

Penwortham Priory Post

Year 9 Tell Anne Frank's Story For Good

Priory's Year 9s have been learning about Anne Frank this week as they use the exhibition which has been set up in school to talk about the dangers of intolerance and hatred.

The Anne Frank Exhibition, from the Anne Frank Trust, is all about the life of Anne which is used as a platform for education about anti-semitism and all forms of hatred.

Teenager Anne Frank was a German-born Jewish girl who kept a diary where she recorded hiding in an Amsterdam attic during World War II during the Nazi persecution. Anne died in Bergen-Belsen concentration camp, aged 15.

Anne Frank Trust's Lucy Allan spent time with the Year 9s at Priory who volunteered to teach the Anne Frank story to Year 7 & 8 pupils this week, as well as Year 6 pupils from Penwortham Primary School.

Lucy said: "We have done lots of work about challenging prejudice and discussed World War II and Anne Frank's life. We have also carried out a number of activities and workshops so the pupils can become Peer Educators/Tour Guides.

"They have been so enthusiastic and come up with a lot of their own ideas and amazing scripts to tell the important story of Anne Frank's life.

Key Dates

Diary Dates

Did you know that the term dates for the academic year are available to view and download from our website?

www.priory.lancs.sch.uk/parents/termdates

Dates for 2024-25 and 2025-26 academic years are available too.

Mon, 5 February

Year 11 Preston College interviews (mop ups)

Weds, 7 February

Year 7 Paris Trip Parent Meeting 4.45pm

Thurs, 8 February

Year 10 Faith Day

Fri, 9 February

Year 11 Faith Day
Year 10 Preston College Engineering Taster Day

W/c 12 February

Half term - School Closed

19 February - 19 March

Year 11 Mock Exams

Mon, 18 March

Year 9 DTP/ACWY Vaccinations

Tues, 26 March

Year 11 Parents Evening (online)

Weds, 27 March

Easter Bingo Evening (Year 7 & Year 8)

Thurs, 28 March

End of Spring Term

Continued from front page...

Lucy continues to explain, "This is about discrimination as a whole, whether it's anti-semitism, islamophobia, homophobia. It's been nice to come to Priory and speak to the pupils who have been fantastic."

Year 9 James said: "I have learnt all about Anne Frank's life and it has been a really interesting experience."

Haniya said: "I wanted to know more about Anne Frank as I think it will help my understanding of the current situation in Gaza. I want to understand both sides of the argument and what has happened to the Jewish people in the past. It's been very educational and I have enjoyed it."

Zach admitted: "I like history so this is why I chose to do this and I have learnt a lot. It's hard to think of, being a similar age to Anne, what she went through and it is upsetting. She died at 15 and really didn't have the chance to experience life at all."

Connor said: "I remember doing the tour in Year 7 and I like history so I wanted to learn more which is why I volunteered to become a Peer Educator."

"I have learnt a lot. It's hard to think what Anne went through when she was so young."

Noah added: "My part of the talk is about Anne being in the annex so I have gone into more depth about this and obviously it was hard. I never knew how she died. I think it can all translate into today's world."

Well done to: James C, Junaid, Q, Harriet H, Anna H, Noah W, Toby H, Connor S, Zach M, Richard J, Evie C, Haniya A, Emily A, Tarela O, Hanah N.

Head Prefects Attend South Ribble Holocaust Memorial Day Service

Last Friday, Humanities teachers Mr Eccles and Mrs Cauchi took two of Priory's Head Prefects to the South Ribble Holocaust Memorial Day event.

Saturday, 27 January marked Holocaust Memorial Day, a day when we stop and remember not just those who died at the hands of the Nazis during World War II but the thousands who have died in genocides since.

Held at the South Ribble Borough Council civic centre in Leyland, Year 11 Cameron and Martha were each asked to do a reading. Martha chose to read an extract from Anne Frank's Diary and Cameron read a poem about the genocide in Rwanda that occurred 30 years ago this year.

The event was attended by officials from across South Ribble including the Mayor and Mayoress.

Lead teacher for History, Mr Eccles, said, "Naturally I was very proud of both of them as this event re-enforces what we teach here in school about the persecution that led to the Holocaust."

During Learning For Life lessons last Friday, a YouTube clip was shown to pupils on behalf of the Humanities department >> www.youtube.com/watch?v=NEcaL1neQ4. The theme this year was 'Fragility is Freedom' and we were all asked to reflect on how freedom is fragile and vulnerable to abuse.

Year 10 Smashed Lancashire Cup First Round

SPORTS REPORT

REPORT BY MISS BEESLEY, PE TEACHER

Priory's Year 10 girls football team began their Lancashire Cup campaign on Thursday. We travelled over to Blackburn where the first-round match was held by St Bede's RC High School.

With a slightly delayed start due to a fire alarm, this didn't deter the girls who were raring to go!

And we didn't take long to get the ball rolling - with Molly scoring our first goal in the first 5 minutes.

A strong Priory defence from Eloise, Olivia and Mia, meant Bede's struggled to get through. This opened the way for more goals from our girls with a fantastic corner goal from Caitlyn, closely followed by another from Mia to make it 3-0 at half time.

A quick team talk, energy boost and the girls were back on it for the second half - Ruby making some fab saves, until Bede's scored, making it 3-1.

This gave Priory more determination to carry on. With Molly again scoring another two goals to make her hat trick!

Alessia not letting a knock to the nose get her down, came back on to score our final goal, smashing it in the back to the net. With a last-minute attempt from Bede's, the overall result was a win for Priory of 7-3!

Miss Beesley said, "The girls showed great determination and resilience during the game and did Priory proud. We will now move onto the second round and await our new competitors."

Top row Eloise G, Olivia S, Ruby E, Mia B, Mia C | Bottom row Molly S, Alessia S, Caitlyn P

Priory Raises Over £500 For Local Hospice

Generous Priory pupils and staff raised £521 for St Catherine's Hospice – and got to wear their favourite clothes in school!

The school held a 'Christmas Jumper Day' and also a 'House Colours Day' and from these two days raised funds for St Catherine's Hospice, which cares for patients and families across Chorley, Preston and South Ribble who are affected by life-shortening conditions like cancer, motor neurone disease and heart failure.

The pupils also had a Learning for Life session learning about the vital work St Catherine's carry out.

Ms Smith, Lead Practitioner for Personal Development, said: "It was informative for the pupils to hear about the work St Catherine's do and understand the charity they were donating to.

"It looked great in the end of term full school assembly to see pupils decked out in their house colours of red, blue, yellow and green!"

St Catherine's Corporate Engagement Officer, Sophie Yaeger, hopes to work more closely with schools and was delighted to visit Priory and collect the cheque.

"It's amazing and every penny does count. We are a local charity and we want to get more schools involved and educate pupils about the work of the hospice. It's lovely to visit Priory and we can't thank everyone enough for raising £521 for us – it truly is appreciated and will make a difference."

*Ms Smith
Lead Practitioner for
Personal Development*

Assistant Head of Maths Mr Sneddon, along with the Maths Department, is running a competition asking pupils to say what they particularly enjoy about their subject.

Pupils were tasked with completing the following sentence, "*I love Maths because...*" and qualifying responses were rewarded with an *I love Maths* badge.

Here's why Year 8 Alfie loves Maths:

Alfie... *because of the specific answers which makes it very simple, this means that there is an exact answer for everything unlike English where everything is abstract.*

Now, It's YOUR Turn... Pupils that want to claim an 'I love Maths' badge should simply click the link below to access the online form and write Mr Sneddon a few sentences or paragraphs explaining why they love maths. The best responses from each year group will be selected and also featured here in our article.

<https://forms.office.com/e/cAKzEBpP1H>

Chilli Challenge Winners

Here are this week's winners who received their chilli token this morning to claim their free breaktime snack from the dining rooms. The Year 8 and Year 10 chillis have gone missing, however, so if you spot them, then please return to Mrs Cowell!

Year 7	Esme C	D3
Year 8	Kenzie S	H6
Year 9	Sehr A	H5
Year 10	Julia K	D3
Year 11	Sam D	Gr6

The leaderboard reflects that we are consistently seeing entries from particular forms. Is your form seen in the winners list? You've got to be in it to win it, as they say!

1st	HODDER
2nd	DOUGLAS
3rd	CALDER
4th	RIBBLE

Don't forget to pick up your next challenge sheet from the post boxes in your dining areas. There are three challenges to complete, each one with an increasing difficulty, and pop your answers in your year group post box.

Mrs Cowell
Vice Principal

Year 10 & 11 Engineering Pupils Enjoy a Careers Day at Leyland Trucks

LEYLAND TRUCKS
A PACCAR COMPANY

With such an iconic business like Leyland Trucks on our doorstep, we couldn't resist the opportunity and accept their invitation to take some of our Year 10 & Year 11 students on a visit to learn more about an automotive engineering business and the apprenticeships on offer for school leavers.

The visit was open to all Key Stage 4 students but it was our engineering students that leapt at the chance to take part. We were lucky enough to secure two slots to visit their manufacturing plant in Leyland over two separate days where pupils enjoyed a factory tour and received an overview of apprentice opportunities available at the company.

As part of the experience, pupils followed a DAF XF model through its various stages of assembly on the production line with commentary from one of the automotive engineers who explained the manufacturing technologies applied. Pupils even got to climb aboard the driver's cab of an XG+ truck!

Technology teacher, Mrs Lockwood, said, "This visit was a great experience for our students studying the NCFE Level 1 and Level 2 Engineering qualification to see a working factory first hand. Some of our pupils aspire to taking on an apprenticeship at Leyland Trucks in the future and have family connections to the factory which made the visit even more special."

British Science Week is a ten-day celebration of science, technology, engineering and maths that will place between 8 - 17 March 2024!

British Science Week 2024 Poster competition is now on! (Years 7-9)

The theme this year is 'Time' and British Science Week want you to design a poster all about it.

Students could create a poster showing how a certain type of technology has changed over time, or even the advancement of time-telling technology itself. Budding poster makers could also go futuristic and show us how they think the world might look in years to come, or perhaps look at nature – lifecycles, lifespans, evolution and hibernation – nature is full of timely topics.

British Science Week 2024 marks its 30th anniversary, with the inaugural celebration happening in 1994. Students could think about scientific innovations since then, or explore 1994 itself – what was life like 30 years ago?

Create your poster on A4 or A3 paper and submit your artwork to Mrs Potter by Weds, 20 March to be entered.

To find out what the judges will be looking for, the rules, and most of all - the prizes! - go to>>

www.britishtimeceweek.org/plan-your-activities/poster-competition/ (please note, you can't enter directly)

Trainers: Donations Plea

The PE department are seeking trainer donations for our pupils.

If anyone has any old trainers they would like to donate then we would be extremely grateful for them. In particular, larger girls sizes between 7-10, we struggle to find the most.

P.E
DEPARTMENT

Any help is appreciated. If you have out-grown trainers with plenty of wear left in them - could we have them for our pupils? Please drop them off at the PE office or parents can leave at reception. Enquiries to Miss Beesley, via email at

a.beesley@priory.lancs.sch.uk

Thank you!

RE Masterclass for Year 10 Pupils

Last Tuesday, the Year 10 GCSE RE class was invited to debate some 'big questions' at Runshaw College's horizon masterclass entitled, 'Freedom & The Existence of God', run by the A Level Religious Studies and Philosophy course leaders.

The masterclasses are designed to provide challenging and thought provoking sessions for pupils who want to extend and stretch their learning whilst exploring different subjects they may want to pursue in their future.

RE Teacher and Head of Year 8, Mrs Ham, took her class of pupils and had a pleasant surprise in store for them when they bumped into one of Priory's former Humanities teachers.

During the half day event pupils examined if human beings truly possess free will. Through the use of both real-life and hypothetical examples, students were encouraged to reflect on the nature of human freedom and to assess whether we can make sense of this idea, as well as considering the implications of our answer to this question. We examined the philosophical arguments for the existence of God.

Lewis A explained, "Firstly, we learnt about philosophy which was very interesting and enlightening. We learnt about creation theories and arguments for the existence of God, which was educational."

Zayd Z added, "We went to Runshaw College to learn a little more about Philosophy and Religious Studies. I enjoyed Philosophy more as it was more exciting."

Others said, "We had a session on philosophy, where we learnt about big questions, 'are you free?' Next, we learnt about arguments for the existence of God. We also got to see Miss Ackers!"

"We had a session about free will with the philosophy teacher. We had a great time and even saw Miss Ackers."

Mrs Elliott's Cool Readers Club

Here's what our Cool Readers Club is all about...

These are our reading stars put forward by their English teacher. We interview them about their current book, what they like reading about and what they like to do when they're not reading.

Introducing, Reese, Georgia and Alexis...

Three Year 8s have been discussing their latest reading adventures as part of our Cool Reader series.

Reese is reading 'A Different Sort of Normal' by Abigail Balfe.

"It's about a girl growing up with autism and it is her different view of life," said Reese. "My favourite author is Rachel Russell who wrote Dork Diaries."

Reese likes Science the best and said: "I want to be a marine biologist in the future, I love turtles!"

Georgia is reading 'Wonder' by RJ Palacio.

"It's about a boy who has a facial disfigurement and keeps getting bullied. It is an interesting book.

"My favourite author is David Walliams as his books make me laugh."

Georgia enjoys PE and said: "I play football for Cadley Under 14s in midfield. My dream is to be a professional footballer like Chloe Kelly."

Alexis is reading 'Talking to Alaska' by Anna Woltz.

"I am a bit confused by it at the moment as I have just started it. It's about a girl who is at school and a dog called Alaska! My favourite novels are horror ones.

"I like Art and Graphic Design in school and I would like to be an artist."

Mrs Elliott English
Teacher and Chief Librarian

Bringing music to your ears at break and lunch

MaBaL (Music at Break and Lunch) is music played through the school's loud speaker system during break and lunch. Chosen by Mr Taylor, Lead Teacher for Music, this is designed to offer exposure to the curriculum in different ways, and support pupils' appreciation of music.

The focus is on one theme each week across a genre, a country or from history. The theme could also link to the season, a festival or an event in school, such as last term's production, Legally Blonde.

Next week it's all about: Love Songs

As it is St Valentine's Day during half term, next week's theme is Love Songs.

The birth of love music, Charles Darwin claimed, was best understood by studying the melodic vocalisations of the animal kingdom, especially those of birds. Just as birds sing to attract the opposite sex, "primeval man, or rather some early progenitor of man, probably first used his voice in producing true musical cadences... This power would have been especially exerted during the courtship of the sexes,—would have expressed various emotions, such as love, jealousy, triumph,—and would have served as a challenge to rivals." Put simply, all songs were originally love songs.

Early human songs of courtship and mating also served, he surmised, as the foundation for language. Not just vocal music but, according to Darwin, even instrumental performances had their roots in the animal kingdom. He called attention to the "drumming to the snipe's tail, the tapping of the woodpecker's beak," perceiving them as the forerunners of our musical rhythms. He heard prototypes for human song in the croaks of frogs and the squeaks of mice.

The lyrics in this playlist reflect such qualities as passion, commitment, care, closeness, protectiveness, attraction, affection, and trust. Equally, these songs show that love can vary in intensity and can change over time. It is associated with a range of positive emotions, including happiness, excitement, life satisfaction, and euphoria, but it can also result in negative emotions such as jealousy and stress.

Clearly the lyrics and mood of such songs don't just reflect the happy side of love, but the ending or losing love and also the pain of unrequited love. Some would say it is one of the most important human emotions. Yet despite being one of the most studied behaviours, it is still the of the least understood.

Future weeks' theme suggestions are welcomed - pupils/staff should see Mr Taylor, email a.taylor@priory.lancs.sch.uk or contact via Teams chat.

Mr Taylor
Lead Teacher of Music

From Primary to Priory: Maths Challenge Day

Last Friday, local primary schools were invited to put their problem solving, logic and teamwork skills to the test as they competed in the inaugural Priory Maths Challenge.

Maths teacher, Mr Evans, who led the event said, "It was a closely fought contest and all of the teams did themselves proud, but the deserving winners were Lostock Hall Primary School."

Special praise goes to our Year 10 student helpers, who assisted with the running of the event:

Sophia T, Kayleigh I, Abbie S, Jane W, Kira S, Emily P

Lost and Found: Are These Yours?

The message seems to be getting through as there's not much so far this half term. If you can identify any items here then pupils should take a look in the lost property box in the Pastoral office.

Lost and found property is located in the Pastoral office with the exception of PE kits which are kept by the PE Department. Please also check with the school office for any items lost that day. Valuables will be stored securely by the Pastoral office (see Mr Shipton) until their owner can be identified.

We do aim to return named items to their owner and so we cannot over-emphasise the importance of marking all property with your child's name, including ties and stationery.

All unclaimed lost property is added to the uniform bank, given to charity or is disposed of after each end of term.

The last day for collection of any of these items is Friday, 9 February.

This week's winner...

Congratulations to 'Mr B'!

By taking part in our lottery, the pupils here at Priory will benefit directly regardless of who wins as every penny raised goes straight back to our school. Tickets are only £1 and there is a guaranteed cash winner for one of our supporters each week plus the chance to win £25,000 in the national jackpot!

Play along! It's easy to get your tickets online - only £1 each.

You can choose to set up a direct debit, a recurring card payment or a one-off payment by card (the minimum term for this is 5 weeks at £5). If you're able to take part, please visit our 'Your School Lottery' page to purchase your tickets >>

Year 7 History Castle Competition Winners Build on Their Learning

Year 7 pupils combined their artistic talents and historical knowledge to build a 3D castle for a History competition to win a History pin badge and house points.

Lead Teacher for History Mr Eccles set the task for pupils to build either a motte and bailey castle or a stone castle, with Eli and Jacob joint winners.

Jacob said: "It took me two days but I had to keep repairing it as bits fell off! I like History so it was good to be involved in this. I was proud to win."

Eli said: "It took me around two days to build it. I spent the first day making it and the second day painting it. I like making things and I like History so it worked for me."

Mr Eccles said: "Eli's and Jacob's castles were excellent but it was fantastic for everyone who made the effort to get involved in the competition.

"It was done in their own time so it is fantastic that they will go the extra mile to take part in these competitions.

"We want pupils to get excited about history and competitions like this bring it to life a bit more."

WHAT IS A MOTTE AND BAILEY CASTLE?

The Normans brought with them new forms of military architecture, among the most important of which was the motte and bailey castle.

The castle consisted of two main components: the motte, an artificial mound with a fortified tower at the top, called a keep, and a bailey, which was an enclosure connected to the motte.
