PARENT WORKSHOPS

Supporting your Child with their Learning

In this workshop we will be exploring ideas & strategies that might help young people to engage with learning. As well as exploring Autism, in this workshop we will also be looking at common co-occurring learning differences such as ADHD, dyslexia and dyscalculia and we will be focusing on strategies that might be used by specialist teachers in small groups or 1-to-1 that can be adapted when children are learning at home whilst engaging in homework tasks or home-schooling.

Tuesday 6th December
2022
10.00-11.30
