

Think about what makes you special and unique. Create a picture/poster which celebrates how special you are and recognises how you are different from others.

Include your appearance, your interests and your personality!

Choose an animal and research their life cycle. Can you draw and label the stages in their life cycle e.g a frog, chicken, butterfly

Complete a random act of kindness (think back to some things we did in class!) You could help tidy your room, read a story to a sibling, pay someone in your house a compliment.

Search 'Draw with Rob' on YouTube and choose an illustration you would like to have a go at drawing. Rob is a children's book illustrator. Can you create your own illustrated character for a book and send me a picture?

Find some coins around your house. Can you add the coins together to find the total? Can you put the coins in order from smallest value to largest value. What items could you buy using this amount?

If you could visit one planet (not including Earth) which would it be and why? Can you find out any interesting facts about this planet? E.g Did you know that Saturn has 82 moons?

Bronze Class Work Web 3

Your challenge is to complete 1 piece of work each day (Monday-Friday). You can email some evidence to me if you would like me to see what you have been doing too!
I would love to hear from you all.
