Mr Osborne's News

Welcome to this week's Revoe Reporter!

Attendance has remained similar to last week and I would like to thank all of our families for their continued support in ensuring children attend school every day. We know that mornings can sometimes be a rush but a gentle reminder that attendance and punctuality really do matter. Every day in school counts and arriving on time helps children start the day positively and make the most of every learning opportunity.

It has been another fantastic week at Revoe Learning Academy. Children have returned to their Read Write Inc. groups and have settled back into their routines brilliantly. It has been wonderful to see their confidence, enthusiasm and love of learning shining through.

One of the highlights of the week was a very special trip for some of our Year 6 pupils, who attended the Stanley Park Centenary Celebrations. The children were incredibly excited to be part of such an important event marking 100 years of one of Blackpool's most treasured landmarks. The day became even more memorable when Prince Edward, The Duke of Edinburgh, arrived to unveil a commemorative plaque. A number of our children were lucky enough to meet His Royal Highness after he landed by helicopter, creating memories they will undoubtedly talk about for years to come. They were a real credit to our school and represented Revoe with pride throughout the afternoon. A huge thank you to Mrs Bond, Miss Hawkard and Mr Barnes for accompanying the children and helping to make this wonderful experience possible.

At Revoe, we are incredibly proud of the many opportunities, visits, sporting events and enrichment experiences we offer our children throughout the year. Some of you will already have received letters about upcoming trips and sporting events, with many more exciting opportunities still to come. These experiences help children discover new interests, build confidence and create lifelong memories. One of the best reasons to be in school every day is that you never know what exciting opportunity might be waiting just around the corner!

Finally, today is a particularly emotional day as we say goodbye to Mr Barnes. Many of you may not know that Mr Barnes was once a pupil at Revoe Learning Academy himself before returning years later as a member of staff. Over the last few years, he has been the friendly face at the front desk, welcoming families, supporting children and helping colleagues. He will be very much missed by staff, children and families alike.

As with all of our leavers, however, Mr Barnes will always remain part of our RLA family.

Tomorrow, he begins an exciting new chapter as he heads off to university. His journey is a wonderful reminder to the children that with hard work, determination, resilience and a sprinkle of tenacity, anything is possible. The world really is your oyster.

Good luck, Mr Barnes. Thank you for everything you have done for our school community. We are incredibly proud of you and cannot wait to hear about all of your future successes. Just make sure you come back and visit us soon! 😊

Dates for the Diary

2026

Friday 25th September - Individual & Family Photo Day

Thursday 1st October - Year 6 Abbeystead Trip

Thursday 1st October - National Poetry Day

Thursday 15th October - Year 5 Grand Theatre Trip

Learning at RLA!

Reception

Reception have settled into life at Revoe wonderfully and should be incredibly proud of all they have achieved so far. They have formed new friendships, built their confidence, and quickly adapted to our school routines. In Maths, we have been learning about matching and exploring the concepts of more and less. In Phonics, the children have learned their first five sounds and have been practising how to form the corresponding letters correctly. In Art, the children created self-portraits using a mirror to help them spot which features they needed to paint. Well done, Reception! We are so proud of your fantastic start to the school year.

Year 1

We have been very busy learning all about 'Room on the Broom' this week!

The children have had lots of fun making their own magical potions and wands and have been busy acting out the story in groups, using props. They have loved becoming the different characters and bringing the story to life!

We have also been putting our phonics skills and Fred Fingers to good use by writing about what we put inside our potions. The children worked so hard to sound out their words and write their ideas independently.

Year 2

Year 2 have settled in fabulously and have made a fantastic start to the new school year! Our mathematicians have been busy using a range of practical resources to strengthen their understanding of numbers up to 100. Meanwhile, our young scientists have been learning all about the human body. Ask your child what our heart, lungs and brain do – they have lots of exciting facts to share! 🧠❤️🫁📖

Year 3

Year 3 have settled brilliantly into the new school year and we are very proud of how quickly they have adapted to new routines and expectations. They have shown fantastic resilience when tackling new challenges and are taking great pride in their work, particularly in handwriting. It has been wonderful to see the care and effort they are putting into presenting their work beautifully.

This half term, Year 3 have also started ballet sessions. For many children, this is a completely new experience, but they have approached it with enthusiasm and confidence. They have been learning different ballet positions and balances and have worked hard to develop their skills each week. Ask your child to show you what they have been learning at home. We have been especially impressed by the confidence many children are beginning to show, with a few even helping to lead parts of the lesson.

We are excited for all the learning and opportunities that lie ahead and look forward to seeing the children continue to grow in confidence throughout the year.

Let's see what our children have been getting up to...

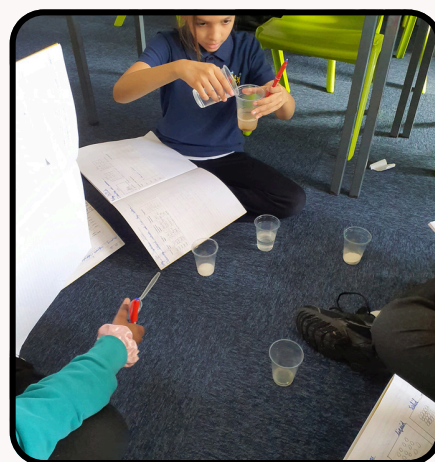

Year 4

What an amazing start our year 4s have made. The teachers have been blown away at how the children in year 4 have settled in, followed our rules and at their great attitude to learning! They have all started to make progress in swimming and some have already been promoted to the big pool and no longer need armbands! This week our clever year 4 scientists have been investigating how to make circuits work and explaining carefully about how to fix ones that are broken. This week we have also had a Times Tables Rocks tournament against Devonshire Academy. Some of the children have become so fast at their times tables already and some children have gone green yet again. Keep up the hard work year 4!

Year 5

This week, Year 5 have been investigating whether materials are solvable or insoluble. As a group they were tasked with testing salt, sugar, flour, sand and oil to see if they would dissolve in water. The children worked collaboratively and demonstrated excellent observation skills. From this, the children investigated why this happens. They have learnt that dissolve doesn't mean disappear and learnt that they created new solutions. The children were able to make links to solutions they see every day for example, salty seawater, sugary cups of tea and their personal favourite, milkshakes! Excellent investigating, Year 5!

Year 6

Since returning in September, Year 6 pupils have been developing their gymnastics skills through a range of exciting sequences.

They have practised different holds and balances, including challenging partner work that requires trust, communication and teamwork. This week, the children have begun rehearsing their routines to music, helping them improve their timing and performance skills.

Throughout the sessions, pupils have shown determination, creativity and resilience as they refine their movements and support one another. The class has thoroughly enjoyed working together and is looking forward to showcasing their impressive routines in the coming weeks.

Learning at RLA!

Learning Garden 1

LG1 have been having lots of fun exploring our outdoor area this week!

The children enjoyed spending time with their friends, taking turns, sharing resources, and engaging in a range of exciting activities. They loved running, climbing, exploring, and discovering new ways to play together. We have seen fantastic communication, teamwork, and confidence as the children interacted with their peers and adults.

Outdoor learning provides wonderful opportunities to develop physical skills, social skills, and independence while having fun. It has been lovely to see so many smiles, laughter, and positive friendships growing as the children learn and play together outside. 🌞🌳😊

Learning Garden 2

This week in art we have been exploring different media create marks on our pictures. We shared our resources worked as a team we can't wait to see the results when they are dry

This artwork is for our exciting topic of Harvest that we are learning all about at the moment

Revoe Learning Academy

Today, a group of our Y6 children had the incredible opportunity to attend a very special VIP event at Stanley Park as part of the park's centenary celebrations.

And what an experience it was! 😊

Our children got to meet His Royal Highness The Duke of Edinburgh, as well as lots of other VIPs and police officers. They also had the pleasure of meeting and speaking to the Mayor and Mayoress of Blackpool.

The children proudly represented Revoe, waving their Union flags and soaking up the atmosphere of such a unique occasion. 🇬🇧

It isn't every day that you get to meet royalty, local dignitaries, MPs and so many other important guests all in one afternoon!

RLA Attendance

Weekly Class Attendance

RLM - 98.1%

Learning Garden KS1 - 97.8%
