English (TBAT identify, select, generate and effectively use prepositions for 'where')

Prepositions are words used to describe a place, time or cause. Today we are going to be using prepositions to describe a place (where the animals are in the picture).

beneath

under

in

on

through

behind

Can you write a sentence for each of the animals to describe where they are - try and use some of the prepositions next to the picture. E.g The iguana is **beside** the teacher sat on the table.

Mathematics (TBAT plot data on a pictogram)

Can you use the information in the tally chart to plot your own pictogram below?
