

English

Draw your favourite fairy tale character (remember to choose a traditional character). Then write different adjectives describing the character around your illustration.

Science

We are learning all about materials. Use a variety of materials to create your own junk model – it might be a model of a person, a robot, a sculpture or even a rocket! You choose.

Geography

Research and write five interesting facts about China. You can use the internet, reference books, our class learning or the Rainbow Class learning wall.

Art and Design

Claude Monet made many different landscapes paintings. Using any art material you like (paint, chalk, oil pastels) create your own landscape art work, Google Claude Monet for help.

Rainbow Class Homework Grid Spring Term 1

Computing

Using any sort of camera, take a photograph of anything you like, make sure the image is clear and with no blur. Your picture could be of a special person or a special place.

Mathematics

Shape Hunt – take a trip around your house or your garden and note down the different 2D shapes and 3D shapes you can find. Remember everyday objects are all shapes!

This Homework Grid is NOT optional.

Complete one piece of homework each week and email it by Friday. Complete the challenges in whatever way you like and then email me. PLEASE DO NOT bring any of your homework into school.
