WORK EXPERIENCE: 15-19 JULY 2019

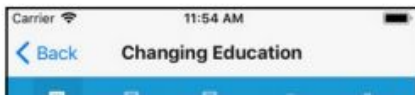

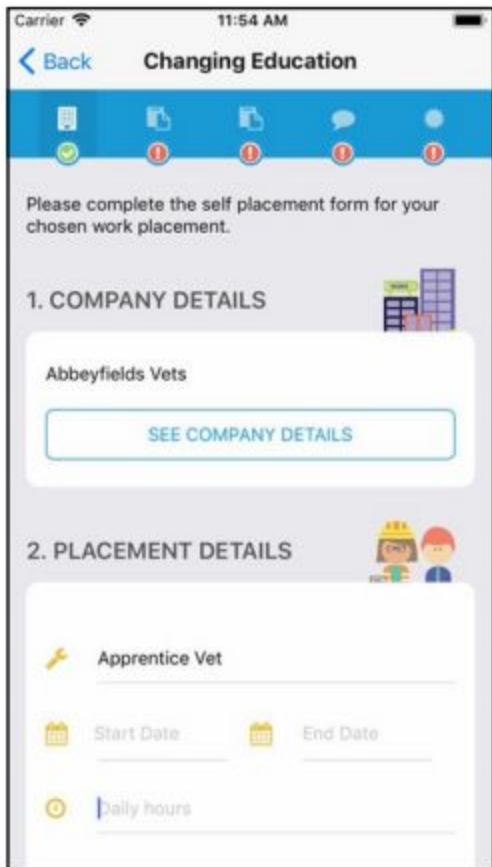

← You need to download the **Connect Placement Manager** app from the app store. Log in with your **school email address** and your **ULN**, which your form tutor will give to you.

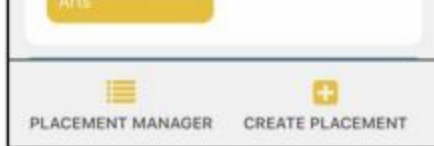

← Fill in the section about your interests, so that the app can suggest possible job types that you might want to explore.

It will **not** suggest companies to contact - that is for you to do. Ask parents or relatives, or search online for possible placements.

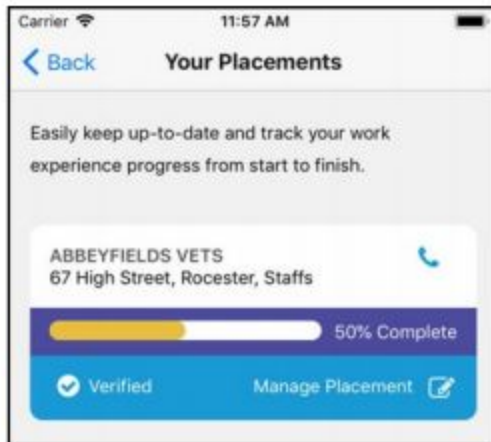

Once you have found an employer you must complete their details for the self placement form. That will enable Changing Education to contact them and request their insurance details and so on. Please make sure you get the correct email address for the person who is authorising your work experience week.

or search online for possible placements.

Once your placement is authorised, you can track your progress from start to finish.

See Miss Berry (top office) if you have any questions.
