

There's so many different  
things you can do with an egg  
box for all ages and  
occasions. Here are some of  
my favourites.

# Egg Box Crafting

When using scissors make sure you get permission from a parent/carer.

Glue stick

An egg box, start collecting them

If you've got any crafting bits around the house, or upcycle materials like old Christmas cards, fabrics etc.

Paint or coloured pencils

Animals from your  
favourite stories

Try and stack the egg cups and turn them into a slinky mermaid or fish.

Tip - If you thread them together, then they will move freely.

I like the attention to detail with the shells and the sparkly tail

Try and create different tones in your tail

All set sail on your very own boat.

I really like these funny faces, they would look fantastic on our walls.

## *Springtime* Egg Carton Flower Wreath

Pretty Easter bouquets to  
decorate your home with

This requires a little more skill and patience.

Can you cut intricate patterns and build the shape up by layering.

*Hope you have fun crafting  
And this has given you a few  
ideas to get your  
imagination going.*
