

Talk about food.

Can you draw a plate with healthy food on it and a plate with unhealthy food on it?

Why is food healthy or unhealthy?

What is your favourite food?

Where does food come from? Think of 5 foods which grow underground, 3 foods which grow on a bush and foods which grow on a tree.

Maybe you could look at how to grow your own fruit or vegetables.

Watch one of the stories on the learning wall. Can you draw your favourite character from that story and make up a new adventure with that character in it.

Sunshine Class

Home Learning Grid

Write the numbers 1-20 on separate pieces of paper, can you find the right number of objects to match each number.

Can you ask a grown up to hide a number and see if you know which one is missing,

Can you ask a grown up to mix the numbers up and you can put them back in the right order.

Practise writing any of these numbers you struggle with.

Watch the Jolly Phonics songs on our learning wall, sing the songs. Pause the video after every song and write the sound down carefully. Remember how to old your pen. Can you also write a word that starts with that sound or draw a picture of something that starts with that sound.
