Enjoy Believe Achieve Inspiring Lifelong Learning

## Pupils of the week

Hudson Blair

Jayden Forster-Conlon

Jemma Marsay

Gracie Chipchase

Tiana Woodier

Matthew Collingwood

Ben Bartliff

Arthur Sanders

## Watch out, there's lice about!

We have had a case of headlice reported in school this week.

Please check your child's hair and treat accordingly. Your pharmacist will be able to offer advice as to how to eradicate lice. Thank you!

There was much excitement on Thursday when the first snow of the year began to fall! Should we have heavy snow and I am forced to close the school for health and safety reasons, you will receive a text from our text system on the morning of the closure. Please ensure that we have your up to date contact details!

Today we were delighted to welcome staff and children from other Enquire Learning Trust schools to Roseberry to share our super learning with them. It always makes me feel very proud when we share what is good about our school family!

Mrs Channing

## Threadworms - what are they and how do we get rid of them?

Threadworms, also known as pinworms, are tiny parasitic worms that infect the large intestine of humans. They are a common type of worm infection in the UK, particularly in children under the age of 10. The worms are white and look like small pieces of thread. You may notice them around your child's bottom or in their poo. They don't always cause symptoms, but people often experience itchiness. It can be worse at night and disturb sleep.

If you think you or your child may have threadworms, you can usually treat the infection yourself with medication available at pharmacies without a prescription.

If you or your child has threadworms, everyone in your household will need to be treated as there's a high risk of the infection spreading. If the eggs get stuck on the person's fingertips when they scratch, they can be transferred to their mouth or on to surfaces and clothes. If other people touch an infected surface, they can then transfer the eggs to their mouth. During treatment and for a few weeks afterwards, it's also important to follow strict hygiene measures to avoid spreading the threadworm eggs. This includes regularly vacuuming your house and thoroughly washing your bathroom and kitchen.

**Please ensure that your child has their PE kit in school every day and that items of clothing are labelled with your child's name. Thank you!**

**Home discussion question**

**Stan asked... Why is it really important that we wash our hands after using the toilet and before eating?**

## D.F Motors

**Motor engineers Est 1965 A family business that cares**

\*Free pick up and delivery \*Service and pre-MOT for all types of vehicle, including hybrid and electric cars \*Approved auto-diagnosis centre \*Ford and Peugeot parts always in stock \*Specialists in VW, Audi and Skoda servicing \*Tyres, batteries, exhausts etc supplied \*Bosch air conditioning specialist
