Guidance for Completion

This template is designed to help you to pull together information so that parents of children with Special Educational Needs or Disabilities (SEND) know what support they can expect if their child attends your school/academy.

The SEND Reforms will place a statutory requirement on schools from September 2014 to make information available to parents about how the school supports children and young people with SEN. This information will form the main basis for the school's Local Offer, which has to be published on the school's website. Your website must include the name and contact details of your SENCO and a link to the Local Authority's Local Offer when it becomes available.

The questions in the template are intended as prompts and reflect key issues that parents have told us they would like to know about when deciding which school could best meet their child's needs. You may also wish to consult with your own pupils' parents about what to include in your Local Offer.

In developing your school Local Offer you should be mindful that there is a requirement for a feedback facility to be available as part of the Local Offer and for responses to be given to feedback received.

Please provide a copy of your completed template along with the following completed information by email to IDSS.SENDE reforms@lancashire.gov.uk
