

Moonbeam Class

Summer term – Work web

Make a watch to wear on your wrist and practise telling the time, for o'clock and half past the hour. Can you find where the minute hand would go for quarter past the hour?

Create or draw your dream playground. Think about the type of equipment you would want there and please use labels and captions, to include details of your ideas.

Complete obb and bob activities on Phonics play, "Picnic on Pluto". (Remember which phase you used in School and if you can't remember or are unsure, please email me and I'll be happy to help.)

Week 1

Find 10 things in your house to measure. If you don't have a ruler or a tape measure, you can measure the objects by using your feet or hands. E.g. A book could be the length of two hands. Write down the length for each item and identify the largest and smallest. Can you order them from smallest to largest or largest to smallest?

Write a recount about your favourite or most special day during lockdown. Remember to include finger spaces, capital letters at the beginning of sentences, after full stops and for people's names, punctuation, adjectives, time connectives and conjunctions.

Watch the music video "Move it move it" from Madagascar, with an adult, and identify five of the animals in the video. Research those animals and write two facts about each of them. You can present the information in any way you choose.
