**Guidance for parents RE the filming, photographing or streaming of school events**

Our **pre-recorded** Christmas events will soon be taking place so we would like to take this opportunity to remind you of our policy which applies to all video or audio capture of staff and pupils, both in and out of school.

This policy applies to sporting events, parents' evenings, plays, assemblies, school trips and any other school event or gathering, whether on school premises or beyond, whether in person, a live virtual session or pre-recorded event.

We appreciate that families will treasure photographic/video memories, and the general rule is that parents and carers may take photos and videos of the children in their care, for personal use only. There may be rare exceptions to this, and we will let you know in advance of particular events where no filming etc is possible. Thank you for your understanding.

Live streaming, whether public or private, cannot be permitted by parents, families and friends at any event and we request that you do not use any streaming platforms or 'live' features (e.g. Facebook Live) to stream events/circumstances as they occur. You may be asked to leave the premises or event if this takes place.

When you capture footage or still images of your children, there is a strong possibility that other children will also be visible or audible. For this reason, no such content should be shared publicly. You will have seen other parents share videos of school plays on social media, but this does not make it advisable or acceptable.

There are several important reasons for this:

- Some children are deemed at risk by local authority safeguarding and child protection authorities; their image must never be put online for their own protection. You are very unlikely to know who these children are. Others may have complex family backgrounds which mean that sharing their image could have unforeseen consequence. There is the real possibility you could endanger a child by sharing their image in an identifiable context (e.g. where the school is easy to identify and locate).
- Express consent is needed from parents to comply with data protection legislation, which is being enhanced under the General Data Protection Regulations and the new Data Protection Act. Sharing could otherwise potentially incur fines for contravention of data protection rules.
- Some families may object for religious or cultural reasons, or simply for reasons of personal privacy.
- Sharing images of children in school uniform helps identify them so should not be done unless avoidable.
- We encourage young people at our school to think about their online reputation and digital footprint: online photos and videos do not simply disappear when we delete them from our accounts. Help us be good adult role models by not oversharing (or providing embarrassment in later life).
- We want you to enjoy school events and activities with your child, so why not just sit back, enjoy the memories and allow others to do so too? Remember, your child wants to see you looking at them, not at your phone.

Where possible, we will take appropriate staged group shots of pupils whose parents/carers have given appropriate photographic permissions and make these available to you. Equally, and again wherever possible, we will ensure there is time for parents to take photographs of their own children for example by approaching the stage after a performance. The same provisos apply here as stated above.

As you are aware, due to COVID restrictions this year, our Christmas events will be pre-recorded, however the same provisos apply. You should not be sharing any images or video recordings on social media for all the above stated reasons. The videos will remain available on school platforms which you can access, but we ask you not to copy and share them wider than these platforms, for the protection of our children. Thank you for your support.
