Mr Osborne's News

Welcome to Issue 639 of the Revoe Reporter!

It has been a very exciting week for our children who have attended Water Park! They have conquered their fears and pushed themselves to try activities that they will not have had the opportunity to try before. From gill scrambling, to sailing, hiking and climbing, they have all grown in confidence and had a brilliant time. Thank you to all of the staff who have given up their time to provide the children with memories, which will last a lifetime.

Year 2 have been taking their key stage 1 tests this week. We are extremely proud of all the children and how they have performed. Thank you again, to all the staff who have supported them through this process.

Next week is Health, Fitness and Wellbeing week, where the children will have chance to take part in lots of different activities and learn how to stay safe as well as look after their mental health and wellbeing. Since there are a lot of PE activities, the children can come to school in their PE kits everyday. Please be mindful of the weather as there are set to be a couple of very warm days- please make sure that the children are wearing sun cream and suitable PE kits. Have a safe and restful weekend.

Dates for the Diary

WB 23/06: Health & Fitness Week

30/06/2025: Reception - Year 6 Sports Day

Thursday 3rd July: Y6 / Y7 Transition Day

Friday 18th July: RLA Closes

Wednesday 3rd September: RLA Opens

Y5 / Y6 Waterpark - June 2025

Learning at RLA!

Reception

This week, Reception began a new topic focused on animals. We explored which pets we could have and discussed how to take care of them. We even had a special visit from Poppy, our school dog! The children also had the chance to interact with the ducklings from the Nursery. In maths, the students learned how to rotate shapes to create different images.

Year 1

This week in PE, Year 1 have thoroughly enjoyed learning all about striking skills with Blackpool Football Club! The children started by using their hands to practise control, coordination, and timing. Once they built confidence, we progressed to using rackets—putting those skills into action in a fun and exciting way! It's been brilliant to see their enthusiasm and teamwork this week!

Year 2

🇬🇧🌟 Year 2 SATs – What Superstars! 🌟🇬🇧

This week, our amazing Year 2 children have been working so hard on their SATs. Each and every one of them has shown such determination, resilience, and positivity. Whether it was reading, writing, or maths, they approached every challenge with courage and a smile.

We're incredibly proud of all the children – not just for their SATs results, but for the positive attitude and care they've shown throughout their learning.

Thank you to all the parents and carers for your continued support. Your encouragement at home makes a big difference.

Well done, Year 2 – you're all superstars! 🌈🌟🎉

Year 3

What a fantastic week it's been in Year 3! We are incredibly proud of how our children have approached their Reading, Maths, and Punctuation assessments with focus, determination, and a positive attitude. Their hard work truly shone through! In Science, our budding botanists explored the importance of leaves and carried out an exciting experiment—ask your child what they hypothesised and what they discovered! In RE, we've been learning about Sikhism and the significance of the 5 K's—see if your child can name them all! It's been a week full of learning, curiosity, and achievement.

Let's see what our children have been getting up to...

Year 4

In Art, we have been looking at sculptures of festival food, different artists and their creations. This week and last, we have been using clay to sculpt our own foods! Also, it has been a busy week as Year 4 have completed their MTC (Multiplication tables check) tests. They have put in so much hard work over the year towards this and done fantastically! We couldn't be any prouder of them!

Year 5

Year 5 have been working hard this week to master lots of new skills. In Maths, we have been learning about equivalent fractions and how our times table knowledge is so important. Ask us if we would like to eat $\frac{1}{4}$ of a pizza or $\frac{2}{8}$ of a pizza! In English, we have been looking at narratives and how the opening of a story is so important to hook the reader. We have been reading and writing interesting dialogue openers. We hope to share some of our writing soon! Finally, we finished making our rainforest dioramas in art. Don't they look amazing!

Learning Garden 1 & 2

This week, Learning Garden 1 class has been buzzing with creativity during our art focus week, inspired by the timeless story of The Ugly Duckling. Following the magical experience of watching ducklings hatch in the nursery last week, the children have explored the duckling's life cycle through three unique art projects. Using a range of materials such as paint, feathers glue, and more, each child created beautiful artwork reflecting different stages of the duckling's transformation. From fluffy yellow hatchlings to graceful swans, the children expressed their understanding and imagination with colour and texture.

In Learning Garden 2, we have been working on our self-esteem. We all chose 2 friends and said what we like about them. We then used symbols and words to make sentences and read them out in front of the whole class. We enjoyed hearing how much we like and respect each other.

Nursery

Our Nursery scientists have had lots of lovely hands-on experiences over the last two weeks. We had deliveries of eggs and caterpillars on our first day back after half-term and have had a wonderful time watching them change and grow.

Our caterpillars have grown lots and are starting to spin their cocoons.

Ducklings hatched from our eggs and we have loved watching them waddle, swim and play. We acted out the song of 'Five Little Ducks' to support our Maths learning, and had lots of discussions about how the ducklings were growing and how they all looked different.

RLA Attendance

Congratulations to all children who have arrived every day on time this week!! You are all Attendance Heroes!!!

Remember, there are still lots of rewards and prizes to be won for fantastic attendance and everybody still has time to improve before the end of the year. All children who arrive to school on time each day will be entered into the weekly prize draw. All children who achieve over 95% attendance for this half term will be awarded the last attendance award badge for this year!!

Also, we will be holding our famous, fabulous annual attendance party for children who have had amazing attendance this year. Keep a look out for more information coming soon!!

Revoe Learning Academy

We would like to extend a heartfelt thank you to Spencer Clarke Group for their generous donation of sweet treats! These will be enjoyed by our students at upcoming Attendance celebrations and other school events.

HAPPY WEEKEND

STARS OF THE WEEK

RCR: Iosua B
RLM: Iosua A
1MK: Luca C
1RW/LD: Andreia D
2BP: Everyone!
2KF: Everyone!
3TC: Aiden K
3JC: Amy H

4JK: Anastasia L
4EG: Avram R
5NP: Deona J
5AC: Ilin T
Y6: David M
LG 1: Noah P

WELL DONE SUPERSTARS!
