

Happy New Year

Happy new year to all. I hope that you have all had a restful break. It has been lovely to see all the children back with us. We are looking forward to having the first Spring term back in school for two years! I am extremely confident that 2022 will be less disrupted and eventually bring an end to this pandemic. At Rushey we are well-prepared as always to deal with whatever challenges lie ahead. We very much look forward to having a full school year with all that it entails. This term COVID permitting we hope to resume Swimming lessons for year 4 children. Educational visits both locally and into the city. We look forward to inviting you to class assemblies. At the heart of our curriculum are learning opportunities to inspire and motivate children to explore, challenge themselves and have fun learning. We want Rushey Green to be place for children to grow and be nurtured into the great young people we know they are capable of being. What ever this year will bring I know we will continue to work together, take care of each other, and enable all of us to be our best.

Wishing you a happy and healthy new year.

Lisa Williams

HEADTEACHER

COVID

We are all aware the rise in the COVID cases most recently and in particular the our community. We are doing all we can to stay safe in school. If you are visiting school for any reason, you are required to wear a face covering.

We are encouraging the children to have good hygiene.

This will help to protect individuals and others from COVID-19.

Symptoms

If any children are suffering with these symptoms, they should be kept at home and request a test via the online portal.

A new continuous cough, A high temperature or fever (37.8 or above), A loss or change in normal sense of smell or taste.

A wider set of symptoms includes, in addition to the above, loss of appetite, diarrhea, nausea, vomiting, extreme tiredness, headaches, joint pain, muscle ache, runny nose, sore throat, and sneezing.

We've raised £10,000

We have been overwhelmed by the positive support for the just giving page for Sabina. raised. We hope to create a space where children can use as a space for reflection. We have plans to develop a wild flower garden and peaceful space for children and staff We also want to create an educational space for children to learn outdoors, to cook and grow vegetables and plants. Even a space to hold chickens! Please do continue to support our campaign. Thank you for all you have done.
