end of their academic studies? An apprenticeship in Horseracing could just be the path for them! There are dedicated training providers offering apprenticeships, training and development opportunities at all levels via the British Racing School in Newmarket, the National Horseracing College in Doncaster, the National Stud in Newmarket and the Scottish Racing Academy.

The Foundation Course

The Foundation Course is a great starting point for your child, the 12-week residential course provides people with the essential skills to start a career in horseracing. Whether your child has experience of riding and caring for horses or they are completely new to it, the Foundation Course will set them on the path to a successful, long-term career.

The course is delivered in two stages. The first takes place at one of the racing schools listed above, followed by 6 weeks of practical training through a work placement at a racing yard. During these placements, they'll continue to build the skills and knowledge needed to work effectively with racehorses, as part of a successful team.

WHAT HAPPENS NEXT

is where **your story** goes

Your students could become trusted voices of the future

The National Council for the Training of Journalists (the NCTJ) is the UK's leading provider of industry-recognised journalism training, offering a range of courses and qualifications to suit all students and providing the training and credibility they need to become a trusted voice of the future.

Whether they thrive in front of the camera or prefer to craft the story behind the scenes, the NCTJ can help them find where their story goes.

Discover roles for your students

74%

74% of NCTJ diploma students go on to work in journalism-related roles, compared to 28% of journalism graduates.

88%

88% of students who achieved the NCTJ's gold standard now work in journalism.

The world is changing, and storytellers are changing with it

In today's rapidly shifting media landscape, with endless AI-generated misinformation, truth and impartiality are more important than ever.

Visit the ['Where your story goes' hub](#) now to access the **quiz** and **video content** from **real life young journalists** that could inspire you about a path in journalism.

BOLTON
COLLEGE

After a successful roll out of our Evening Taster Sessions, we are pleased to again invite your Year 10 and Year 11 students to attend taster sessions at **Bolton College** on **Thursday 18th June**. These sessions provide an excellent opportunity for learners to explore potential career paths and experience college life first-hand.

Students can book up to two sessions per person:

- **Session 1: 5:00pm - 6:00pm**
- **Session 2: 6:15pm - 7:15pm**

Places are limited and we encourage your students to book sooner rather than later to ensure they successfully claim a place in their chosen taster area(s).

Available taster sessions cover the following areas:

- Art & Design
- Barbering
- Beauty Therapy
- Brickwork
- Business
- Carpentry & Joinery
- Catering & Hospitality
- Creative Media
- Design, surveying and planning
- Digital
- Early Years
- Electrical Installation
- Engineering
- Esports
- Foundation Studies
- Hairdressing
- Health & Social Care
- Motor Vehicle
- Plastering
- Plumbing
- Public Services
- Science
- Sport
- Textiles
- Travel & Tourism

The following booking link will allow students to reserve their places:

BOLTON
COLLEGE

What are the new post-16 options?

What?

The Government have recently announced changes to the options available to students at the post-16 stage.

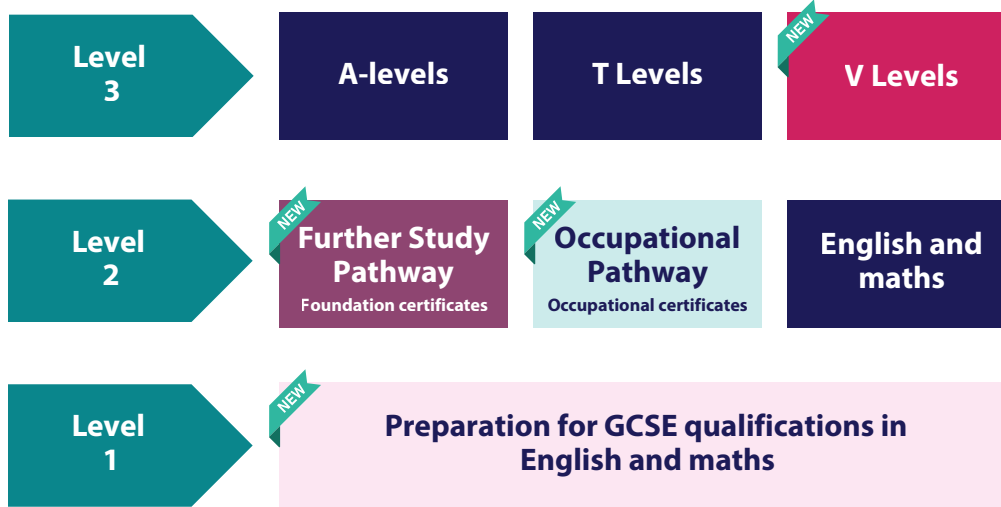

Why?

To make sure it is really clear what the options are for you and that you can gain the skills, knowledge and behaviours employers and the wider economy need.

When?

The first new courses are planned to start in September 2027, with different courses being rolled out until 2030/31.

New and existing post-16 options

What's new?

A-levels and T Levels are joined by V Levels at level 3

Two new level 2 pathways (roughly the same level as GCSE) are available to support students into further study or work

New level 1 GCSE qualifications provide a foundation year ahead of level 2 GCSE resit(s)

V Levels - key facts

- Level 3 vocational qualifications.
- Two-year course.
- For 16-19 year olds who would like to explore sectors without specialising.
- Taught in schools and colleges.
- Similar in size to one A-level.
- Multiple V Levels can be taken in combination with other qualifications such as A-levels or level 2 English or maths.
- First subjects available from September 2027 in Education & Early Years, Finance & Accounting and Digital.
- Content based on the skills you need for real jobs - the same framework used for T Levels and apprenticeships.
- Nationally recognised qualification.
- Most of assessment will be non-exam and will be through practical tasks.
- Attract UCAS points.

Further Study Pathway - key facts

- Level 2, classroom-based option.
- One-year programme.
- For 16-19 year olds who want to and are capable of progressing to further study at level 3 (T Levels/A-levels or V Levels).
- Taught in schools and colleges.
- Includes a Foundation Certificate, a vocational qualification.
- Content includes English and/or maths, enrichment activities and exposure to level 3 teaching.

Occupational Pathway - key facts

- Level 2, classroom-based option.
- Two-year programme.
- For 16-19 year olds who want to enter a particular level 2 occupation and need to develop their technical knowledge and skills.
- Taught in colleges and other training providers.
- Includes an Occupational Certificate, a technical qualification.
- Content includes English and/or maths, enrichment activities, core content and occupation-specific learning

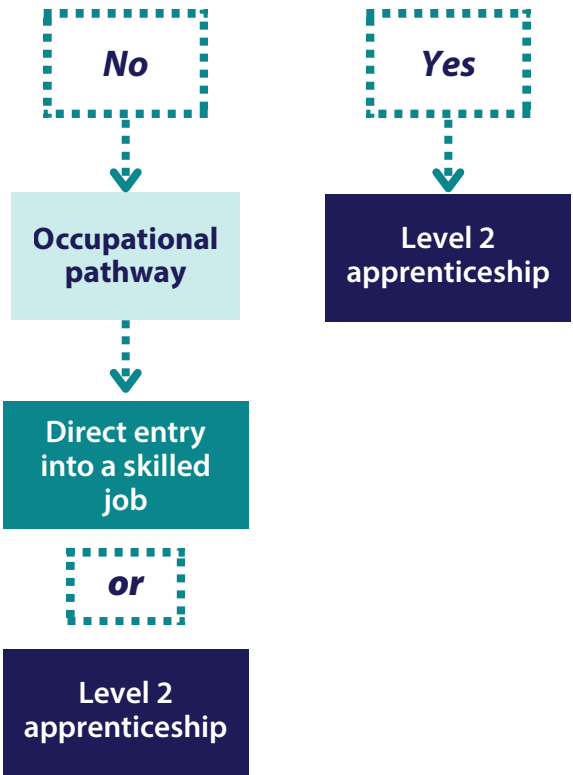

Find out more about T Levels: tlevels.gov.uk

Post-16 pathways from 2027

Taken GCSEs (or equivalent) and ready for a post-16 pathway?

Ready to work and learn at level 2?

Ready for study at level 3 or an apprenticeship?

GCSE English or maths at Grade 3 or below?

	Two-year pathway	
	Year 1 post-16	Year 2 post-16
Grade 2 or below	Level 1 GCSE stepping-stone	GCSE resit
Grade 3	GCSE resit	Continue GCSE if needed
SEND/low attainment	Entry/Level 1 Functional Skills	Progression as appropriate

A New Course!

We're incredibly excited to let you know that our **BRAND NEW** course, all about Cyber Security careers, is now **LIVE!**

Tailored for 13-17-year-olds, this **free course** equips students with essential knowledge on the cyber security industry and how students can build a career in the sector.

This 35-minute course explores different jobs in cyber security and how students can get started today.

Click the below button to sign up.

[**Sign Up Here**](#)

Benefits for Students:

- An Exploration of Different Jobs in Cyber Security
- Meeting Role Models in Cyber
- Creating a Career Roadmap
- Understanding Their Future Steps

GCSE Options Resource

We're excited to share with you a FREE resource to support your students as they work towards choosing their GCSE options.

This easy-to-access guide shows how GCSE subjects connect to:

- Real jobs people do today
- Skills employers look for
- Future careers that are growing fast

Covering subjects from languages to computer science, there are insights to support all students. Including supporting comments from real people who chose a certain subject and where they are now, in order to give students examples of potential career and subject routes.

Parent Questions Answered: Life After School

Following our recent webinar on life after school, we were struck by the sheer volume of questions we received from parents. It is clear that families are looking for more support than ever when it comes to navigating the transition from school to the professional world, and that this preparation must begin while students are still in the classroom.

To help you support your parent community, we have produced a new report: 'The Ultimate Parents' Guide to Life After School'. This resource provides families with insights and practical takeaways to help their children make informed career decisions.

[VIEW REPORT](#)

The Ultimate Parents' Guide to Life After School

The report offers families a comprehensive look at the professional world today, featuring:

- The options and pathways available to students
- The rise of AI and advanced technology
- How to engage in career-focused conversations with your child
- Advice from our network of industry professionals
- Top tips for parents & carers

Industrial Cadets: Individual Challenger Experiences

Our current available Individual Challenger activities are listed below. More exciting activities will be added soon.

To register for one of the activities - click on the link below, create an account on our Learning Platform, choose and pay for your activity, start and complete your 3 hour activity in your own time. Suggested age 11-16. On completion you will receive your Industrial Cadets Challenger certificate to download.

Cost: £25

Coding (Scratch) Project

This course is aimed at 11 -16-year-olds and can be completed by yourself. The recommended time to complete is 3 hours but it can take longer depending on the detail you put into your project. You can complete it in your own time, and it can be completed in multiple sessions as your progress will be saved.

This course is designed to help you learn about digital programming through the use of scratch. You will use Scratch to create two games one with a moving sprite and at least three levels. You will develop this in game two where your sprite will also move through items.

By the end of the course, you will have experience developing two games with sprites, different levels and functions. You'll see how digital programming is used in games and learn about careers in gaming.

Carbon Capture - Eco Garden project

This course is aimed at 11 - 16 year olds and can be completed by yourself. The recommended time to complete is 3 hours but it can take longer depending on the detail you put into your project. You can complete it in your own time and it can be completed in multiple sessions as your progress will be saved.

This course is designed to help you create a garden that supports the environment and contributes positively to the fight against climate change. Together, we'll explore the basics of climate change, its impacts, and the importance of natural carbon stores.

You'll learn about carbon sequestration—the process by which plants, soil, and other natural features capture and store carbon dioxide. With this understanding, you'll plan a garden that includes as many carbon-storing elements as possible. We'll also look at other features that can make your garden environmentally friendly, such as supporting biodiversity, conserving water, and providing habitat for pollinators.

To bring your ideas to life, you'll have the option of using recycled or craft materials for hands-on model building, or digital tools to create a detailed online design. This flexibility allows you to explore your creativity in a way that suits your preferences and resources.

By the end of this course, you'll have a clear plan for an eco garden tailored to your space and a deeper understanding of how small, thoughtful changes can make a big environmental difference.

TinkerCAD Moon Base Project

This course is aimed at 11 - 16 year olds and it can be completed by yourself. The recommended time to complete is 3 hours but it can take longer depending on the detail you put into your project. You can complete it in your own time and can be completed in multiple sessions as your progress will be saved.

This course is designed to help you create a 3D design using a CAD program. You will be able to investigate and learn how to create a 3D moonbase, fit for astronauts, whilst learning more about the best place to setup a base on the moon. Please keep in mind you will need an email address to log into TinkerCAD- this can be your own email or a parent/carer's email.

You'll learn about all the different elements you'd need to consider when building a base such as environmental factors, temperature, design shape, rooms and also think about what materials you could use in space.

To bring your ideas to life, you'll log in to TinkerCAD and go through the different lessons that are assigned to you.

By the end of this course, you'll have a clear understanding of how to use a CAD program whilst deepening your understanding of space.

If you have any questions regarding these activities please contact studentrecruitment@etrust.org.uk

We are very excited to share the fantastic news with you that, due to the huge success of our February Half Term pilot course, we will be re-running our: **FUTURE SKILLS PROGRAMME: Careers in STEM** over the May Half Term and the ***APPLICATIONS ARE NOW OPEN!**

This virtual programme is designed to inspire students, broaden their understanding of STEM careers, and equip them with the skills and confidence needed to make informed choices and succeed in future applications and the workplace.

Who is this for? Students in Years 9-10 - S3-S4

When is this course running? 26th-29th May

How long will it take to complete? Approximately 30 hours flexibly

How much will it cost? £50 (Fully funded bursaries are available for eligible students, criteria is here),

This course is perfect for students who:

- Have an **interest or curiosity in STEM**, engineering, manufacturing, digital technology, or future careers
- Would benefit from **early exposure to real-world STEM pathways**, including apprenticeships, technical routes, and university options
- Are beginning to think about **GCSE subject choices, post-16 options, or longer-term career ideas**
- May not yet see themselves in a STEM career but would benefit from **inspiration, role models, and insight into local and regional opportunities**
- Are motivated to develop **employability skills** such as communication, networking, and professionalism

The course is suitable for **all abilities** – enthusiasm and curiosity are far more important than prior knowledge and at the end of the course, students will graduate as **Bronze-level Industrial Cadets**, a nationally recognised award they can use as evidence of their experience to support future applications and career journeys.

Please use the link below for any students and their parents/guardians in Years 9-10

The UniTasterDays Students' Guide to University 2026

The key higher education facts for students thinking about university

The Students' Guide to University 2026 will allow you to make an informed choice about university. It includes articles to help you decide whether university is right for you, what you should study, and where you should study it.

Contributions have been provided by over 80 university representatives from across the UK, along with expert voices from outside the sector, such as educator and TV personality Baasit Siddiqui. The guide is supported by HELOA, a membership group for university advisers.

It is divided into sections to support you and your students through every stage of the university journey. Topics include researching options, attending events, financing studies, applying, and preparing for university life.

This year, mindful of the cost-of-living crisis, several articles are designed to help you overcome financial difficulty. You'll learn how to explore universities on a budget, secure "free money" to fund your student experience, manage your finances at university, secure a part-time job, and consider more affordable options like studying online.

Unlocking Your Future:

The Power of Apprenticeships

inno
vate
<her>

Student Feedback

"It was great! I loved hearing about different opportunities other than university. I would definitely consider applying for an apprenticeship now. I loved hearing advice from those who are apprentices already!"

"Interesting and told me lots of different things about the tech business, it also taught me more about apprenticeships and the work around it."

inno
vate
<her>

In this 20-minute activity, students will gain a deeper understanding of apprenticeships and the opportunities that they can provide.

The resource provides:

- An apprenticeship mock application
- Role Model, Amber, who discusses her journey and experience as an apprentice

A spotlight on the exciting possibilities apprenticeships offer.

Complete the activity via the button below

Spring Clean your CV

1. The 10-Minute Declutter Challenge

- Delete any outdated or irrelevant experience
- Condense overly long bullet points, only keep the words that provide real impact!
- Cut filler words e.g. “responsible for” or “duties included”
- Ensure contact details are up to date and include a professional email address

2. Refresh your skills

- Add any new transferrable skills from recent school projects, part-time work, volunteering, extracurriculars, work experience or online courses
- Include concrete examples e.g. “developed leadership” → “lead a team of 6 people in Year 12”
- Try using the formula: **Action Verb + Task + Impact**
- e.g. Organised a school charity event attended by 150+, raising £800

3. Keyword Gardening

- Pick 3 job or course descriptions that sound interesting to you
- Identify the key skills or requirements they are looking for
- Add these keywords into your own CV with your own examples

4. Plant your next goal

- Having reflected on your CV so far, look to the future and plant the seeds for your next goal
- Write down one short-term and one long-term career goal
- Top Tip: For maximum efficiency make your goals SMART (specific, measurable, achievable, relevant and time bound)

Why choose the Preston Centre of Sporting Excellence?

- Three different vocational levels for 16 to 19 year olds
- Lessons are delivered at Preston College; sports hall, 3G pitch, fitness suites and classrooms
- High level of competition in football with the opportunity to represent Preston College and Preston North End Community and Education Trust (PNECET)
- Work experience opportunities with PNECET
- Assessed through the completion of a portfolio, formal assignments, presentations, in class tests and practical assessments
- A progression pathway into higher education with the University of South Wales, scholarships or employment
- Dedicated recruitment team to support any application or interest

Scan the QR code to complete our
expression of interest form or for further information

Applications for entry September 2026
open on October 1st 2025

Gaining Experience Beyond The Classroom

INVESTIN
THE ULTIMATE WORK EXPERIENCE

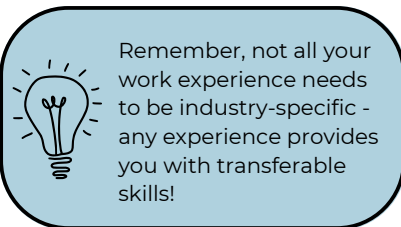

Why?

Gaining work experience or doing extracurriculars is data-gathering for your future; you will learn what you like and dislike, what motivates you or doesn't. Plus, it's a great way to stand out in future university and job applications! University admissions tutors are looking for applicants who are dedicated to their subject and have taken the time to explore it beyond the classroom.

Work Experience

What counts as work experience?

Any professional environment where you are developing and applying skills is a form of meaningful work experience!

What?

- **Shadowing**
Observing someone in a working environment
- **Volunteering**
Such as at charity shops, care homes or tutoring
- **Insight days & workshops**
Online or in-person programmes for students
- **Part-time job**
Such as in a cafe/restaurant, shop assistant
- **Formal placements & internships**
Typically more widely available for 18+

Where?

- **Look local**
Research organisations in your local area and enquire about shadowing or volunteering opportunities
- **Use your network**
Ask friends, family, teachers for any relevant connections
- **Look out for formal schemes**
Research opportunities for school students on sites like [Prospects](#), LinkedIn or the [Student Ladder](#)

Extracurriculars

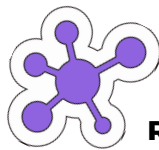

Consider what you already do outside of school - **what does it say about your interests or skills?**

Then, consider how you could develop further the skills required for your dream university course or career.

Socialising

Communication
Empathy

Sport

Leadership
Teamwork

Music or drama

Creativity
Commitment

Reading & writing

Analytical thinking
Attention to detail

What can I do in my free time to develop my skills?

Read or listen to podcasts related to your subject interests

Raise money for a charity or awareness about an issue important to you

Set up a club: STEM, debating, photography, newspaper, documentary...

Create your own portfolio of work, e.g. create a GitHub account to log your coding projects

Produce a journal or research project

Organise an event (marketing, sales & project management)

Manage a budget for a trip or holiday

Talk about your experiences in your applications...

Gaining experiences beyond your studies is only meaningful in your personal statement if you know how to relate them to your chosen course!

THINK: why has your extracurricular/work experience/project contributed to your passion or compatibility for your chosen subject? How did it ignite your spark for that field?

Looking to gain work experience? Check out InvestIN's programmes at www.investin.org

Subject Guide Videos

These impartial videos have one key aim. To support students who are considering university to make informed future subject decisions. They feature guest speakers from a range of different universities, who are always experts in the subject being explored.

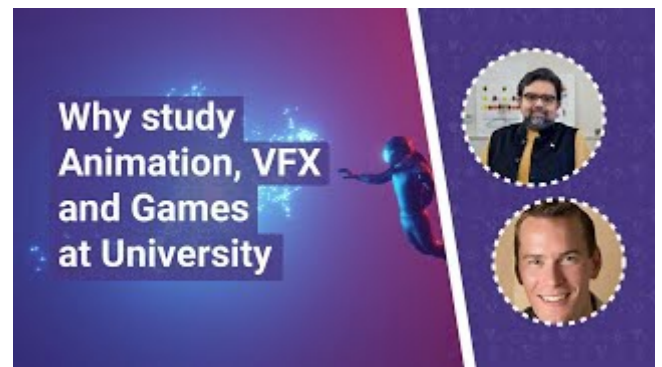

Including the UK's first video subject guide!

Different subjects, but the same four themes explored in every single one:

- Why students may wish to consider the subject
- What to expect if they study it
- An overview of the careers it may lead to
- Application tips if they go on to apply

From Accounting to Zoology - and 100's of subjects in between. You can browse any of the videos, search by keyword, or filter by subject.

STRONGER STARTS PROGRAMME OPEN FOR APPLICATIONS!

Tesco's Stronger Starts apprenticeship programme is now open, offering two fantastic apprenticeship pathways for young people, the well-established Retail Apprenticeship and the brand-new Maintenance Apprenticeship.

Stronger Starts is a fantastic opportunity for young people to kickstart a career in retail or maintenance, enjoy a brilliant starting salary, and receive lots of support and coaching along the way.

Read on for more information on the roles, links to apply, tips on applying and our upcoming webinar with the Tesco Early Careers team...

THE ROLES

Maintenance Apprenticeships

Stronger Starts are now offering a Maintenance Apprenticeship! Apprentices will work alongside earning a Level 2 Property Maintenance Operative qualification – equivalent to 5 GCSE passes.

The 18-month programme sets you up with the skills you need for everyday duties in maintenance jobs.

FIND OUT MORE

Retail Apprenticeships

Retail apprentices will work, earn and learn, gaining a Level 2 National Standard in Retail qualification over the course of the programme.

You'll gain hands-on experience of how a store operates, and have the opportunity to experience different roles and tasks across the store.

FIND OUT MORE

Retail Apprenticeship What skills do you gain?

It's not just about stacking shelves!

RETAIL

Learn about all areas of retail and how a store works across all areas.

BUSINESS

Develop an understanding of how a business works - on a store and national level.

CUSTOMER SERVICE

Develop customer service and communication skills in a wide range of scenarios.

SOCIAL MEDIA

Gain knowledge of the impact social media has on brand reputation.

TECHNOLOGY

Become proficient at using a range of different technologies.

FINANCE

Handle money and using financial operations in real-life situations.

STOCK

Learn to manage stock availability using systems and procedures.

PRODUCT PLACEMENT

Develop an understanding of product placement promotional activities.

TEAMWORK

Build your people and teamwork skills by working with a wide variety of colleagues.

TIME MANAGEMENT

Progress your time management skills and learn how to prioritise tasks.

PROBLEM-SOLVING

There will be lots of opportunities to develop your problem-solving skills in retail.

COMMUNITY

Gain knowledge of supporting local communities.

MENTORVERSE

For students in the 10-11 year groups, we present the following avenues:

- Free NHS Virtual Work Experience
- Free Volunteering Placements with the 'You Okay Doc?'
- Free National Study Skills E-learning
- Free Virtual Medical/Dental Society Webinars
- Free Equality, Diversity, and Inclusion E-learning Course for Healthcare Professionals

Your students can access these extracurricular opportunities by signing up for a free student portal:

Medical: <https://medicmentor.org/the-medic-mentor-portal-2/>

Dental: <https://dental-mentor.org/the-medic-mentor-portal-2/>

Enrolling as a bronze pathway student, you can

- Access free work experience each month
- Get access to zoom links for all of our free conferences and meetings
- Access the Wider Reading and Virtual Medical Societies
- Participate in Fundraising
- Download all of your Medic Mentor certificates
- Access Study Skills E-learning
- Access how to advance to other Pathways

register!

LIVE!

FREE

Get Into Medicine.

CONFERENCE

One of our doctors (Chief Mentors) will take you step-by-step through your application to medical school.

This includes:

- Application Timelines
- Interview Training
- Personal Statements
 - CV Building
 - UCAT Exams
 - Extracurriculars
- Accessing Medical Leadership Programmes, Awards Programmes and Scholarships to University

You'll also hear from a recently successful applicant on what it takes to make your candidacy to medical school stand out!

Understanding the pivotal role that work experience plays in shaping a student's perspective on their future career, we're delighted to extend an invitation to your students to participate in our FREE 6-month medical or 4-month dental virtual work experience programme.

Aiming to provide students with insights into the medical and dental fields, this free virtual work experience empowers students to make informed decisions about their future.

Students aged 14 and above are eligible to apply for a placement for FREE through these links:

Medicine: <https://medicmentor.org/university-hospitals-birmingham-trust-virtual-work-experience/>

Dentistry: <https://dental-mentor.org/university-hospitals-birmingham-trust-virtual-work-experience/>

Virtual work experience has been recognised by the Medical Schools and Dental Schools Council as a valuable substitute for in-person shadowing. This endorsement is underpinned by the Health Education England Discovery report, which highlights the positive impact of virtual work placements.

This virtual experience not only serves as a dependable alternative to traditional shadowing but also plays a pivotal role in equipping students with the necessary skills for their in-person work placements. In 2024, these 6-month medical and 4-month dental work experience programmes facilitated over 30,000 secondary school students in accessing complimentary work experience opportunities. Through structured instruction and direct engagement with healthcare professionals, students are well-prepared for their future endeavours.

Crafted in collaboration with Birmingham Universities Hospitals Trust and built with the flexibility of an E-learning format, participants can navigate their placements at their own pace, exploring vital topics like ethics, procedures, and broader team roles. This virtual experience not only enhances students' UCAS applications, but also strategically prepares them for the practical challenges and opportunities ahead.

Taking part in the Virtual Work Experience will provide:

- **Comprehensive Insights:** The programme covers a range of specialities, providing a deep understanding of medical and dental practices. Each month, a new focus area is introduced, allowing participants to delve into different aspects of the field.
- **Flexible Participation:** Tailored for students from years 10-11, the programme accommodates various schedules by being virtual. Participants have one month to complete each specialty, ensuring flexibility and ease of participation.
- **Recognised Certification:** Upon successful completion of all sessions, students will receive a certificate from Medic Mentor and UHB, validating their active participation which they can include in their UCAS and apprenticeships applications.

***The new speciality on General Practice or
Public Health & Oral Pathology is available now.***

Registering for these programmes is simple - students just need to complete the free online application form:

Aspiring Medics: <https://airtable.com/appgXnyzN5ZD9lwk6/shrGJUAtigzZzDwTN>

You'll also hear from a recently successful applicant on what it takes to make your candidacy to dental school stand out!

MEDIC MENTOR

YOUR MEDIC FAMILY

The Medical Schools Council acknowledges virtual work experience as an equal alternative to in-person shadowing based on a discovery report conducted by Health Education England. I encourage students aged 14 and over, interested in medicine to participate in our FREE National NHS Virtual Work Experience programme. We are pleased to offer a variety of medical specialties, with a focus this month on palliative care. This enables your students to gain a well-rounded perspective of working within the NHS.

This opportunity is for students in Years 10-11.

<https://medicmentor.org/university-hospitals-birmingham-trust-virtual-work-experience/>

Developed in collaboration with Birmingham Universities Hospitals Trust, this Virtual Work Experience has proven to be transformative for thousands of secondary school students over the past year. It also provides a strong foundation of knowledge for students who are preparing to undertake future in-person placements.

We've designed a 6-month medical e-learning work experience programme, focusing on one specialty each month, allowing students to set their own pace of learning. From structured teaching to direct interaction with doctors and healthcare professionals, our programme ensures students not only observe procedures but also gain a broader understanding of roles within the medical field.

Covering everything from confidentiality and ethics workshops delivered by the GMC to clinical procedures, our virtual work experience provides a crucial overview, thereby enhancing your students' UCAS applications.

Signing up is easy – students simply need to fill out the free online application form:

Why the Medic Mentor Virtual Work Experience is the largest in the UK...

- There are 6 Sessions in total providing the longest and most in-depth work experience available
- It covers 6 different areas of medicine whereas other work experiences only cover 1 or 2
- It is e-learning based so students can complete it in their own time around school work
- Students have 30 days to complete one session and then the next session drops
- Students are provided a certificate of completion once all 6 sessions are done
- Involves real doctors, clinical settings and high fidelity simulations
- Takes students on a complete patient journey
- Students get an insight into the multidisciplinary team
- Includes a free reflective journal (great for personal statements)
- It's completely free!

NHS

**University Hospitals
Birmingham**
NHS Foundation Trust

Follow multiple patients over a 6-month period, as they go from their initial injury to recovery. It is amazing how many different healthcare professionals are involved in a patient's care. This incredible opportunity showcases a variety of professionals in one day. It gives students a chance to see them in action in various settings from the ward to the community. It is also a fantastic opportunity to see them work together in a multidisciplinary team.

During the work experience day, students will follow 2 patients from their initial presentation to recovery. Students will observe the healthcare professionals as they interact with the patients and also each other. Students will have an opportunity to ask questions and gain knowledge through teaching. This will help students to make an informed career decision as well as learn about how healthcare professionals work together as part of a multidisciplinary team. Each work experience day is completely different and students will be able to build on their knowledge of NHS careers as they see different patient cases and their healthcare professionals work in a variety of settings, such as hospital and community. For this reason we recommend that students attend one work experience a month for 6 months to not only gain a deeper knowledge of multidisciplinary teams in general but also their chosen careers.

Register here: <https://alliedhealthmentor.org/nhs-healthcare-careers-virtual-work-experience/>

Once they've registered, students will be emailed links to their virtual work experience portals.

Please ask students to check their spam folders and mark their attendance on the day in order to receive their Work Experience Certificates.

This programme is suitable for students in year groups 10/11 who are interested in the following careers:

- Nursing
- Midwifery
- Paramedicine
- Physiotherapy
- Occupational Therapy
- Dietetics
- Radiography
- Prosthetics and Orthotics
- Speech and Language Therapy
- Pharmacy

The sooner students begin work experience, the better. During the work experience day, students will follow 2 patients from their initial presentation to recovery. They will gain a unique insight into how patients interact with a variety of healthcare professionals and what it's like to work in an NHS multidisciplinary team.

Attendees will have the opportunity to interact with healthcare professionals throughout each day. This will empower students to make an informed career decision and demonstrate their commitment to healthcare in their UCAS applications.

Students will receive certificates as evidence of having participated in the work experience programme. Those that complete the full 5-month programme will also be awarded Highly Commended References.

Students can register individually at any time throughout the 5-month programme using the link below. We recommend booking early to gain as much out of this programme as possible. Places are £10 a session to cover administrative and technological costs:

LIVE!
VIRTUAL

Allied Healthcare Work Experience

Take your first steps into the world of healthcare careers
in our Virtual Allied Healthcare Work Experience.

Meet this month's AHP professional **guest speaker**, from **9 - 10am**, and
then dive into live work experience sessions.

After a compelling talk from our guest speaker about their career and
what they do day to day, you will **dive into live work experience sessions**
from the safety of your home.

Witness the journey of two patients from injury to recovery over 6
months, and experience how many different healthcare professionals
are involved in a patient's care, from hospital all the way through to a
community team.

ALLIED
HEALTHCARE
MENTOR

CAREER *of the* WEEK

Local government officer

As a local government officer, you'll be involved in the practical development and application of council policies and procedures.

Local government officers play a vital role in ensuring that the decisions made by elected local councillors are implemented effectively and that essential public services are delivered efficiently and responsibly.

Your work will help ensure that services meet the needs of the community, are delivered within budget and comply with relevant legislation and standards.

Roles are available across a range of service areas, including:

- consumer protection
- economic development and regeneration
- education
- emergency planning
- environmental health and services
- housing
- leisure and cultural services
- planning
- social services
- transport and highways
- waste management

Responsibilities

Specific activities vary depending on the department and local authority you work for, as well as your level of seniority. Some roles involve direct interaction with the public, while others focus on technical expertise, strategic planning or work with other council staff and departments.

However, you will commonly need to:

- help develop, plan and monitor council policies and procedures
- support the implementation of council decisions and communicate outcomes to relevant stakeholders
- provide support and guidance to elected members, for example to cabinet members or local committees
- organise and support meetings, including preparing agendas, taking minutes and following up on actions
- research, write and present reports, briefing papers and policy documents
- liaise with internal council departments such as finance, HR and communications
- liaise with external organisations, including government bodies, contractors, partners and other councils and local authorities
- support the creation and delivery of departmental and corporate plans
- monitor performance and quality assurance metrics to ensure services provide value for money
- manage and evaluate projects, including timelines, resources and outcomes
- prepare and manage contracts and service-level agreements
- collect and analyse data to support inspections and demonstrate compliance with legislation and best practice
- respond to enquiries and provide information, advice and guidance on policy and performance
- work with members of the public, councillors and other stakeholders, presenting information at meetings when required.
- In more senior positions you may also manage staff and departmental budgets, contribute to strategic planning and support senior management in decision making
