

Year 7

This implementation document outlines the structure and key components of the Year 7 Art, Craft and Design curriculum at Penwortham Priory Academy. The curriculum is designed to develop all learners to be proficient within the areas of observational drawing, painting, printing and other art, craft, and design techniques.

With a total of two lessons a week in two half terms over the academic year, learners will engage and develop their skills within two learning experiences. Each learning experience will give all learners the opportunity to develop creativity, critical thinking, and practical skills. This in turn will inspire and challenge all learners to create and invent their own works of art, craft and design through the application and experimentation of artistic media, researching of themes, analysing the work of 'others' and recording ideas through two-dimensional media.

Year 8

This implementation document outlines the structure and key components of the Year 8 Art, Craft and Design curriculum at Penwortham Priory Academy. The curriculum is designed to build upon the foundational knowledge and skills developed in Year 7, embedding prior knowledge and skills within the areas of observational drawing, painting, and developing other art, craft, and design techniques such as clay relief.

With a total of two lessons a week in two half terms over the academic year, learners will engage and develop their skills further. The learning experiences will give all learners the opportunity to continue to develop creativity, critical thinking, and practical skills further. This in turn will inspire and challenge all learners to create and invent their own works of art, craft and design through the application and experimentation of artistic media, researching of themes, analysing the work of 'others' and recording ideas through two-dimensional and three-dimensional media.

Year 9

This implementation document outlines the structure and key components of the Year 9 Art, Craft and Design curriculum at Penwortham Priory Academy. The curriculum is designed to build upon the foundational knowledge and skills developed in Year 7 and 8, embedding prior knowledge and skills further within the areas of observational drawing, media exploration, and developing other art, craft, and design techniques such as sculpture.

With a total of two lessons a week in two half terms over the academic year, learners will engage and develop their skills further. The learning experiences will give all learners the opportunity to continue to develop creativity, critical thinking, and practical skills further. This in turn will inspire and challenge all learners to create and invent their own works of art, craft and design through the application and experimentation of artistic media, researching of themes, analysing the work of 'others' and recording ideas through two-dimensional and three-dimensional media. This broadening of knowledge, skills and understanding throughout KS3 provides a solid foundation to continue their creative journey into GCSE.
