

Park Community Academy

Class 1B Animals Topic (Forest Animals) Summer Term Home Learning Activities SET 3

If you want to share what you've been doing with your teacher you can send them a photo, video or write to them at:

1B@park.blackpool.sch.uk

Don't forget to use your:

Bug Club, Education City and

Discovery Education Espresso

Keep checking our 1B class blog as well for more ideas.

Literacy

Read the Gruffalo with someone at home. This story is a favourite of ours in 1B. There's lots of videos and songs about the story on youtube. Follow the links below for our favourites:

<https://www.youtube.com/watch?v=s8sUPpPc8Ws>

<https://www.youtube.com/watch?v=qCdVP9Oq6HM> (Julia Donaldson the author - singing and signing!)

Explore the official Gruffalo website with lots of games, songs and stories.

<https://www.gruffalo.com/what-s-happening/news/a-new-home-for-the-gruffalo>

Listen to the story 'Sam's sandwich' and follow the lesson to write instructions in lesson 2 as well.

<https://www.thenational.academy/year-1/english/sams-sandwich-year-1-wk1-1#slide-1>

Have a go at making your own sandwiches. You could make a nice sandwich and a disgusting sandwich. Can you tell someone at home how to make your sandwich? Can you remember what you need to do first, next and then?

Practice writing letters in different ways. Use your fingers to make shapes and letters in a tray of sugar or flour. Use chalk to write letters on the floor outside.

Literacy Challenge for this week:

Write (or make!) your full name with something other than a pen or pencil and send a photo on the 1B email!

You could use chalk, paint, mud, soap, pasta...

Maths

Can you remember the days of the week? Practice the order of the days using the cbeebies songs we use in class.

<https://www.bbc.co.uk/cbeebies/curations/days-of-the-week-songs>

Explore the lesson all about days of the week on the Oak Academy website.

<https://www.thenational.academy/reception/maths/exploring-and-discussing-the-days-of-the-week-reception-wk3-2>

Follow the instructions in the lesson to make your own calendar to update the weather and the day of the week.

Time yourself at home doing different activities. How long does it take you to tidy your toys? How long does it take you to jump 10 times? Make your own time challenges for yourself and others at home.

Think about 2D and 3D shapes in your house. Miss Barlow will email a shape hunt checklist. How many shapes can you find in your house? Take photos of the shapes you find.

Play these 2D and 3D shape games online:

<https://www.topmarks.co.uk/early-years/shape-monsters>

<https://www.bbc.co.uk/bitesize/topics/zjv39j6>

<https://www.bbc.co.uk/cbeebies/games/postman-pat-pats-pat-sort>

Maths Challenge for this week: Use 3D shapes from your recycling bin to build a home for the Gruffalo! Send photos of your creations to the 1B email. The best will go on the blog!

Understanding the World

Can you create your own forest? Let's think about what you could discover in a forest then get outside and find twigs, pebbles, feathers and leaves to create a woodland of your own.

Maybe you could make a log pile house just like the snake in The Gruffalo story? Could you ask someone for help and create your own den?

A Forest Maze - The forest could be a tricky place to get lost, can you create a maze using twigs and challenge someone to find the middle? How could you remember the right way to get back out? Can you make a really easy maze then one that is more difficult?

Find out about woodland animal habitats and what they eat in this fun, interactive game.

<https://www.bbc.co.uk/bitesize/topics/zbnnb9q/articles/zsphrwx>

Expressive Arts and Design

Using some of the natural resources you collected from your walk can you make a nest for a bird? You could even have a go at making your own birdhouse to go in your garden.

Footprints can be turned in to all kinds of creatures. Ask someone at home to help to see if you can create a Gruffalo from your footprint.

Look at the fun hair you could create with items you can find outside! Have a go at drawing yourself or use a photograph you already have, and create some funky hair styles!

It's fun to go on a nature walk! See how many different nature objects you can collect with a grown up and then make a special nature bracelet or a picture using sticky tape.

Physical Development

Have a go at dancing to 'what did the fox say' on just dance. Follow the link below.

https://www.youtube.com/watch?v=drWHI-l_Gew

Head to the forest and join Andy on a Wild Workout

<https://youtu.be/7Mc-0sbRSCE>

Get those fine motor skills working and use pipe cleaners or string and Cheerios to create bird feeders to hang in your garden or in your local park when out on your daily.

Why not go on a bear hunt whilst doing yoga? Follow the link below.

<https://www.youtube.com/watch?v=KAT5NiWHFIU>

Personal, Social and Emotional Development

Little seeds and tall trees - Do you remember planting seeds and watching them grow in class? Here is a video you can watch of seeds growing big and tall like the plants do in the forest. <https://youtu.be/ECibetK2EYI>

Have a go at planting your own seeds at home if you can. Keep a photo diary or tell someone at home when you see them growing.

Explore fruits and vegetables in this lesson from the Oak Academy.

<https://www.thenational.academy/specialist/independent-living/exploring-fruits-and-vegetables-specialist-wk4-1>

At home cut up some fruits and vegetables - have a tasting challenge with someone at home. Take it in turns to taste the different foods. On one piece of paper draw a smiling face and on another piece of paper draw a frowning face. Put the fruit or vegetable on the piece of paper that describes how you feel.
