

Remember spellings? 😊

Have a look back through your spelling books... what spellings have you written down that you have gotten wrong throughout our time at school?

Throughout the week have a go at practising these spellings and hopefully you will then be confident you know them.

Lockdown safety...

Create a poster or leaflet that includes and explains some of the safety measures we have had to take during lockdown.

Use bright colours and key information (imagine you want someone to spot this when walking along the street).

Choose as many activities to complete in a week as you would like.

Electricity

Can you draw a simple series circuit?

What symbols can you remember that we include when drawing circuits?

E.g. buzzer, lamp, wires...

Silver Class (Y4) Weekly Work Web Week 2 Summer Term Miss Pass

Poetry

Can you remember what a Haiku or Kenning is?

If not use google to remind yourself. Choose either a Haiku or a Kenning and write your own version.

Remember to use the key features of each style of poetry.

Have some fun with fractions...

Remember when we looked at equivalent fractions?

Can you create and draw your own fraction wall, underneath this write some equivalent fractions you can see on the wall you have created.

CHALLENGE – can you work out/remember any further equivalent fractions?

Telling the Time

Throughout the week with your adult practise telling the time on analogue and digital clocks.

Can you say what each time says in words.

CHALLENGE – can you write each time using a digital clock face, analogue clock face and in written words?

Email me some of the work if you would like me to see it – I would love that!
