- The images that are captured are useable for the purposes we require them for
- We reassure those persons whose images are being captured, that the images are being handled in accordance with data protection legislation

This policy covers the use of surveillance and CCTV systems which capture moving and still images of people who could be identified, as well as information relating to individuals for any of the following purposes:

- Observing what an individual is doing
- Taking action to prevent a crime
- Using images of individuals that could affect their privacy

The surveillance system will be used to:

4. The school will only conduct surveillance as a deterrent and under no circumstances will the surveillance and the CCTV cameras be present in school classrooms or any changing facility.
4. If the surveillance and CCTV systems fulfil their purpose and are no longer required the school will deactivate them.

5. Data protection

5. Data collected from surveillance and CCTV will be:
- Processed lawfully, fairly and in a transparent manner in relation to individuals

6. The surveillance system is a closed digital system which does not record audio
6. Warning signs have been placed throughout the premises where the surveillance system is active, as mandated by the ICO's Code of Practice
6. The surveillance system has been designed for maximum effectiveness and efficiency; however, the school cannot guarantee that every incident will be detected or covered and 'blind spots' may exist

6. The surveillance system will not be trained on private vehicles or property outside the perimeter of the school

7. Security

7. Access to the surveillance system, software and data will be strictly limited to authorised operators and will be password protected.
7. The school's authorised CCTV system operators are:
 - Principal
 - DPO
 - Facilities Manager
 - ICT Network Officer
 - Pastoral Managers
7. The main control facility is kept secure and locked when not in use.
7. If, in exceptional circumstances, covert surveillance is planned, or has taken place, copies of the Home Office's [authorisation forms](#) will be completed and retained.
7. Surveillance and CCTV systems will be tested for security flaws once a month to ensure that they are being properly maintained at all times.
7. Surveillance and CCTV systems will not be intrusive.
7. The DPO and Principal will decide when to record footage, e.g. a continuous loop outside the school grounds to deter intruders.
7. Any unnecessary footage captured will be securely deleted from the school system.
7. Each system will have a separate audio and visual system that can be run independently of one another. Audio CCTV will only be used in the case of deterring aggressive or inappropriate behaviour.
7. Any cameras that present faults will be repaired immediately as to avoid any risk of a data breach.
7. Visual display monitors are located in the main office and the Facilities Manager office.

8. Privacy by design

8. The use of surveillance cameras and CCTV will be critically analysed using a DPIA.
8. A DPIA will be carried out prior to the installation of any surveillance and CCTV system.
8. If the DPIA reveals any potential security risks or other data protection issues, the school will ensure they have provisions in place to overcome these issues.

8. The school will ensure that the installation of the surveillance and CCTV systems will always justify its means.
8. If the use of a surveillance and CCTV system is too privacy intrusive, the school will seek alternative provision.

9. Code of practice

9. The school understands that recording images of identifiable individuals constitutes as processing personal information, so it is done in line with the UK GDPR principles.
9. The school notifies all pupils, staff and visitors of the purpose for collecting surveillance data via notice boards, letters and emails.
9. CCTV cameras are only placed where they do not intrude on anyone's privacy and are necessary to fulfil their purpose.
9. All surveillance footage will be kept for one month for security purposes; the Facilities Manager and DPO are responsible for keeping the records secure and allowing access.
9. The school has a surveillance system for the purpose of the prevention and detection of crime and the promotion of the health, safety and welfare of staff, pupils and visitors.
9. The surveillance and CCTV system is owned by the school and images from the system are strictly controlled and monitored by authorised personnel only.
9. The school will ensure that the surveillance and CCTV system is used to create a safer environment for staff, pupils and visitors to the school, and to ensure that its operation is consistent with the obligations outlined in the UK GDPR. The GDPR policy is available from the school's website.
9. The surveillance and CCTV system will:
 - Be designed to take into account its effect on individuals and their privacy and personal data
 - Be transparent and include a contact point through which people can access information and submit complaints
 - Have clear responsibility and accountability procedures for images and information collected, held and used
 - Have defined policies and procedures in place which are communicated throughout the school
 - Only keep images and information for as long as required
 - Restrict access to retained images and information with clear rules on who can gain access
 - Consider all operational, technical and competency standards, relevant to the surveillance and CCTV system and its purpose, and work to meet and maintain those standards in accordance with the law

- Be subject to stringent security measures to safeguard against unauthorised access
 - Be regularly reviewed and audited to ensure that policies and standards are maintained
 - Only be used for the purposes for which it is intended, including supporting public safety, the protection of pupils, staff and volunteers, and law enforcement
9. Be accurate and well maintained to ensure information is up-to-date.
 9. To comply with the requirements of the Protection of Freedoms Act 2012, the school will notify all parents of its intention to process pupils' biometric data, and emphasise that parents may object at any time to the processing of the information.
 9. The school will ensure that information is included in its privacy notices that explains how biometric data is to be processed and stored, including the rights available to individuals in respect of the processing.
 9. The school will ensure that pupils' biometric data is not taken or used as part of a biometric recognition system if pupils under the age of 18 object or refuse to participate in activities that involve the processing of their biometric data. The school is aware that a pupil's objection or refusal overrides any parental consent to the processing of data.
 9. Reasonable alternative arrangements will be provided for pupils who do not use automated biometric recognition systems either because their parents have refused consent or due to the pupil's own refusal to participate in the collection of their biometric data.
 9. The alternative arrangements will ensure that pupils do not suffer any disadvantage or difficulty in accessing services and premises. Likewise, such arrangements will not place any additional burden on parents whose children are not participating in such a system.

10. Access

10. Under the UK GDPR, individuals have the right to obtain confirmation that their personal information is being processed.
10. All disks containing images belong to, and remain the property of, the school.
10. Individuals have the right to submit an SAR to gain access to their personal data in order to verify the lawfulness of the processing.
10. The school will verify the identity of the person making the request before any information is supplied.
10. A copy of the information will be supplied to the individual free of charge; however, the school may impose a 'reasonable fee' to comply with requests for further copies of the same information.

10. Where an SAR has been made electronically, the information will be provided in a commonly used electronic format.
10. Requests by persons outside the school for viewing or copying disks, or obtaining digital recordings, will be assessed by the Principal, who will consult the DPO, on a case-by-case basis with close regard to the UK GDPR and freedom of information legislation.
10. Where a request is manifestly unfounded, excessive or repetitive, a reasonable fee will be charged.
10. All fees will be based on the administrative cost of providing the information.
10. All requests will be responded to without delay and at the latest, within one month of receipt.
10. In the event of numerous or complex requests, the period of compliance will be extended by a further two months. The individual will be informed of this extension, and will receive an explanation of why the extension is necessary, within one month of the receipt of the request.
10. Where a request is manifestly unfounded or excessive, the school holds the right to refuse to respond to the request. The individual will be informed of this decision and the reasoning behind it, as well as their right to complain to the ICO and to a judicial remedy, within one month of the refusal.
10. In the event that a large quantity of information is being processed about an individual, the school will ask the individual to specify the information the request is in relation to.
10. It is important that access to, and disclosure of, the images recorded by surveillance and CCTV footage is restricted and carefully controlled, not only to ensure that the rights of individuals are preserved, but also to ensure that the chain of evidence remains intact, should the images be required for evidential purposes.
10. Releasing the recorded images to third parties will be permitted only in the following limited and prescribed circumstances, and to the extent required or permitted by law:
 - The police – where the images recorded would assist in a specific criminal inquiry
 - Prosecution agencies – such as the Crown Prosecution Service (CPS)
 - Relevant legal representatives – such as lawyers and barristers
 - Persons who have been recorded and whose images have been retained where disclosure is required by virtue of the UK GDPR and the Freedom of Information Act 2000
10. Requests for access or disclosure will be recorded and the Principal will make the final decision as to whether recorded images may be released to persons other than the police.

- 11. The Principal will be responsible for monitoring any changes to legislation that may affect this policy, and make the appropriate changes accordingly.
- 11. The Principal will communicate changes to this policy to all members of staff.
- 11. The scheduled review date for this policy is May 2025.
