

# Governors at Priory

I am the School Business Manager and have been in post for 4 years. I originally volunteered to be a Staff Governor to support my own development and learn more

about how a school operates. I have gained valuable knowledge and experience during my time as a Staff Governor and I am keen to continue evolving in my role and leading Priory on its journey to great.

I have 17 years' experience working in Local Government, primarily in the education sector, with strengths in HR, Payroll, Health & Safety, School Finance and Business. The skills and experience I have previously gained have already proven valuable in my role and will provide further support to Priory as a Staff Governor.
