

It's just what they always wanted

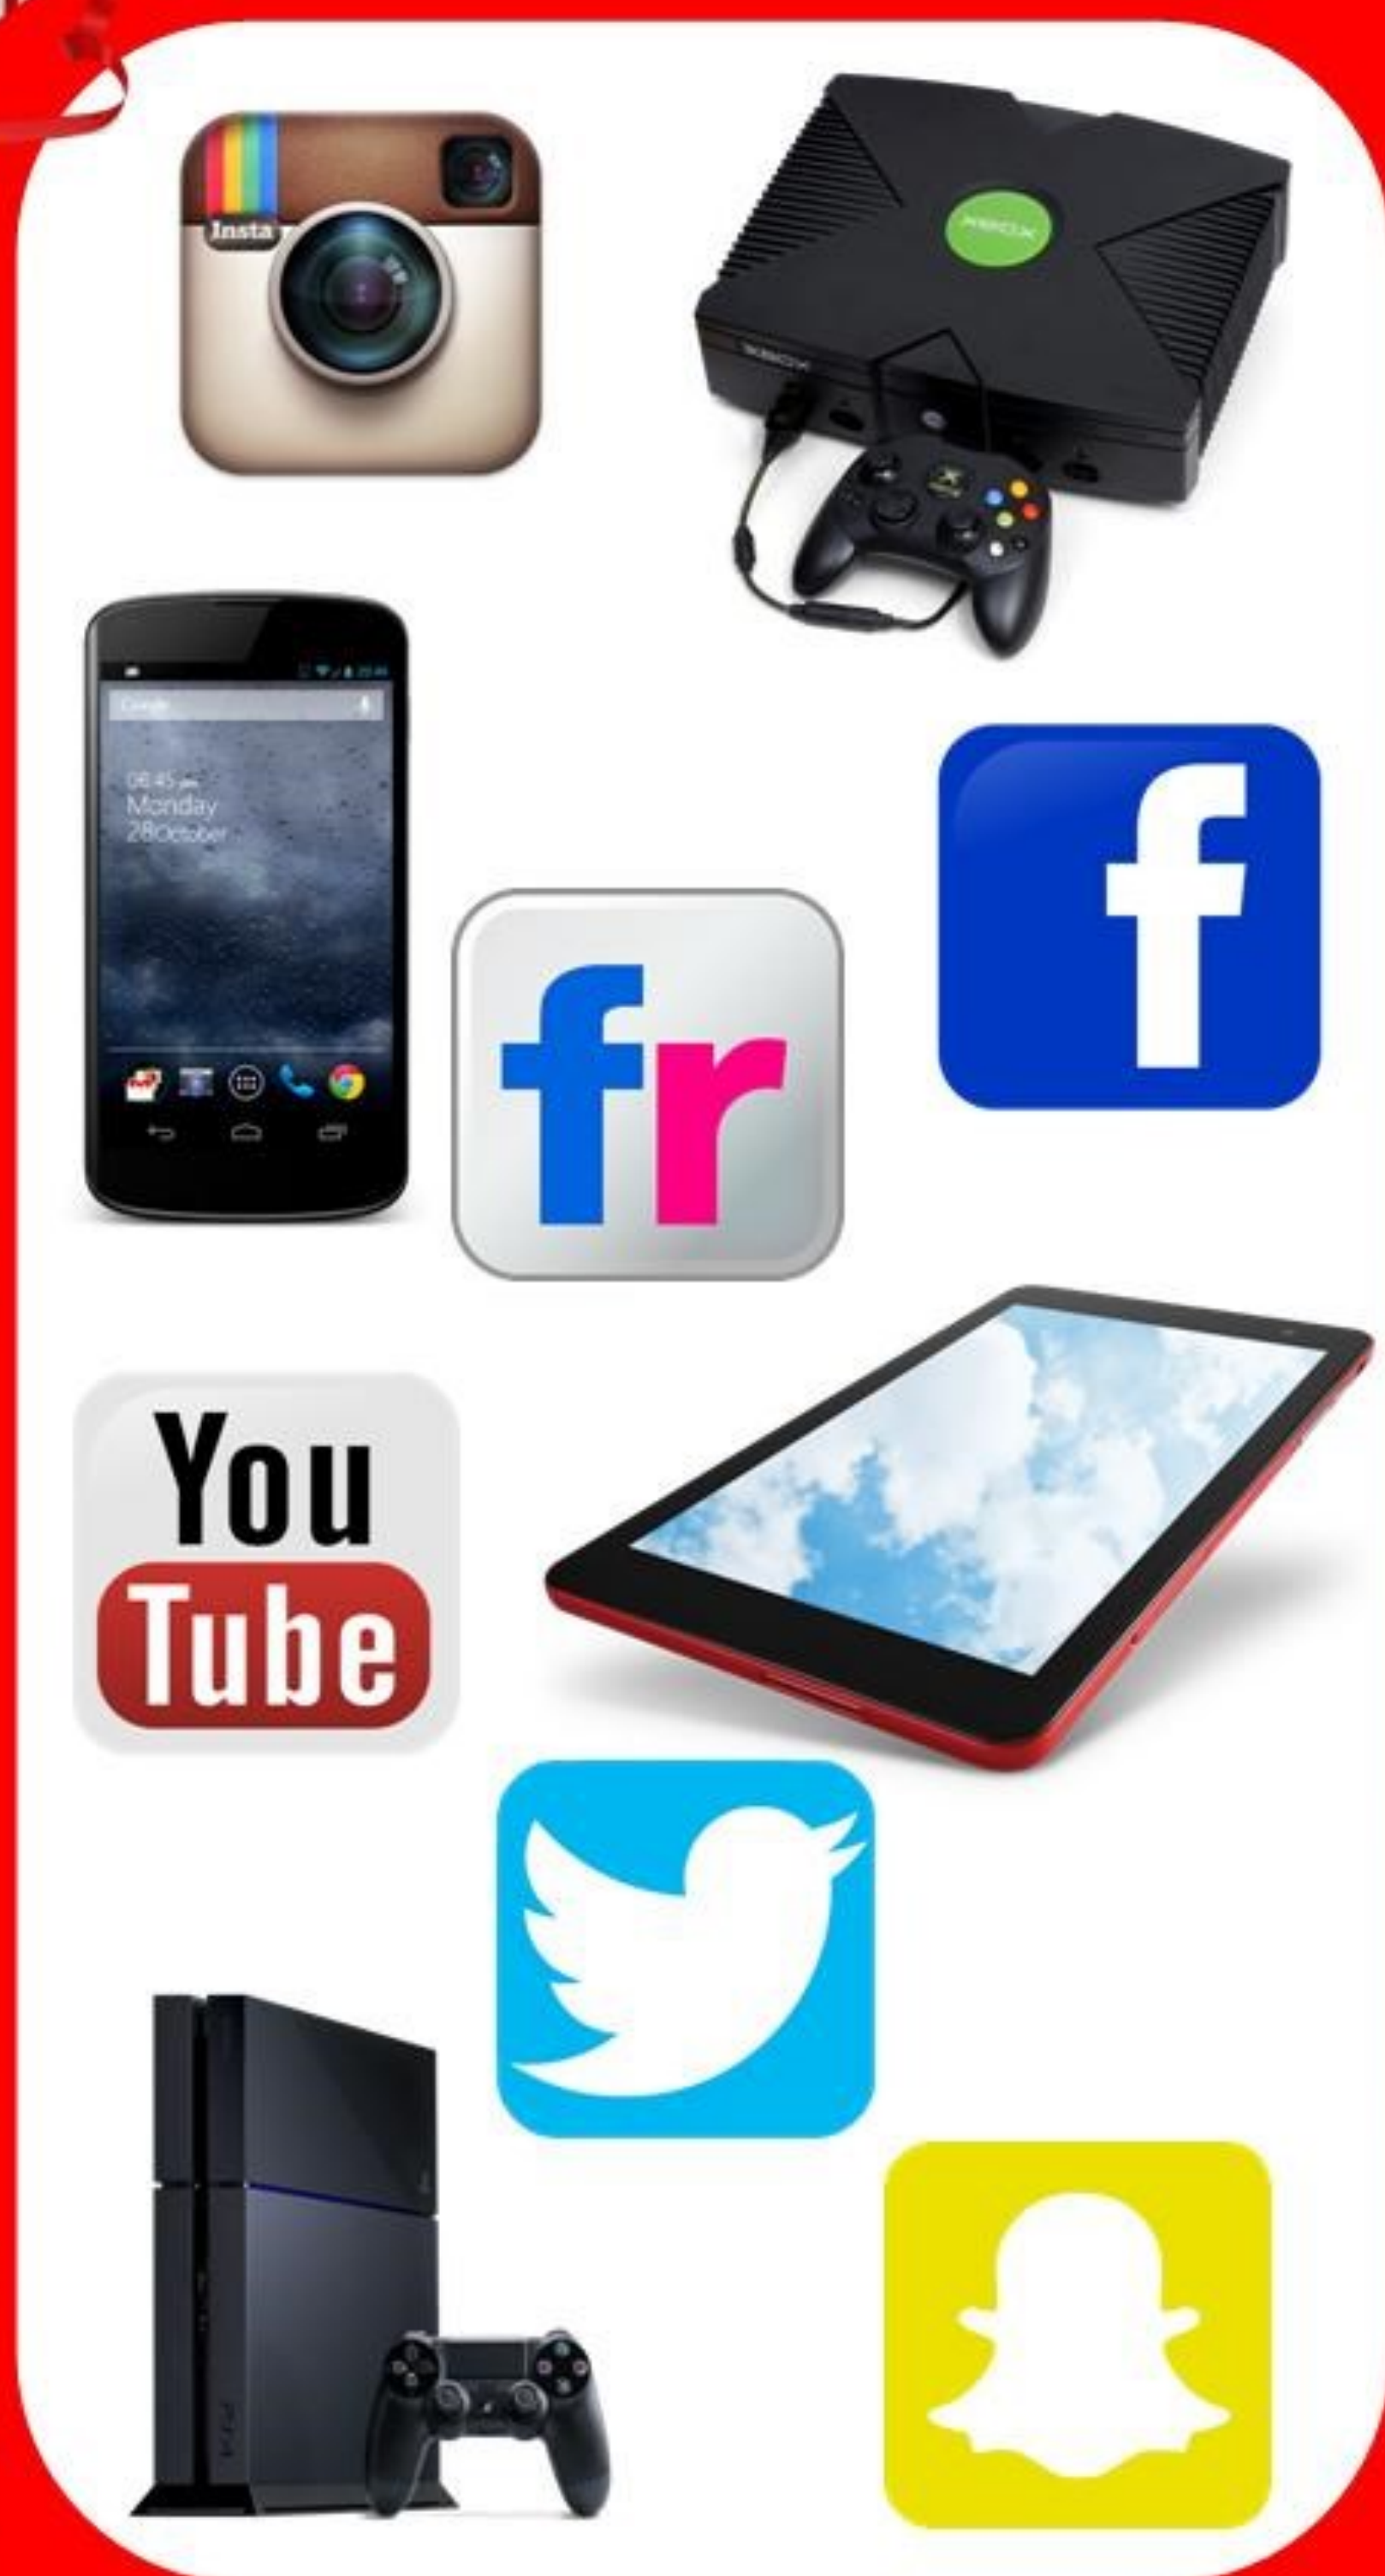

Here are our top tips to help you and your child enjoy Christmas gifts and stay safe online....

Talk to your children about what information they should and shouldn't share online. Things like inappropriate pictures, their address, phone number, school name, location and passwords.

Explain how photo's can be forwarded or shared online. Children should only send out and share photo's that they wouldn't mind being seen by the rest of the world. Once it's out there they will lose all control.

Make sure your child's privacy settings are as high as possible.

Remind your child that people aren't always who they say they are online, and that online friends shouldn't be kept a secret.

Be sure they are always polite and courteous online and speak to people as they would in the real world.

Make sure your child knows to tell you or a teacher if they find something upsetting online and that you won't punish them.

If you would like more information about staying safe online please contact the school office.
