

Create your own musical instrument. You could use an empty plastic bottle filled with rice, make a drum using an empty tub - get creative! Can you compose a song?

Interview a family member. Write a list of questions you'd like to ask them and see if you can find out anything you didn't already know. You might write their answers, type them or maybe even record it as a video.

Make your own maths board game. It could practise your times tables, adding, money facts etc. It could be in the form of snakes and ladders, top trumps or snap.

Create a timetable of your day including what times you wake up, eat breakfast, play outside etc. Can you draw a clock to show the analogue time next to each activity?

Bronze Class Work Web 5

https://youtu.be/GC_mV1IpjWA

Watch the video clip of 'Under the Sea' from The Little Mermaid and create your own underwater sea creature. You could research and copy one that already exists (e.g a seahorse) or create your own.

Collect natural materials from outside and create your own nature picture. Email me a picture and I will guess what you have made.

Your challenge is to complete 1 piece of work each day (Monday-Friday). You can email some evidence to me if you would like me to see what you have been doing too! I would love to hear from you all.
