

### Space Alien

Imagine you have just met an alien. Create your own alien in any way you like. You can draw it, make it or even junk model it. Think carefully about your design – green, three eyes, fifteen legs?

### Space List

Write a big list of things that you would take with you on a space mission. Think about the practical things you might need and the sentimental things you might want.

### Space Diary

Imagine you are an astronaut or space traveller. Write a diary entry about your special day in space. Think about how you got there, what you did there and who was with you.

### Space Planets

Can you draw or write a list of all the planets in our solar system. Watch the video below if you need some help. You can draw all the planets using the right colours or list some facts.

## Year 2 Rainbow Class Work Web Week 3 Summer Term

# SPACE SPECIAL

### Space Spellings

Write exciting sentences with adjectives using these words. You could create your own story.  
**because | space | station | alien  
spaceship | solar system | travel  
astronaut | rocket | comet**

### Space Game

Using your addition and subtraction skills, you are challenged to create your own Mathematics board game. The board game must be related to Space and Mathematics.

COMPLETE ONE A WEEKDAY AND  
EMAIL YOUR WORK TO ME. Email-
