Guest Speaker: Hywel Roberts

Top creative teacher Hywel Roberts approaches classroom strategies that really do switch on all young children to learn, to think, to participate, to take responsibility and to enjoy the whole wonderful process.

From basic but great classroom pedagogy to developing a 'blended brave curriculum' to teacher coaching, leadership development and mentoring (also including TA, AST, NQT development and cover supervisor training) to wonderfully innovative and life-changing strategies such as 'Mantle of the Expert', Hywel covers – and practices - a whole variety of approaches that make learning real for young people and delivers his work with an energy and a humour that is quite, quite infectious.
