

# Moonbeam Class

## Summer term – Work web

Create a musical instrument out of junk materials you can find at home. Try playing a song on it and send a video for me to enjoy some music.

Find 10 adjectives in a book of your choice. Choose 5 to use in 5 different sentences. E.g. Juicy – I saw a juicy worm wriggle into the dirty mud.

### Week 4

Design, draw or create your own zoo. Think about all the areas you can visit in a zoo and which animals will be there. If you want, you could also design your own animals for your zoo, such as a girafingo – a giraffe and a flamingo, or a duckhorse – a duck and a horse.

Make a recipe for a magic potion, including ingredients and instructions. If possible you could make your magic potion at home using flowers, mud, sparkles or worms. Think about what you want the magic to do, such as turn someone's hair green, make people happy or laugh uncontrollably.

Practice doubling numbers on hit the button. Can you double numbers beyond 20?

<https://www.topmarks.co.uk/maths-games/hit-the-button>

Using a dice or a random number generator online, find one more and one less than that given number. Challenge – Can you find 10 more and 10 less than a given number? E.g. 8 – 1 more = 9, 1 less = 7

**Choose one of the activities from the web to complete each day, (Monday to Friday) and send any photos or videos of your completed tasks to my email. I will also be happy to answer any questions you may have, regarding these tasks. I can't wait to see how you get on! [swilson@poolhouse.lancs.sch.uk](mailto:swilson@poolhouse.lancs.sch.uk)**
