Our Curriculum Goals

Dear Families,

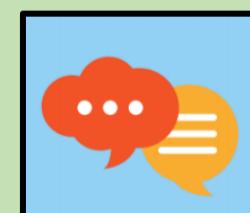

During your child's time in Pre-school, we will be working to help them develop the necessary skills, knowledge & vocabulary they need to be ready for their next steps in education. We need your help, ensuring your child attends the setting consistently, so that remain on track and continue to progress on their learning journey. Help us by supporting your child's independence, providing experiences and opportunities to practise these skills at home and help your child along the Road to School Readiness.

Thank you for your support.
