

fluctuate

(verb)

To ***fluctuate*** means to change continually, to shift back and forth, to vary irregularly.

Fluctuate is *derived* from
the Latin 'fluere', which
means 'to flow'...

... this then became
'fluctuat' meaning
undulations or waves,
and then ***fluctuate***.

An antonym of fluctuate
is to be *steady*.

(So something that
fluctuates is not *steady*).

The air temperature in
England ***fluctuates***
during the summer
months.

The popularity of the
Spice Girls has
fluctuated over the
course of their career.

Which aspects of your
life *fluctuate*?

Are there any aspects of school which *fluctuate*?

Fluctuation (noun)

Fluctuating (adjective)

Unfluctuating (adjective)

Can you describe any
aspects of English using
the word *fluctuate*?
