

### Year 11 - History

<b>Curriculum intent</b>	<p>Knowledge of history is key to understanding the world around us and our place within it. Historical skills provide people with the ability to interpret and challenge the information around us.</p> <p>In year 11 learners will complete both their period study on Superpower Relations and the Cold War 1941-1991 and their British Depth Study on Early Elizabethan England. Both of these units will build on the skills already developed in the first year such as causation, consequence, significance and reaching a judgement. It will also give learners a detailed view of both a period of history that has shaped the modern world and also a significant period of British history.</p> <p>Through their completion of the Cold War topic as well as the final depth study of Elizabethan England they will have a full rounded understanding of the topics – but also understanding of the wider themes in History. Learners will be equipped to apply their knowledge to the varied skills needed in the exams. In addition their studies throughout History will leave them with an ability and desire to challenge opinions, use evidence effectively and reach independent conclusions in their wider life after school.</p>
