

# Moonbeam Class

## Summer term – Work web

Create your own snakes and ladders! This will include you starting off by making your own 100 square. Remember to write and order your numbers accurately. Then play the game with your family.

Make a reading den and read your favourite 3 books in there to a family member. Don't forget to send me pictures so I can see your dens or videos to listen to you read.

### Week 3

Design a meal or dessert you would like to make for your family. Then make it with the help and guidance of an adult. It could be a tower of pancakes for breakfast, a scrumptious chocolate cake, a fruity smoothie or rainbow spaghetti for your tea. Be imaginative and enjoy! Remember to listen to your adults instructions and be safe in the kitchen.

I am missing our Friday afternoon dance and rave time. Create your own dance routine to your favourite song and teach it to your family or friends, either in person or over face time. Email me a video of your routine and I will learn it too.

Make a list of wildlife that you can see from your window, in your garden or on a walk. Describe what they are doing when you see them. It could be a bird digging a worm out of the grass or a snail making a slimy trail along the path.

Keep a diary of this weeks weather. Include the weather symbols we learnt about in class. Write about the temperature, what the sky looks like, how it makes you feel or what you can/can't do due to the weather.

**Choose one of the activities from the web to complete each day, (Monday to Friday) and send any photos or videos of your completed tasks to my email. I will also be happy to answer any questions you may have, regarding these tasks. I can't wait to see how you get on! [swilson@poolhouse.lancs.sch.uk](mailto:swilson@poolhouse.lancs.sch.uk)**
