

### **Daily Task – To keep my body fit and healthy**

During the last lockdown you often carried out the fitness videos and sometimes filmed your own. I would like you to carry out these videos once again as I think that exercise is so important – even more so as you should not be leaving the house during isolation. I would like you to follow the link below and carry out a different workout on each of the four days. No evidence is needed of this but if you wish to send evidence then I will be more than happy to look at it:

### **Monday 14<sup>th</sup> June**

#### **English**

##### **To write a report from Snape to Dumbledore**

Read through pages 158-160 of the Chamber of Secrets ebook (link below) to remind yourself of the incident you are writing the report about. Using the information in the text and your knowledge of writing a formal report, write a report of the incident in potions. Remember the type of language that must be used in a report like this one! Make sure you really get into Snape's character too. There is a template in today's attachments to help you organise your thoughts.

### **Tuesday 15<sup>th</sup> June**

#### **English**

##### **To use information from the text to draw the phoenix.**

Today you are going to read pages 176 and 177, where there is a description of the phoenix just before it burns and Dumbledore describes what it looks like most of the time. Using this information, you are to draw 2 pictures of the phoenix; one picture should be what it looks like on burning day and the other should be what it looks like most of the time. Have fun with it but make sure you use information from the text!

### **Daily Task – To create a 'Survival Guide' for Year 6**

You are now coming to the end of Year 6 and each and every single one of you knows how to have a successful final year at Pool House Primary. I would like you to create a 'Survival Guide' for Year 6 for the current Year 5 class with a few key bullet points about how to have a great time in Year 6. Make sure you consider and mention the curriculum, the staff, expectations etc

#### **Mathematics**

##### **To use simple formulae**

Today, you must practice using simple formulae. This is just a continuation of what we began on Friday! Use your knowledge of everything we've looked at so far to complete the questions on today's attachment.

Remember – if the letter is directly next to the number, you must multiply! For example,  $6a = 6 \times a$

Some of the questions are what we began on Friday, but there is a challenge further down if you're up for it!

#### **Computing**

##### **To create a Pool House Prospectus**

Using Microsoft Publisher, create your own Prospectus for Pool House. A prospectus is a document that advertises a school to potential new parents/children. Think about your time at Pool House and note down some of your favourite things you have done. (Nativity, KS2 Production, trips you have been on, themed days, members of staff, sporting events, etc). Once you have made your list, begin making your prospectus. You may design this however you like but it must be both informative and eye-catching!

#### **Mathematics**

##### **To solve one-step equations**

Today, you're going to use your skills of using formulae to have a go at solving one-step equations. Watch the Youtube video linked – it explains a super simple way to solve one-step equations. There will be some questions on today's attachments, just try your best with them! If you're up for applying your knowledge to some word problems, there's a couple of challenges too.

<https://www.youtube.com/watch?v=v3b6esP88gc>

#### **Music**

##### **To research the works of John Williams**

Watch the clip below of John Williams conducting his Orchestra who are playing his famous Jurassic Park theme that we listened to in class. Research more of John Williams famous themes (you may remember them from our discussion in class) and make a list of what you believe are his ten most famous piece of music from movies. Ensure that you listen to each of the pieces of music once you have made your list too!

## Wednesday 16th June

### English

#### To write Hermione's diary entry for the day

Today you will be getting into character as Hermione and writing a diary entry of the day she gets out of the hospital. Read pages 198-200 to get some ideas from the text. Write down 3 things that happened when Hermione got out of the hospital. Remember that a diary can be used to write down thoughts and feelings too. Think about how Hermione must have been feeling.

<http://www.passuneb.com/elibrary/ebooks/Harry%20Potter%20and%20The%20Chamber%20of%20Secrets.pdf>

### Mathematics

#### To solve two-step equations

Hopefully you're feeling fairly confident solving one-step equations after yesterday's task. Today you are going to move on and try to solve some two-step equations. To help you out, there is another YouTube video linked which gives a really simple explanation on how to achieve this. Once you've watched the video, try the questions on today's attachment. Again, there is a challenge for those of you who feel more confident.

<https://www.youtube.com/watch?v=pW8IbYIUH0s>

### Art

#### To create my own Graffiti Art

Read through the information given on the attachments to give yourself an understanding of what I meant by Graffiti Art. For those of you who are in our school production, I would like you to use the resources given to create your name on the 'Graffiti Wall' provided in a design of your choice. If you are not in the school production then you may create a design of your choice on the 'Graffiti Wall'.

## Thursday 17th June

### English

#### To create an information sheet about the Basilisk

Read pages 247 and 248 where you will find some description of the Basilisk. Your task will be to create an information sheet on the Basilisk. Using the text, include a description of the creature, what it is and how to avoid being killed by it. Feel free to add in a drawing too!

<http://www.passuneb.com/elibrary/ebooks/Harry%20Potter%20and%20The%20Chamber%20of%20Secrets.pdf>

### Mathematics

#### To use algebra skills learnt so far to answer SATs style questions

Using what you have learnt so far in Algebra, you are to answer some SATs style questions today. This is just revision of what we have covered so far before we move onto anything more tricky! There are questions on today's attachment – just try your best and do what you can, some questions are trickier than others. Remember, you can still access video links from this week too to help you! This is not a test, I just want to see you practice and applying your skills.

### PSHCE

#### To carry out 'First Aid' research

In preparation for your First Aid Training next week, today I would like you to carry out some research into the Recovery Position. I would like you to find out why we might need to use the recovery position and then develop a step-by-step guide about what you need to do as part of the Recovery Position. Next week we will carry out the Recovery Position safely in class as part of your training.

**Please email all work completed during Isolation to Mr Blackburn on the following email: [mblackburn@poolhouse.lancs.sch.uk](mailto:mblackburn@poolhouse.lancs.sch.uk)**

**Please feel free to contact me with any questions, queries or concerns that you may have with any of the tasks. Staff safe during isolation and I hope to see you back at school soon!**
