

Spellings – create your own interesting way to help you learn your spellings. Think of an activity we practise in class or make up your own for this weeks set of spellings.

E.g make a set of cards to play snap, create a colourful spelling rainbow, make a board game, choose an outline to write your spellings along (or borrow one from our pack in class)

Mathematics – practise using column subtraction to subtract 3-digit numbers. (Please wait until we have done this in Maths in week two before completing this activity).

Answer the questions on the sheet attached.

Writing – Pretend you are Ottoline from our story we have been reading in English. Write a letter to mum and dad telling them what you and Mr Munroe have been doing. You can use the story or make up your own adventure. Remember to write in first person – I, my, we

Reading – Look at the picture stuck in your homework book. Use your inference skills to answer each question in full sentences. Remember to explain how you know this using evidence from the picture.

Bronze Class Homework Grid Spring Term 1

Reading – Choose a book to read and read it with an adult/sibling. After you have finished reading, choose a character from the book and write 5 questions you would like to ask them. Remember a question needs a question mark!

Mathematics – Partition these 4-digit numbers into thousands, hundreds, tens and ones.

1542 **1233**
1873 **2765**

Choose another 4 numbers of your own to partition.

E.g $1429 = 1000 + 400 + 20 + 9$

One piece of homework must be completed each week (there is no expectation that all 7 pieces will be completed this half term as long as one piece is completed per week). Homework books are to be handed in by **Friday** each week.

Please feel free to email me any questions. dellison@poolhouse.lancs.sch.uk
