

Geography Knowledge Journey

REVISION & EXAMS

Career Paths

Geography is a subject that is highly respected by employers. Careers include: education, hydrologist, flood risk management, coastal risk management, Wildlife trust, climate change consultant, environment consultant

Skills

Analysis • Attention to Detail • Communication • Cultural Understanding • Empathy • Literacy • Organisation • Problem solving • Research • Patience • Logical Thinking

Interest

A continued passion for understanding what connects our world's physical landscapes, diverse cultures and delicate environments

Continued Targeted Support

The Changing Economic World

- Global variations in economic development and quality of life
- Reducing the global development gap
- Unemployment
- TNC - Shell

Physical Landscapes in the UK

- Coastal
- Physical Processes
- Rock type, structure
- Management strategies

YEAR 11

Fieldwork

The Living World

- Ecosystems
- Tropical Rainforests
- Hot Deserts
- Cold Environments

Challenge of Resource Management

- Food
- Water
- Changing demand and provision of resources in the UK

Changing Populations

- Global population Change
- Where Does Everyone Live?
- How Can We describe Population Structure?
- Can We Control Population?
- Why Do people Migrate
- What is Urbanisation?

South America

- Physical and Human Landscape
- How Does the Amazon Basin aid Brazil's Development?
- What is the impact of El Nino?
- What impact does tourism have on the economy and the environment?
- Why Do People Live Near Natural Hazards?

YEAR 10

The Challenge of Natural Hazards

- Urban Issues
- Changing Economic World
- Resource Management
- Food
- Water
- Energy

Challenges in the Human Environment

- Natural Hazards
- Tectonic Hazards
- Weather Hazards
- Climate Change

Tectonics

- Can We Ever Know Enough?
- Do the Continents Fit Like a Jigsaw?
- The Locations of Volcanoes, Earthquakes and Mountain Belts
- What is Happening Beneath Our Feet?
- What Happens at Plate Boundaries?

- What We Know About Earthquakes
- What We Know About Volcanoes
- Managing Risk in Earthquake Zones
- Managing Risk Near Volcano Zones

YEAR 9

Africa – A Single Story?

- What is Africa Like?
- Challenges and Opportunities Facing Africa
- The Physical Landscape
- Natural Resources
- Africa's Past
- Legacy of Colonialism
- Where do People Live?
- How Developed are African Countries?
- Distribution of Climate and Biomes
- Saharan Features

Sustainable Living

- The Planet as a Natural Resource
- Sustainable Development Goals
- Deaths from Hunger
- Food Crisis in South Sudan

Shaping the Land

- Weathering
- Rivers
- Glaciers
- Globalisation
- What is a Landscape?
- The Lake District
- The Rock Cycle
- Limestone
- Drainage Basin and Waterfall
- Meanders
- Coastal Processes

Globalisation and Me

- Globalisation
- India
- China
- My globalised life
- Transnational Corporations
- Global Supply Chains
- Recessions
- Sustainability
- Rana Plaza Disaster
- Bangladesh

YEAR 8

Weather, Climate and Environment

- What is weather and climate and how is it measured/recorded?
- What factors influence our weather?
- Distribution of world biomes
- Tropical Rain Forests
- Extreme Environments – Hot and Cold
- UK Climate
- World Climate

Fantastic Places and Where to Find Them

- What is a Geographer?
- Human and Physical Geography
- OS Map Skills
- Geography of the UK/Europe/World
- Rio
- Victoria Falls
- Mt St Helens
- Antarctica

YEAR 7
