

CEIAG Programme 2024-25

Aim: At Parklands High School we believe that every child should leave school prepared for life in modern Britain. Alongside ensuring academic rigour we ensure your students have opportunities to develop the values, skills and behaviours they need to get on in life. All children should receive a rich provision of classroom and extra-curricular activities that develop a range of character attributes, which underpin success in education and employment. High quality, independent careers guidance is also crucial in helping pupils emerge from school more fully rounded and ready for the world of work. Young people want and need to be well-informed when making subject and career decisions particularly at key points of transition, e.g. when selecting subject specialisms in year 9 and when moving onto further education, training and apprenticeships .

Year	Programme	Information	Calendar
