

WINDRUSH DAY

When celebrating Windrush Day, the children in 3B experienced lots of different emotions. The 'No Blacks, No Irish, No Dogs' sign created lots of discussion around race, human rights, being fair and unfair. The children felt quite strongly about this and we decided to write about our thinking, on this matter.

DINNER MONEY & CARE CLUB ACCOUNTS

Can we politely ask all families (if applicable) to make sure their accounts are up to date. We would like to end the year with balances cleared. Many thanks.

YR 6 ICE CREAM SALE

Thank you to all the families that helped support our Yr6 children's fundraising effort today. The money raised will go towards their end of year celebrations before they move on to secondary school.

Investigating Averages

In 6U this week we have learnt about investigating averages, (Mean, Median, Mode and Range). It was very interesting and challenging.

First, we got in groups of five. Then, we recorded our shoe sizes in our early morning books and the average size for our class was 5 - 6. Next, we got our measuring tape and measured our hand span; they were all different sizes. After that, we moved onto our arm lengths. It was fascinating knowing that the measurements were different from what we had estimated. We received

feedback from our classmates and they seemed to really enjoy it.

Later on, we measured our head circumference in centimetres, which was quite easy to do. The average was about 50 or above. We were very enthusiastic about doing this as we all were excited to find out our heads span. However this took us all quite a while to calculate everyone's measurements in the group. We all enjoyed it.

Although this all took quite a while we agreed that it was worth the time. All the measurements that we had taken we had to be sure of, so that when we transferred them to mode, median, mean and range they were correct. Once we calculated the mode, median, mean and range we were all set for the next lesson self-reflection on our learning.

OPEN MORNINGS

At Sedgehill we offer an outstanding education in a warm and supportive environment, uniting high academic achievement with strong development of character.

Come and visit us to discover Sedgehill for yourself - Friday mornings at 9am.

JUNE
FRIDAY

11th, 18th & 25th

JULY
FRIDAY

2nd, 9th & 16th

MONTAGE THEATRE

ARTS

Montage Theatre Arts is a performing arts charity based in Lewisham, SE, London.

Montage Theatre Arts is committed to increasing their outreach and work within the community. A selection of bursaries are available for children aged 5 – 19 at Montage Theatre Arts. Please [click here](#) to view their website.

NURSERY

This half term we have had a big focus on Science and Technology! We've been investigating different types of technology and using our art skills to represent what we find. We've also been learning how to use the ipads and laptops in our nursery to develop our learning!

We've been using our investigation skills to examine all of the creepy crawly mini beasts in our outside environment. We've been examining them really closely and learning to talk about their features.
