Mr Osborne's News

Welcome to Issue 645 of the Revoe Reporter!

It has been a very busy week at RLA this week! The children have been working incredibly hard, impressing their teachers and showing great ambition to get it right. We have been focussing on making sure our presentation is perfect and that we are taking pride in the work we have completed.

Year 6 attended an author event at Gateway Primary academy to meet Alexander Armstrong, who wrote the book, *Evenfall: The Golden Linnet*. The children had a brilliant time. Thank you to all of the staff who supported the visit and especially Mrs. Haley, who came along to help. We have many more visits planned this year, keep a look out for more information.

Over the next couple of weeks, we will be running 'Meet the Teacher' sessions in school so that we can provide parents and carers with lots of useful information about the year ahead. It would be useful if you could all attend so that we can share these messages with you. Further details will be shared next week.

As you will be aware, the weather has been rather wet! Please do ensure that your child has a suitable coat for school. Fingers- crossed, we hope for a lovely sunny weekend ahead.

Dates for the Diary

26/ 09/ 25- European Day of Languages
26/09/25- Individual and Sibling Photographs
02/10/25- Poetry Day
10/10/25- World Mental Health Day
20/10/25- Recycling and Careers Week
20/10/25- Diwali

Value of the Week

Ambition!

Our value of the week has been ambition. In assembly, we talked about what this means and what it takes to achieve your goals. Please talk to your child at home about their big ambitions for the future! Anything is possible!

Meet our Prefects

On Monday, we introduced our new Year 6 prefects and presented them with their badges. Prefects were selected, following an application and interview process. Congratulations to you all: Maryem, Freya, Zain, Brandon, Charlotte, Summer, Shyna and Dua, we are very proud of you!

STARS OF THE WEEK

RCR: N/A

RLM: N/A

1MK: Mouad M

1RW/LD: Zaheera Z

2BP: Sofia C

2JC: Ismail S

3TC: Aaron T

3NP: Luis P

4JK: Michael J

4EG: Darcy B

5AH: Skylar-Blue R

5FS: Daisy D

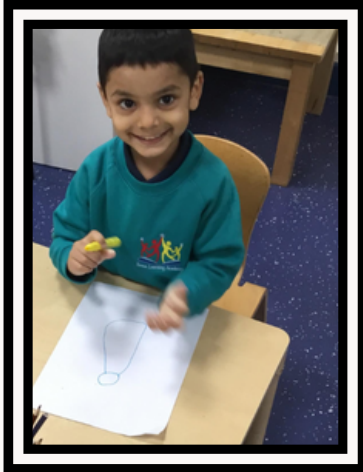

6AC: Deacon H

6SH: Deona J

LG 1: Noah P

WELL DONE SUPERSTARS!

Learning at RLA!

Reception

It's been lovely to welcome the children back — they've settled in beautifully and are already showing our school value of ambition in their learning. We've been especially impressed with how carefully they're presenting their work in their brand-new books! This week, our budding scientists have been exploring life cycles, thinking about how humans change from babies to adults — do ask them what they've discovered! Meanwhile, our young geographers have been investigating aerial maps of Blackpool, identifying both human and physical features in our local area. We're really excited for the year ahead and all the wonderful learning to come!

Year 1

This week in Year 1, the children have learnt all about the creation story during RE! Together in small groups, they sequenced the story and shared thoughtful discussions about what Christians believe the creator might be like. The children showed incredible curiosity and imagination as they explored what Christians believe. 'Christians believe that God created the world and everything in it.'

Year 2

It's been lovely to welcome the children back — they've settled in beautifully and are already showing our school value of ambition in their learning. We've been especially impressed with how carefully they're presenting their work in their brand-new books! This week, our budding scientists have been exploring life cycles, thinking about how humans change from babies to adults — do ask them what they've discovered! Meanwhile, our young geographers have been investigating aerial maps of Blackpool, identifying both human and physical features in our local area. We're really excited for the year ahead and all the wonderful learning to come!

Year 3

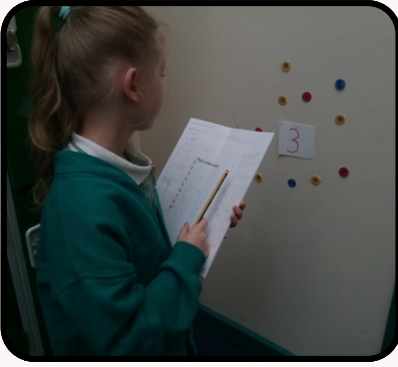

Year 3 have been settling well into the new school year and we are very proud of them. We have started reading our class novel and we have been kept very entertained by Paddington. Ask us to tell you all about Paddington's misadventures - he has many! As scientists have been learning about rocks and we now understand why our houses are made of bricks. As historians we have started learning about the Stone Age and just how long ago it was. Ask us just how different life looked back then - we were very shocked to hear that there were no buildings and no shops and the people had to find and make their own food.

Let's see what our children have been getting up to...

Year 4

Year four have made a fantastic start to this academic year. They have settled in well and are following our Revoe rules nicely. Our year four scientists are having lots of fun learning about electricity this term. This week, they made circuits that lit up bulbs. They all agreed, it was a very engaging lesson and learnt lots of scientific vocabulary. Our year for mathematicians are learning about place value this term. They are now learning up to four digit numbers and they all took part in a number hunt.

Year 5

Year 5 have worked really hard at trying to impress their new teachers this week! In English, they have been securing their knowledge of different types of nouns, and in maths they have started to look at number lines. We have started new topics in science and have tested the properties of different materials this week. All the children are already enjoying their new class novel 'The Boy at the Back of the Class'; ask the children to tell you all about it!

Year 6

Well, what a start to Year 6 we have had! We spent our first week meeting with a real-life celebrity - Alexander Armstrong. Many of our children will know him as the narrator for the hit CBeebies show "Hey Duggee". Us adults know him as the host of the BBC One game show Pointless, and his weekday morning-show presenter on Classic FM.

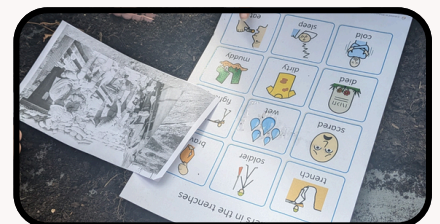

He especially invited us to an "Interview and Meet the Author Session" where Year 6 shared their love of reading and writing with him. He introduced his new novel with the children and gifted individual copies to each of our children to read as a class novel. The children enjoyed being invited to share their ideas for his sequel book - Alexander spent time inviting them to share thoughts for future characters. Maybe one of their ideas will feature in his next novel. Here is to many more Year 6 2025 experiences and adventures,

Learning Garden 1 & 2

This week in LG2 we have begun our topic on WW1. We have been learning about how men and women's lives changed during the war and how trenches were used. We have used our communication boards to support us retelling what we have been learning. We can't wait to find out even more next week!

The children in Learning Garden 1 have had a lovely week exploring with all the different exciting activities. They have really enjoyed playing with the bubbles trying to catch and pop them.

Nursery

We are so proud of our returning children and new starters at Nursery. They have settled well, joining in with routines, singing and story times. The children are starting to make new friends and are eager to explore our environment, both indoors and outdoors. They are showing curiosity in new experiences and enjoying exploring the wealth of play opportunities available.

RLA Attendance

Thank you to everyone who has arrived at school every day, on time!! You have all made a fantastic start to the year - keep up the good work!!!

We are looking forward to celebrating excellent attendance in Monday's assembly when we will be continuing with attendance prize draws.

Remember, all children who arrive to school every day, on time are entered into the draw and have the chance of winning an amazing prize!!

Polite reminder - as we approach Autumn and the weather is changing, please make sure you are well prepared to come to school when the weather is bad. Children should wear suitable coats and shoes, and it is a good idea to allow extra time for your journey.

Open Days

YEAR 7 OPEN EVENING

FOR PROSPECTIVE YEAR 7 PUPILS SEPTEMBER 2026

DISCOVER LIFE AT ST GEORGE'S

Are you a Year 6 pupil or parent preparing for the next step in education? Join us for our Open Evening to explore our facilities, meet our teachers and pupils, and hear from our Headteacher about what makes St George's a distinctive and high-achieving academy.

DATE & TIME

Thursday, 25th September 2025
4.15 - 7.00pm
Cherry Tree Road, Blackpool, FY4 4PH
